Section III. Data Transfer Information

☐ Check here if you are a Medigap insurer that is receiving only claim-based Medicare crossover claims without providing Eligibility Files to the CMS Contractor. If checked, skip "A," Parts 1 and 2 of this section and continue with "B" (COBA Claims File).

A. ELIGIBILITY FILE

Part 1. COBA Eligibility Record - Medicare Parts A and B Claims Crossover

1. Format: Refer to the COBA File Formats and Connectivity website on cms.gov to reference the E-01 Eligibility File specification and layout.

2. Frequency of Eligibility File:
(**Note:** The frequency options are subject to change upon notification).

   ☐ Monthly
   ☐ Bi-Weekly

3. Eligibility File Type: (Updates: Adds, Changes, Deletes)

   CONDITIONS:

   a) The CMS Contractor will establish a specific day of the week or day of the month on which Eligibility Files will be sent.

   b) The Trading Partner may submit eligibility files outside its regularly scheduled eligibility file frequency (i.e., monthly or bi-weekly) if it is taking action to reconcile any errors in the most recent submission. Unless, the Trading Partner notifies its assigned EDI representative of its intention to send its eligibility files off-cycle, such submissions will be rejected.

   c) The Trading Partner will be responsible for submitting an eligibility file containing specific members if a recovery of claims is requested for those members.

   d) Upon request, the CMS Contractor will provide the Trading Partner with an eligibility file as it exists at the CMS Contractor, and which mirrors the information housed at CMS' Common Working File (CWF), to accommodate synchronization of eligibility records.

4. Media Type:
   Please indicate below the media type that will be used for Eligibility File Transfer.
   Please check one:

   - ☐ Connect Direct (NDM)
   - ☐ Secure File Transfer Protocol (SFTP) or Hypertext Transfer Protocol Secure (HTTPS)

Part 2. Drug Eligibility Record - Prescription Drug Coverage

Submission of this record is necessary for CMS and the Trading Partner to meet the coordination of benefits requirements of the Medicare Prescription Drug, Improvement, and Modernization Act of 2003 (Medicare Part D). This record does not result in the receipt of crossover claims through the COBA process for the Trading Partner's use in making Medicare Part D supplemental payment. Submission of this record enables CMS to coordinate payment of prescription drugs at the pharmacy point of sale.

Please check all that apply.

1. Prescription Drug Coverage the Trading Partner Offers:

   - ☐ Trading Partner receives a retirement drug subsidy from CMS. Therefore, available drug coverage is in lieu of Medicare Part D benefits.
   - ☐ Trading Partner does not offer prescription drug coverage that is the supplemental to Medicare Part D benefit. (Under Part 3, in the below, separate section mark either Option 3 or 4 as applicable to your organization.)
   - ☐ Trading Partner does offer prescription drug coverage that is supplemental to the Medicare Part D benefit. The trading partner administers and directly pays prescription drug benefits for those members with prescription drug coverage. (Under Part 2, complete items 2 and 4 through 6 below, marking the applicable option in each case. Under Part 3 below, mark the most appropriate selection among options 1-3.)
   - ☐ Trading partner does offer prescription drug coverage that is supplemental to the Medicare Part D benefit but contracts with a pharmaceutical benefit manager (PBM) to pay prescription drug benefits in the pharmacy network. Please provide the name of the PBM or related entity here:

     ____

     Also, list this entity in Section V of this Attachment. (Under Part 2, complete 2 and 4 through 6, marking the applicable option in each case. Under Part 3 below, mark the most appropriate selection among options 1-3.)

2. How the Trading Partner will submit Prescription Drug Coverage Information:

- ☐ Trading Partner or the separate entity named above and in Section V will submit the drug eligibility record through the alternative Section 111 of the Medicare, Medicaid, SCHIP Extension Act of 2007 (MMSEA) process no later than 90 calendar days from the COBA production date.

  Include your responsible reporting entity (RRE) ID(s) below that is/are used in association with expanded Section 111 MMSEA reporting:

  ____

- ☐ Trading Partner or the separate entity named above and in Section V will submit the drug eligibility record through this Coordination of Benefits Agreement via the E02 format no later than 90 days from the COBA production date.

