## New York State Cancer Registry, NYSDOH
Age-Adjusted Cancer Incidence and Mortality Rates
New York State, White Individuals, 1976-2020

All Invasive Malignant Tumors

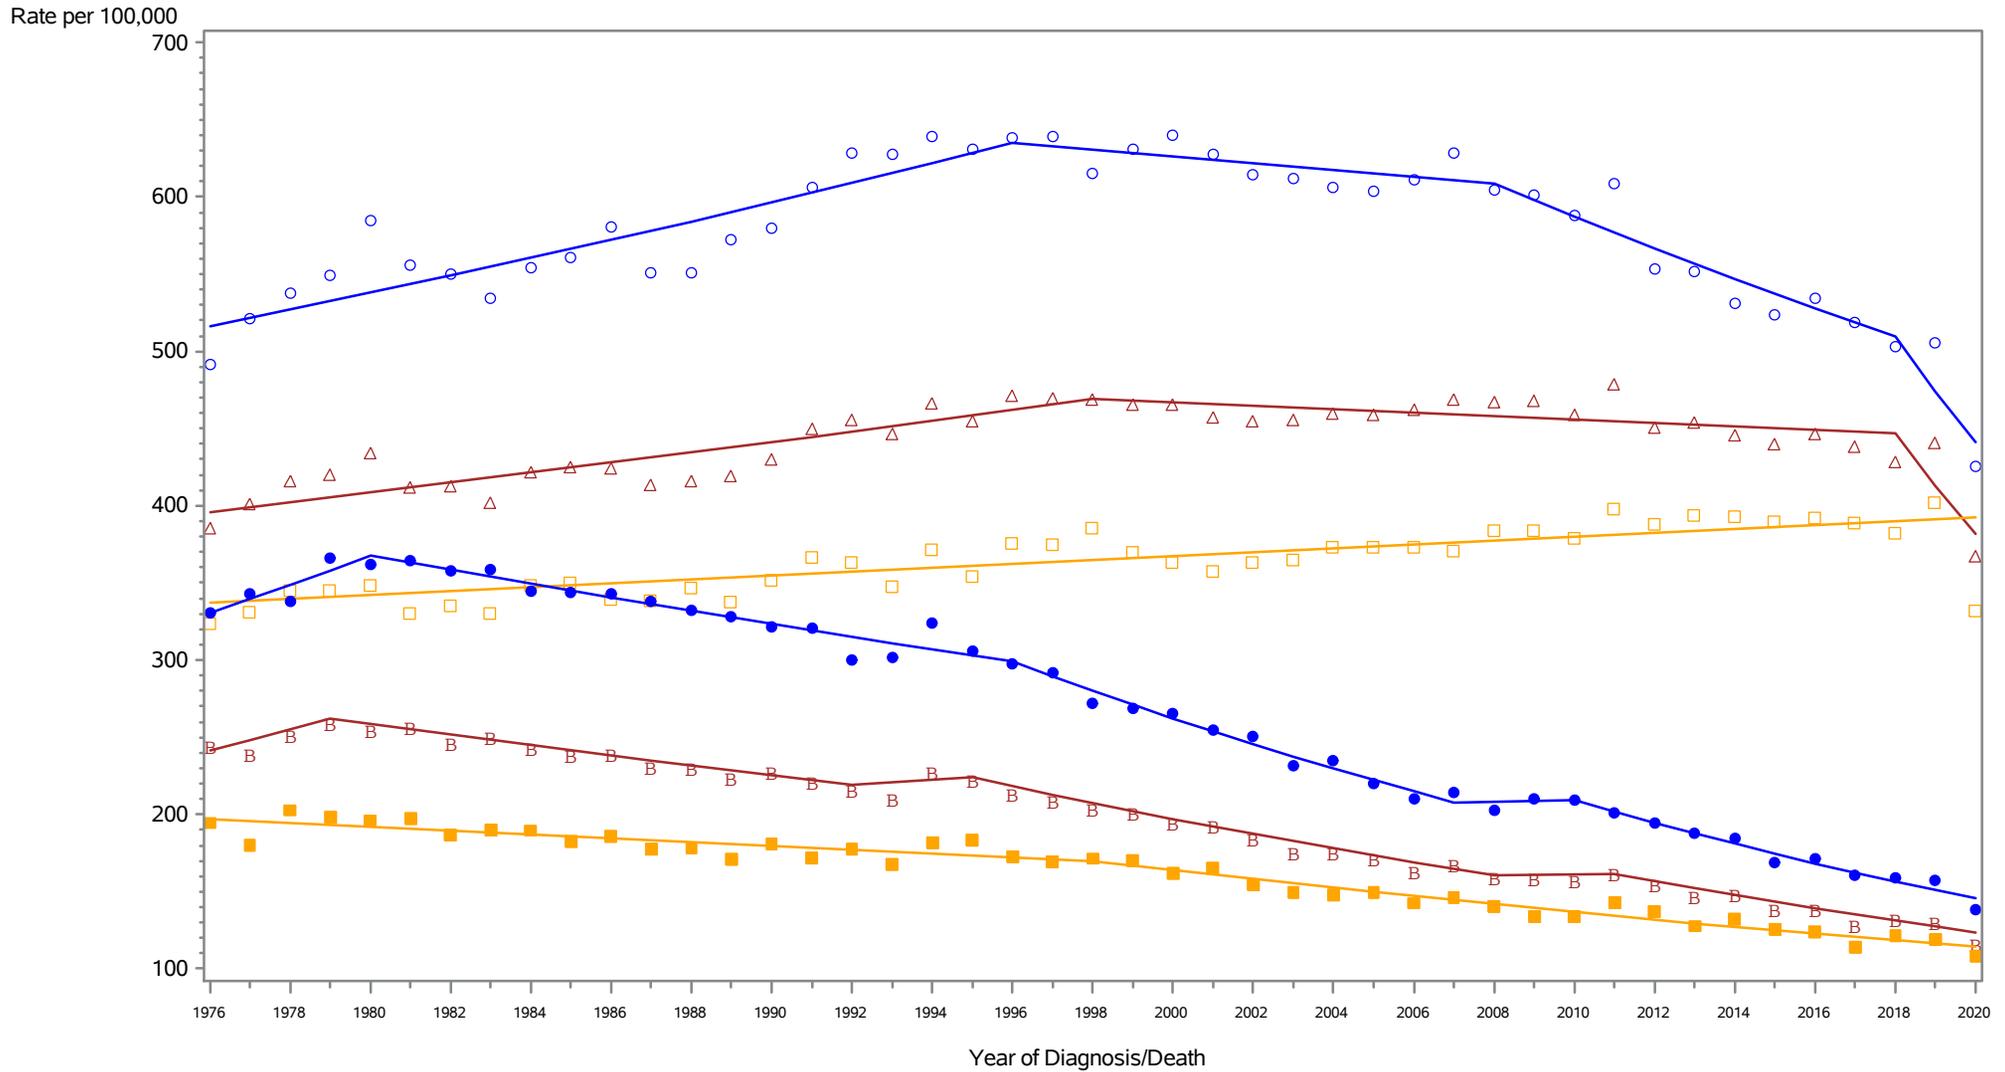

Rate per 100,000

Year of Diagnosis/Death

△ △ △ Incidence among Males and Females   ○ ○ ○ Incidence among Males   □ □ □ Incidence among Females
B B B Mortality among Males and Females   ● ● ● Mortality among Males   ■ ■ ■ Mortality among Females

Rates are age-adjusted to the 2000 US population standard. Cancer diagnoses trends in 2020 may have been affected by the coronavirus disease 19 (COVID-19) pandemic.
Regression lines are calculated using the Joinpoint Regression Program Version 4.6.0.0, April 2018, National Cancer Institute (https://surveillance.cancer.gov/joinpoint/).
The data shown here are not identical to the data in the corresponding 2016-2020 incidence table. See the rationale in 'Considerations When Comparing Cancer Statistics Over Time.'

New York State Cancer Registry, NYSDOH
Age-Adjusted Cancer Incidence and Mortality Rates
New York State, Black Individuals, 1976-2020

All Invasive Malignant Tumors

Rate per 100,000

Year of Diagnosis/Death

△ △ △ Incidence among Males and Females
○ ○ ○ Incidence among Males
□ □ □ Incidence among Females
B B B Mortality among Males and Females
● ● ● Mortality among Males
■ ■ ■ Mortality among Females

Rates are age-adjusted to the 2000 US population standard. Cancer diagnoses trends in 2020 may have been affected by the coronavirus disease 19 (COVID-19) pandemic.
