This annual report of the New York State Department of Health (NYS DOH) Youth Access Tobacco Enforcement Program is prepared in accordance with Section 1399-kk of the Public Health Law and is submitted by the Commissioner of Health to the Governor and the Legislature.

ACKNOWLEDGEMENTS

Special thanks go to the local health department enforcement officers, the New York City Department of Consumer Affairs and the youth who participated in the access compliance check surveillance program. For more than 12 years, these dedicated agencies and individuals have been the leaders in the State's effort to increase retailer compliance with the public health law in our communities.

Staff of the New York State Department of Health's Bureau of Community Environmental Health and Food Protection, Tobacco Enforcement Program prepared this report with data provided from the local enforcement officers, other state agencies and programs within the Department of Health. The New York State Department of Health's Tobacco Control Program and the New York State Education Department supplied information regarding tobacco use and trends among minors. The State Department of Taxation and Finance provided registration and revenue data. The Department of State's Office of Fire Prevention and Control supplied data regarding fires.

PREFACE

The purpose of New York's Adolescent Tobacco Use Prevention Act is to aid in reducing morbidity and mortality caused by tobacco use by reducing children's access to cigarettes and other tobacco products. It has been well documented that most smokers begin before they are 18 years old and half before they are 15. Many people who start smoking as youth find it nearly impossible to quit during their lifetime. For more than 12 years, state and local enforcement officials have been increasingly successful at reducing youth access to tobacco products and improving retailer compliance with the Adolescent Tobacco Use Prevention Act.

The Adolescent Tobacco Use Prevention Act requires retailers to obtain positive proof that the person buying cigarettes is over the age of 18. Retailers found in violation of this law are subject to fines and loss of their tobacco registration and lottery license for repeated violations. The law also limits the location of vending machines and limits the venues in which free tobacco products can be distributed. These enforcement measures are aimed at making tobacco products less accessible to minors and are a part of the State's \$59.26 million comprehensive anti-smoking program.

This Annual Report is prepared by the Tobacco Enforcement Program, located in the New York State Department of Health's Center for Environmental Health. The report covers the time period of October 1, 2008 – September 30, 2009, and includes the following information:

- Number of tobacco compliance checks that were conducted;
- Names and addresses of tobacco vendors who sold tobacco products to underage youth and were penalized;
- New York State results of the 2008 National Youth Tobacco Survey;
- Tobacco sales data from the State Department of Taxation and Finance; and
- Tobacco-related fire injury data from the Department of State's Fire Reporting System.

During the 2008 – 2009 program year, state and local enforcement officers conducted 35,381 inspections of tobacco retailers to assess compliance with the State's Public Health Law (Adolescent Tobacco Use Prevention Act). Of these inspections, more than 26,000 included unannounced compliance checks where minors attempted to purchase tobacco under the direct supervision of the enforcement official. Over 9,000 additional visits were made to determine compliance with Department of Health signage requirements and Department of Taxation and Finance registration requirements, to educate retailers about the Public Health Law, to verify vending machine supervision and location compliance and/or to investigate complaints. One thousand seven hundred ninety enforcement actions were taken for sales of tobacco products to minors and more than \$1.19 million in fines were assessed.

In the last 12 years (1997-2009), state grants totaling more than \$45.8 million were awarded to local enforcement officials to implement the Tobacco Enforcement Program, which resulted in a decline in the rate of non-compliance by retailers from 19.0 percent to 7.0 percent. From 1997 to 2009, more than \$24.7 million in fines have been levied against 34,349 retailers for selling tobacco to minors. The Department of Taxation and Finance has suspended the registrations of 2,206 tobacco retailers as a result of multiple enforcement actions for selling tobacco to underage youth. There were also 563 lottery agent licenses suspended for multiple sales to minors. Of the 450,179 compliance inspections that have taken place during the 12 years, 318,786 were conducted with the assistance of minors attempting to purchase tobacco products.

New York State Department of Health (NYSDOH)
Center for Environmental Health
Youth Access Tobacco Enforcement Program Annual Report
October 1, 2008 – September 30, 2009

Program Overview

In September 2009, the New York State Department of Health (NYSDOH) completed its twelfth program year of youth tobacco access enforcement statewide. As part of the State's continued commitment to preventing youth access to tobacco, \$5.855 million was awarded to local enforcement officers to determine retail tobacco vendor compliance with Article 13-F of the Public Health Law, also known as the Adolescent Tobacco Use Prevention Act (ATUPA).

