Agenda Items

Preferred Drug Program (PDP) Review

The DUR Board will review the therapeutic classes listed below, as they pertain to the PDP (NYS Public Health Law, Sections 272 and 273 - <https://www.nysenate.gov/legislation/laws/PBH/A2-AT1>).

- The DUR Board will review the therapeutic classes listed below to recommend preferred and non-preferred drugs. The review may also include relevant clinical criteria updates applicable to a therapeutic class.
- For therapeutic classes currently subject to the PDP, the DUR Board will only consider clinical information, which is new since the previous review of the therapeutic class and then consider financial information
- New clinical information may include a new drug or drug product information, new indications, new safety information or new published clinical trials (comparative evidence is preferred, or placebo controlled when no head-to-head trials are available). Information in abstract form alone, posters, or unpublished data are poor quality evidence for the purpose of PDP reviews and submission is discouraged.
- The Preferred Drug List (PDL) which includes the current preferred and non-preferred status within each therapeutic class may be viewed at https://newyork.fhsc.com/downloads/providers/NYRx_PDP_PDL.pdf