Regression lines are calculated using the Joinpoint Regression Program Version 4.6.0.0, April 2018, National Cancer Institute (https://surveillance.cancer.gov/joinpoint/).
The data shown here are not identical to the data in the corresponding 2016-2020 incidence table. See the rationale in 'Considerations When Comparing Cancer Statistics Over Time.'

New York State Cancer Registry, NYSDOH
Age-Adjusted Cancer Incidence and Mortality Rates
New York State, White Individuals, 1976-2020

Oral cavity and pharynx

Oral cavity and pharynx

Rate per 100,000

Year of Diagnosis/Death

Legend:
- △ △ △ Incidence among Males and Females
- ○ ○ ○ Incidence among Males
- □ □ □ Incidence among Females

△ △ △ Incidence among Males and Females   ○ ○ ○ Incidence among Males   □ □ □ Incidence among Females
B B B Mortality among Males and Females   ● ● ● Mortality among Males   ■ ■ ■ Mortality among Females

Rates are age-adjusted to the 2000 US population standard. Cancer diagnoses trends in 2020 may have been affected by the coronavirus disease 19 (COVID-19) pandemic.
Regression lines are calculated using the Joinpoint Regression Program Version 4.6.0.0, April 2018, National Cancer Institute (https://surveillance.cancer.gov/joinpoint/).
The data shown here are not identical to the data in the corresponding 2016-2020 incidence table. See the rationale in 'Considerations When Comparing Cancer Statistics Over Time.'