The ATUPA enforcement program is part of the State's anti-smoking and tobacco control initiative, the New York Tobacco Control Program (NY TCP). The NY TCP is funded annually through a state appropriation of \$55.1 million and a grant from the federal Centers for Disease Control and Prevention (CDC) of \$4.161 million. The NY TCP targets tobacco use by promoting cessation, reducing its social acceptability, preventing initiation, addressing disproportionately high rates by specific population groups and eliminating exposure to secondhand smoke. The NY TCP uses a multi-pronged strategic approach to reduce tobacco use in the population and seeks to impact the population as a whole through:

Statewide and community action to change the community environment to support the tobacco-free norm, change community attitudes about tobacco and de-normalize tobacco use. A key outcome of the NY TCP's community mobilization strategy is the adoption and effective implementation of local and statewide policies that permanently change society's acceptance of tobacco use.

Health communication to increase awareness of the dangers of tobacco use and secondhand smoke and motivate tobacco users to stop, to expose tobacco industry propaganda and de-glamorize tobacco use and educate community members and decision makers about tobacco control. A key outcome of the NY TCP's health communication strategy is better-educated community members and decision makers who will support effective tobacco control policies and take personal action toward a tobacco-free New York.

Cessation interventions to establish and maintain community, governmental and health care delivery systems that promote cessation, increase access to and delivery of evidence-based cessation services and motivate individual tobacco users to quit successfully. Key outcomes of the NY TCP's cessation interventions are provision of guideline-concordant tobacco dependence treatment by the health care sector and adoption of policies that motivate smokers and other tobacco users to quit.

The NY TCP is supported by surveillance and evaluation activities to monitor program progress and impact and by program administration to build and maintain an effective tobacco control infrastructure, provide technical assistance and guidance and manage the effective and efficient investment of state tobacco control funding. The NY TCP strives to contribute to the science of tobacco control through surveillance and evaluation of program initiatives and dissemination of program findings.

NY TCP Community Action Areas

The NY TCP is implemented through statewide and community programs directed and managed by staff at the NYSDOH. Community action areas include: community partnerships for tobacco control, youth action programs and tobacco-free school policy programs.

Colleges for Change. Colleges for Change programs engage young adult leaders to work on and off the college campus to limit where and how tobacco products are promoted, advertised and sold, and to advance local and statewide policy action to prevent and reduce tobacco use. They focus on those aspects of the community and college environment that most influence tobacco use among young adults.

Community Partnerships for Tobacco Control. Community partnerships work with local governments and decision makers, local businesses and employers (including tobacco retailers), community organizations, health care institutions and providers and schools and community groups to address tobacco company advertising, sponsorship and promotion; implement effective tobacco-free policies in the outdoor environment; change public opinion about tobacco and tobacco use; and promote access to evidence-based cessation services. Community partnerships engage local stakeholders and decision makers, educate community leaders and the public, mobilize the community to strengthen tobacco-related policies to

restrict the tobacco company presence in the community, reduce the use and availability of tobacco products in the community, and limit opportunities for exposure to secondhand smoke. Community partnerships take a policy advocacy approach to creating communities that support and reinforce the tobacco-free norm and dismantling the community policies and practices that promote and support tobacco use.

Reality Check. Reality Check engages youth leaders to challenge and change community norms regarding tobacco use through civic action. The programs engage middle- and high-school-aged youth in actions aimed at de-glamorizing and de-normalizing tobacco use in their communities and exposing the manipulative and deceptive marketing practices of the tobacco industry. Reality Check programs use community education linked to social action, media advocacy, community events and advocacy with decision makers to obtain pro-tobacco control policies and resolutions at the local, state and national levels.

Tobacco-Free School Policy Programs. These organizations provide resources and support to schools and school districts seeking to develop, implement and enforce effective tobacco-free school policies. Schools play a key role in creating and supporting healthful attitudes and behaviors among students, their families and members of the community. By creating an environment that supports and promotes tobacco-free values and behaviors, schools can be leaders in the fight for tobacco-free lifestyles for children and adults. Contractors funded to implement tobacco-free school policy programs work to promote and facilitate the adoption and implementation of effective tobacco-free policies.

