

ASBESTOS SAFETY TRAINING MEMORANDUM 2011-01

Issue Date: October 5, 2011

Issuance of Inspector and Management Planner Certificates of Asbestos Safety Training (DOH-2832)

Effective January 1, 2012, all New York State Department of Health Certificates of Asbestos Safety Training (DOH-2832) shall be issued for one discipline only. Combined certificates issued for Inspector/Management Planner Initial (IMP) and Inspector/Management Planner Refresher (IMPR) training will no longer be allowed.

Although frequently offered on the same day, training providers should note that Inspector and Management Planner courses are considered separate and distinct. Each discipline will require separate certification. Please also note that valid Inspector training is a prerequisite to completing Management Planner training. This means that a trainee must have successfully completed an Inspector course and passed an Inspector examination (**within the previous 12 months**) prior to attending Management Planner training.

If you have any questions regarding this policy, please contact the Asbestos Safety Training Program at (518) 402-7940.