3. Format: Refer to the COBA File Formats and Connectivity website to reference the E-02 Eligibility File specification and layout. Refer to the COBA Implementation User Guide on the Coordination of Benefits Agreement website to reference the Section 111 Drug Eligibility Record specification and layout.

4. Frequency of Eligibility File (E-02):

- ☐ Monthly
- ☐ Bi-Weekly (Offered only through COBA E-02)

5. Eligibility File Type: (Updates: Adds, Changes, Deletes)

CONDITIONS:

a) The CMS Contractor will establish a specific day of the week or day of the month on which Eligibility Files will be sent.

b) The Trading Partner may submit eligibility files outside its regularly scheduled eligibility file frequency (i.e., monthly or bi-weekly) if it is taking action to reconcile any errors in the most recent submission. Unless, the Trading Partner notifies its assigned EDI representative of its intention to send its eligibility files off-cycle, such submissions will be rejected.

6. Media Type:
   Please indicate below the media type that will be used for Eligibility File Transfer. Please check one:

   - ☐ Connect Direct (NDM)
   - ☐ Secure File Transfer Protocol (SFTP) or Hypertext Transfer Protocol Secure (HTTPS)

Part 3. Eligibility Query Options Under the COBA Program

The COBA process supports routine eligibility queries for purposes of determining Medicare entitlement, as appropriate. Effective July 1, 2010, CMS supports three mechanisms for this purpose: 1) the E-02 query process, 2) the expanded non- Medicare Secondary Payer (MSP) input file process, and 3) the Health Eligibility Wrapper (HEW) 270/271 compliant file process. The permitted use of one option versus the other is conditioned by whether the Trading Partner submits drug eligibility information to the CMS Contractor. Trading Partners that do **not** submit drug eligibility information to the CMS Contractor may either use alternative methods for determining Medicare entitlement for their covered membership or may use the HEW 270/271 compliant file process to obtain Medicare Parts A, B, and C entitlement information for their covered members.

Directions: Mark the option below that is most applicable to your organization. (**NOTE:** only one option should apply per Trading Partner.)

Option 1:

☐ The Trading Partner uses the E-02 layout to report supplemental drug eligibility information to the CMS Contractor. Therefore, the Trading Partner will be using the E-02 “query” option to perform routine Medicare entitlement determinations for its covered membership. (Under this option, the CMS Contractor returns Medicare Parts A, B, C, and D entitlement data to the Trading Partner via the E-02 query response file.).

Option 2:

☐ The Trading Partner reports drug eligibility information to CMS under Section 111 of the MMSEA of 2007 via the mandatory insurer reporting (MIR) process. Also, the Trading Partner uses the expanded non-MSP input file to perform queries to obtain Medicare Parts A, B, C, and D entitlement determinations for its covered membership.

Option 3:

☐ The Trading Partner does **not** report drug eligibility information to CMS via either the E-02 or the Section 111 MMSEA MIR process. The Trading Partner will therefore be using the HEW 270/271 compliant software to perform Medicare Parts A, B, and C entitlement determinations for its covered membership. (Contact your CMS Contractor or EDI

representative to obtain the needed HEW 270/271 software for use as either a PC or mainframe version.)

As applicable, mark the HEW 270/271 software version your organization will use.

☐ PC

☐ Mainframe

Option 4:

☐ The Trading Partner does **not** report drug eligibility information to CMS via the E-02 or Section 111 MMSEA MIR process and will **not** use the HEW 270/271 to perform eligibility query functions.

B. COBA CLAIMS FILES

NOTE: You will receive electronic Claims Files from the CMS Contractor in the following specified formats, unless otherwise indicated in Section III.B.5.

1. Format:The claim formats currently supported under this Agreement include the following:

   Health Insurance Portability and Accountability Act (HIPAA) American National Standards Institute (ANSI) X12 837 Institutional and Professional Claims for Coordination of Benefits.

   National Council for Prescription Drug Programs (NCPDP) Telecommunication Standard (batch version).