Public Health Communications

Public health communications focused on tobacco include paid placement of advertising on television, radio, print, Internet and other venues, with the goals of educating New Yorkers about the health risks of tobacco use and the dangers of secondhand smoke, motivating tobacco users to stop and promoting use of the New York State Smokers' Quitline; coverage and discussion of tobacco control issues and events in the news media; and strategic use of both paid and earned media to advocate for tobacco control policies and practices.

Cessation Interventions

The most effective interventions to support cessation are raising the price of tobacco products, banning smoking from the workplace and public places and running emotionally evocative paid media campaigns that make a compelling case for quitting.

In addition to these environmental interventions, the NY TCP:

- Provides support to health care organizations and providers to establish the policies, practices and procedures to deliver effective tobacco dependence treatment through the work of 19 contracted tobacco cessation centers; and
- Offers telephonic and web-based information, resources, coaching and a “starter kit” of nicotine medication to help smokers quit through the New York State Smokers' Quitline, operated under contract by the Roswell Park Cancer Institute.

Program Purpose

The goal of the program is to lower the prevalence of tobacco use among youths by reducing tobacco product sales and preventing the onset of its use by this population. Specifically, the program seeks to improve compliance by tobacco retailers with the ATUPA.

Status and Accomplishments

This section lists accomplishments and status of the initiative and information required by the Public Health Law.

The New York State Department of Taxation and Finance reported the following information.

- a. Total number of registered tobacco retailers and vendors in New York State: A total of 23,385 tobacco retailers were registered as of August 2009.
- b. Total number of vending machines registered in New York State: In 2009, there were 807 registered vending machines, down from 1,238 registered in 2008 and 1,445 registered in 2007.
- c. Number of cigarettes sold in New York State: Approximately 10.28 billion cigarettes were sold in New York State for the fiscal year ending March 31, 2009; of this number, approximately 2.57 billion were sold in New York City.
- d. Tax revenue collected from the sale of tobacco products in New York State: Excluding local sales tax, the “tax revenue” the state collected from the sale of cigarettes and tobacco products for the fiscal year ending March 31, 2009, totaled approximately \$1.34 billion and resulted from licensure and the excise tax.

Licensure:	retail vendors and vending machines:	\$2.65 million
Excise tax:	cigarettes:	\$1.289 billion
	tobacco products:	\$48.4 million

The NYSDOH reported the following information.

- a. The number and types of compliance checks conducted in New York State: State and local enforcement officers conducted 35,381 compliance inspections during the twelfth program year. Of these, 26,372 were compliance checks using underage youth to attempt over-the-counter purchases of tobacco products. Additional visits were made to determine compliance with Department of Taxation and Finance registration and/or NYSDOH signage requirements, to educate operators of the Public Health Law requirements, to verify vending machine supervision and location compliance, and/or to investigate complaints. Appendix 1 reflects a county-by-county listing of compliance investigations.

- b. Number of complaints filed against registered tobacco retailers and vendors in New York State: One hundred fifty-one complaints were filed against “registered” retailers. Appendix 1 lists a county-by-county breakdown.

- c. The names and addresses of retailers and vendors reported by local enforcement officers to have paid fines or been penalized otherwise due to tobacco enforcement actions in New York State: The names of penalized tobacco retailers and vendors are listed by county in Appendix 2.

- d. The number of tobacco users and trends among minors in New York State: New York State conducts a Youth Tobacco Survey every other year to develop statewide estimates of tobacco use and related behaviors and attitudes for students from grades 6 to 12. The survey includes questions about tobacco use, exposure to environmental tobacco smoke, minors' ability to purchase or otherwise obtain tobacco products, knowledge and attitudes about tobacco and familiarity with pro- and anti-tobacco media messages. A total of 373 public, parochial or other private schools agreed to participate in the survey with a total of 43,332 students completing the survey in 2008. The results of the survey are applicable to New York State youth attending middle school or high school. There was a significant downward trend in current use of cigarettes by high school students from 2000 (27.1 percent) to 2002 (20.4 percent) to 2004 (18.2 percent) to 2006 (16.3 percent) to 2008 (14.7 percent) and for middle school students from 2000 (10.5 percent) to 2002 (6.3 percent) to 2004 (4.8 percent) to 2006 (4.1 percent) to 2008 (3.8 percent). Additional data from the 2008 National Youth Tobacco Survey are found in Appendix 4.

