

APC STATEWIDE STEERING COMMITTEE

Mandate	
<p>This committee is charged with providing strategic direction and guidance to the State during the implementation and regional roll-out of the Advanced Primary Care model. This group will meet quarterly and will be supported by and charged with the alignment of multiple regional councils convened to implement APC at the community level.</p> <p>As a multi-stakeholder group, the Statewide Steering Committee will serve as the neutral convener of the New York State Advanced Primary Care model. Committee members will include health plans, physician groups, practice representatives and hospital systems, as well as academic, consumer and purchaser representatives. The committee will be guided by a mutually agreed upon statement of vision, goals, core principles, and project objectives.</p> <p>More specifically, this new governance entity will be charged with the following:</p> <ul style="list-style-type: none"> ▪ Advise the department on the evolution of the APC model to reflect learnings during the implementation process. ▪ Provide guidance regarding alignment across regions as well as alignment of numerous federal and state initiatives to ensure efficiency and coordination to achieve common goals. ▪ Report to the Health Innovation Council twice yearly to offer legislative and regulatory recommendations as needed and appropriate.
