By: Susan Marotta, Esq.

One Brooklyn Health System, Inc.

Brooklyn, New York 11212

Pursuant to Public Health Law ("PHL") §2801 and Title 10 of the Official Compilation of Codes, Rules and Regulations of the State of New York ("10 NYCRR") §415.2(k), a residential health care facility or nursing home such as Rutland Nursing Home ("Respondent" or "Facility") is a residential facility providing nursing care to sick, invalid, infirm, disabled, or convalescent persons who need regular nursing services or other professional services but who do not need the services of a general hospital.

Transfer and discharge rights of nursing home residents are set forth at 10 NYCRR §415.3(i). Respondent determined to discharge ("Appellant" or "Resident") from care and treatment in its nursing home pursuant to 10 NYCRR §415.3(i)(1)(i)(a)(2) which provides, in pertinent part:

(2) the transfer or discharge is appropriate because the resident's health has improved sufficiently so the resident no longer needs the services provided by the facility.

Appellant appealed the discharge determination to the New York State Department of Health and a hearing on that appeal was held. Pursuant to §415.3(i)(2)(iii)(b), the Facility has the burden of proving that the transfer is necessary and the discharge plan is appropriate.

A recording of the hearing was made part of the record. Appellant and Appellant's testified for Appellant. Moiz Hamdani, M.D., Deborah Headley, Marra Blank, R.N., and Annei Banzon testified for Respondent.

The following documents were accepted into evidence by the Administrative Law Judge ("ALJ") as ALJ, Facility, and Resident Exhibits:

Has Rutland Nursing Home established that the discharge is necessary and the discharge plan is appropriate?

### FINDINGS OF FACT

Citations in parentheses refer to testimony ("T") and exhibits ("Ex") found persuasive.

- 1. Respondent, Rutland Nursing Home, is a residential health care facility located in Brooklyn, New York. (Ex I)
- 2. Appellant, age age, was admitted to the Facility on 2020, for short-term care including follow-up of the the facility on the hospital for

Appellant's chronic conditions include

completed antibiotics, wound care, and physical therapy. Appellant is alert and oriented, and able to make his needs known and care for himself. Appellant's chronic conditions including any need for additional physical therapy can be addressed in the community. (Ex 1; Ex A; B; F; G; H; T Hamdani, Banzon, Blank)

Ex 1). Appellant received and has successfully

- 3. It is the professional opinion of Appellant's caregivers at the Facility that discharge to the community, including the ("Shelter"), is appropriate for Appellant. By notice dated 2021, Respondent advised Appellant that it had determined to discharge Appellant to the Shelter on the grounds that his health has improved sufficiently so he no longer needs the services provided by the Facility. (Ex B; T Hamdani, Headley, Blank)
- 4. Prior to discharge, Respondent will order a rollator for Appellant. Upon discharge, Respondent will provide Appellant with the new rollator, medications, and any other orders, prescriptions, and recommendations identified by the various disciplines (medical, nursing, rehab, etc.). The Shelter will provide housing and assistance with obtaining more permanent housing, a job, and benefits for which Appellant might be eligible. (T Headley, Banzon, Blank)
- 5. Appellant has remained at the Facility pending the outcome of this proceeding.

### DISCUSSION

The evidence presented by Respondent demonstrated that: Appellant is independent with his ADLs (Activities of Daily Living); he no longer requires skilled care and services; and discharge to the Shelter system, where Appellant previously resided, is an appropriate discharge location for Appellant.

/ Rutland

rehabilitation goals and is now at "baseline" following his restorative rehabilitative services at

the Facility, is ready for and would benefit from outpatient physical therapy in the community.

Appellant does not want to be discharged to the Shelter. Appellant's

the Shelter would not be appropriate for Appellant because a large room with many inhabitants

(which is what he believes the Shelter would provide) would not be good for Appellant.

believes a room with three or four people would be okay for Appellant. Ms.

Headley testified that the Shelter, where Appellant previously resided, was designated as a last

resort because Appellant does not have a home in the community and he does not have income.

Respondent worked with Appellant on seeking an apartment, specifically adult supportive

housing, but housing was not yet secured. Appellant will receive assistance in securing housing

when he is discharged to the Shelter.

DECISION

I find that the Facility has proved by substantial evidence that the discharge is necessary

and the discharge location is appropriate.

The appeal by Appellant is therefore DENIED.

Respondent, Rutland Nursing Home, is authorized to discharge Appellant in accordance

, 2021 Discharge Notice.

This Decision may be appealed to a court of competent jurisdiction pursuant to Article 78

of the New York Civil Practice Law and Rules (CPLR).