- e. Funding disbursement: Appendix 5 lists the funding amounts distributed to 35 county health departments, the New York City Department of Health and Mental Hygiene and the New York City Department of Consumer Affairs to conduct, as enforcement officers, youth access tobacco enforcement activities. As guided by Section 1399-hh of the Public Health Law, funding was based on the number of retail facilities registered with the Department of Taxation and Finance to sell tobacco products within the local health department's jurisdiction. Staff from nine State Health Department district offices conducted compliance checks in the 22 upstate counties that are not or did not wish to be the enforcement officer in their county.

- f. Enforcement: Two hundred one tobacco vendors were reported to the Department of Taxation and Finance for lack of required registration to sell tobacco products. As a result, the Department of Taxation and Finance will verify the status and notify unregistered vendors of the need to pay a fee to gain a registration and fine them up to \$3,500 for non-compliance.

During compliance checks, under-aged youth purchased tobacco 1,836 times. By the close of the program year, health officers had assessed fines totaling \$1,191,710 against tobacco vendors for sales of tobacco products to underage youth and finalized enforcement against 1,790 of the vendors. Fines collected for the year totaled \$1,256,019, with unfinished enforcement actions carrying over into the thirteenth program year.

During the reporting period, a total of 412 tobacco retailers' registrations to sell tobacco products were suspended by the Department of Taxation and Finance as a result of multiple enforcement actions for selling tobacco to underage youth. Of this total, 405 were suspended for six months and seven for one year. There were also 89 lottery agent licenses suspended for six months and two for one year for multiple sales to minors.