   Refer to the cms.gov HIPAA 5010 COB Claims website for information concerning the current version of the HIPAA ANSI X12 and NCPDP batch claims adopted by the Secretary of Health & Human Services and therefore used within the national COBA crossover program.

2. Outbound Claims File Receiver Qualifier and Identification:

   For receipt of the ANSI X12N 837 Institutional and/or Professional Claim, the Trading Partner prefers the following designations for the ISA 07 and ISA 08 fields:

   ________________________ ISA-07 (Receiver Qualifier -- 2 bytes)
   Note: “ZZ” will be used unless otherwise agreed upon by receiver/sender.

   ________________________ ISA-08 (Receiver ID --15 bytes)

   For receipt of the NCPDP batch claims, the Trading Partner prefers the following designation:

______________________ Receiver ID -- 24 bytes

Note: Trading partners must provide the Receiver Qualifier and Interchange Receiver ID to be used when files are transmitted to them by the CMS Contractor. However, if claims for multiple COBA IDs are to be combined in a single file to one entity, then one Receiver Qualifier and Interchange Receiver ID must be used for the entire file; e.g., when multiple Trading Partners use the same clearing house to receive claims and the clearing house elects to receive one combined file from the CMS Contractor rather than receiving separate claim files for each trading partner.

3. Frequency of Claims File:

- ☐ Daily
- ☐ Weekly (specify day below)
- ☐ Bi-Weekly (specify day below)
- ☐ Monthly (specify day below)

Day:

- ☐ Tuesday
- ☐ Wednesday
- ☐ Thursday
- ☐ Friday
- ☐ Saturday

4. Media Type:
Please indicate below the media type that will be used for Eligibility File Transfer. Please check one:

- ☐ Connect Direct (NDM)
- ☐ Secure File Transfer Protocol (SFTP) or Hypertext Transfer Protocol Secure (HTTPS)

5. Print Trading Partner's Name on the Medicare Summary Notice (MSN)

- ☐ Yes
- ☐ No

Note:

A Trading Partner that wishes its name to be printed on the MSN should ensure that the “Trading Partner Name” reflected on page 1 of this Attachment will be recognizable by its covered members (i.e., it’s doing-business-as name).

Section IV. Claims Selection Options

A. PART A MEDICARE ADMINISTRATIVE CONTRACTOR (MAC)/ HOME HEALTH & HOSPICE (HH&H) CLAIMS BY TYPE OF BILL

NOTE: These institutional types of bills are not available for receipt or individual exclusion to Medigap claim-based crossover recipients. Medigap insurers that do not provide an eligibility file to identify their members for crossover purposes will continue to receive only professional claims via the COBA Medigap claim- based crossover process. Since Medigap claim-based recipients will not receive institutional claims via their crossover process, they may not make elections below.

☐ 1. Check here if you would like to **receive all types of bills.** (Will include all Part A MAC, Specialty MAC, and HH&H TOBs as listed below)

☐ 2. Check here if you **do not** wish to receive any types of bills. (Will exclude receipt of all Part A MAC, Specialty MAC, and HH&H TOBS as listed below)

☐ 3. Otherwise, place a mark next to those types of bills you wish to **exclude.** The selection criteria are based on the first two digits of the type of bill. (TOBs with no mark)

NOTES

1. Home health type of bill 32X (adjudicated as 329) typically results in no patient liability following Medicare's payment determination. COBA trading partners that mark the exclusion for “adjustment claims fully paid without deductible or co-insurance remaining” in Section IV.E will **not** receive these claims via the crossover process. Trading partners may wish to receive these claims if they would pay during situations where Medicare completely denies the claims, such as when a non-participating Medicare home health agency is used or an appropriate plan of care was not ordered/arranged.

2. Hospice type of bills 81X and 82X typically reflect no patient liability for claims crossover purposes. COBA trading partners may wish to mark the exclusion for “original claims fully paid without deductible or co-insurance remaining” in Section IV.E to ensure they only receive such claims when co-insurance or other patient cost-sharing applies.

B. PART A MAC/HH&H CLAIMS (INSTITUTIONAL) BY PROVIDER/STATE