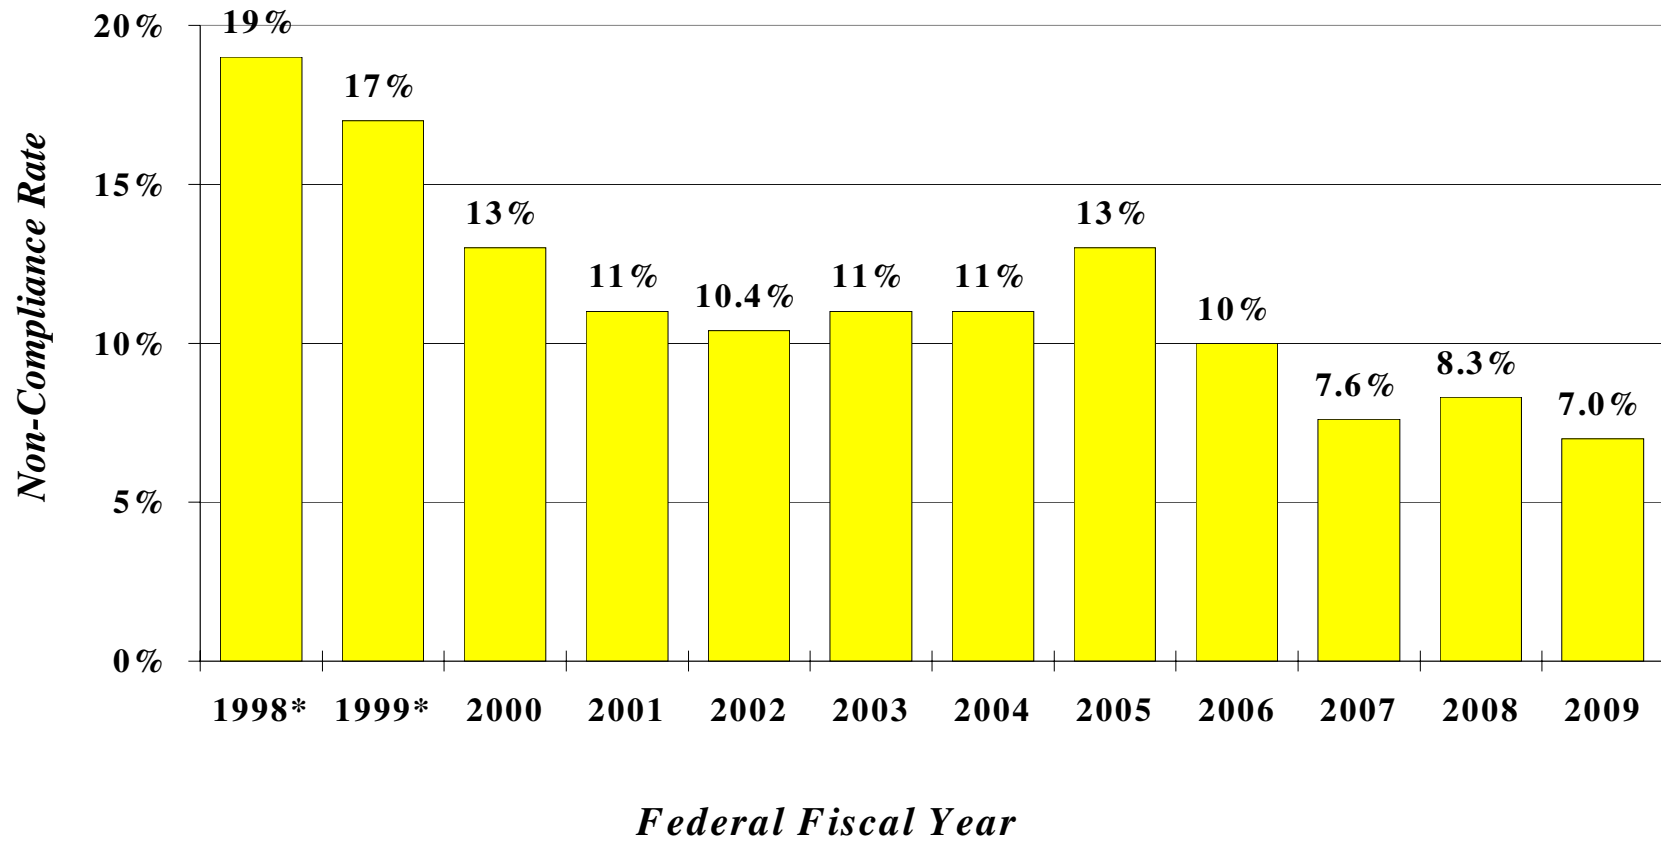

g. Impact of twelve program years:

	10/1/1997 through 9/30/1998	10/1/1998 through 9/30/1999	10/1/1999 through 9/30/2000	10/1/2000 through 9/30/2001	10/1/2001 through 9/30/2002	10/1/2002 through 9/30/2003	10/1/2003 through 9/30/2004	10/1/2004 through 9/30/2005	10/1/2005 through 9/30/2006	10/1/2006 through 9/30/2007	10/1/2007 through 9/30/2008	10/1/2008 through 9/30/2009	12 Year TOTAL

Vendor non-compliance rate (based on enforcement actions for illegal sales)	19%	17%											
Fines Assessed	\$1,001,800	\$915,925	\$819,410	\$1,842,260	\$2,171,469	\$3,060,435	\$3,978,513	\$3,641,085	\$2,598,600	\$1,646,600	\$1,912,270	\$1,191,710	\$24,780,077
Fines Collected	\$768,410	\$633,215	\$950,100	\$1,279,437	\$1,990,176	\$2,389,074	\$2,804,721	\$2,446,837	\$2,211,547	\$1,504,215	\$1,365,359	\$1,256,019	\$19,599,110
Number of suspended tobacco registrations	2	4	22	23	82	20	74	152	475	608	256	412	2,206
Number of suspended lottery licenses				3	25	4	20	38	147	149	86	91	563
Number of unregistered vendors reported to the Department of Taxation and Finance	3,600	930	1,338	738	454	410	200	105	220	228	426	201	8850

* Other Regulatory Requirements include proper Department of Taxation and Finance registration compliance, posting required signs, educating operators of the Public Health Law requirements, verifying vending machine supervision and proper location, attempting compliance checks and/or investigation of complaints.

** Includes compliance checks conducted by adult inspectors for out of the package cigarettes, self-service restrictions, bidis, gutka, etc.

***New York State Tobacco Vendor Non-Compliance Rate
Federal Fiscal Years 2000 - 2009***

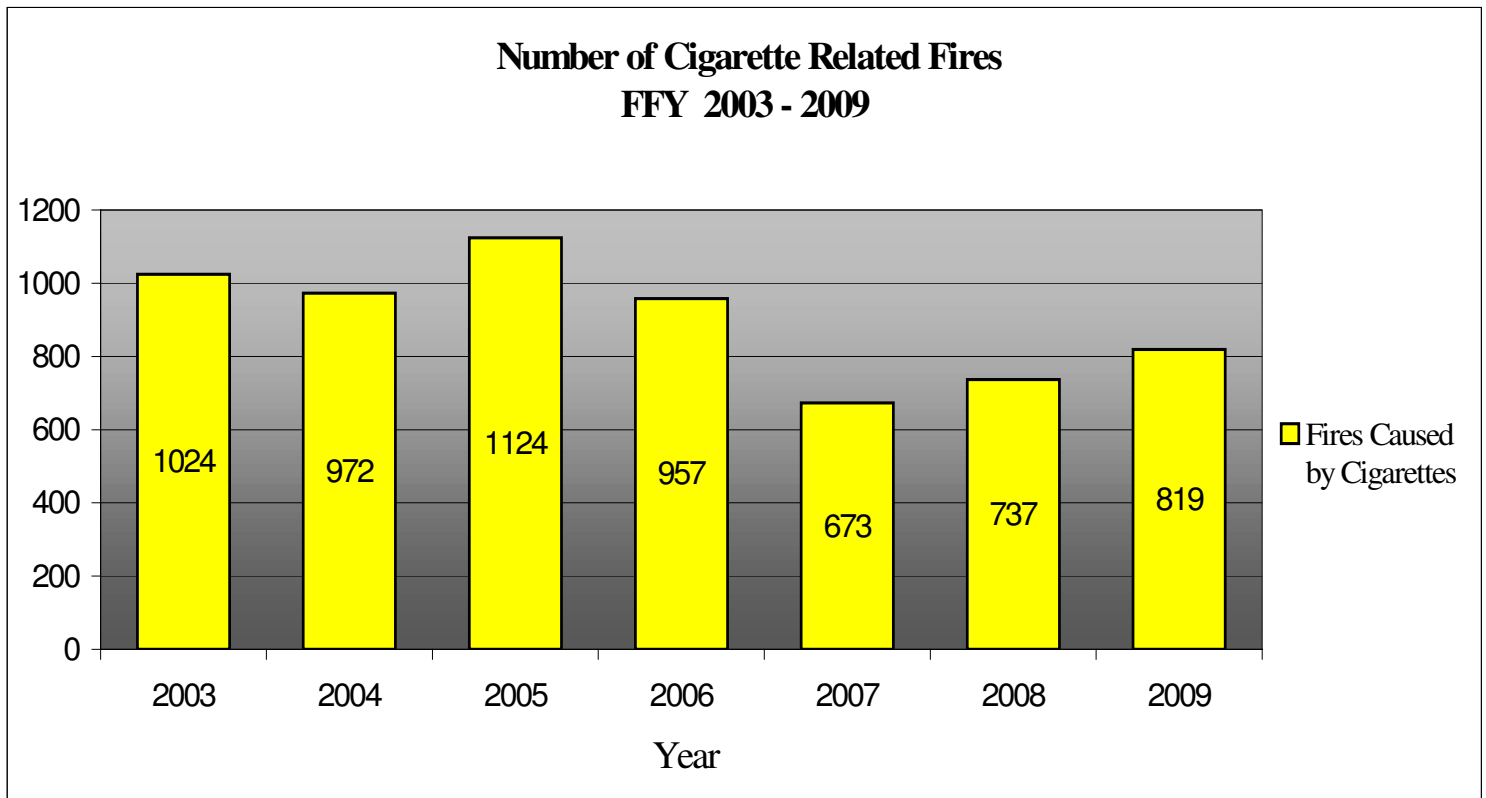

*Vendor non-compliance rate for FFY 1998 & 1999 is based on the number of enforcement actions for illegal sales; the 2000-2009 rate is based on the actual number of sales to minors.

The New York State Department of State reported the following information:

- a. Number of fires and related injuries and deaths caused or believed to be caused by tobacco products: The New York State Department of State’s Fire Reporting System data for the period of October 1, 2008 – September 30, 2009, identified 819 fires classified as being caused by abandoned or discarded cigarettes. There were seven deaths and 35 injuries to civilians resulting from fires caused by tobacco products. Seventy-four firefighters were also injured. Appendix 6 includes a breakdown of tobacco-related fire statistics by county.

- b. Fire Safety Standards for Cigarettes: New York State’s fire safety standard for cigarettes is designed to reduce the risk of fires caused by cigarettes. Effective June 28, 2004, all cigarettes sold in New York State must be low ignition strength, making them less likely to cause fires if left unattended. The Department of State reports a reduction in fires caused by cigarettes from 1,124 in FFY 2005 to 819 in FFY 2009. Questions regarding the Cigarette Fire Safety Program may be directed to the New York State Department of State, Bureau of Fire Prevention and Control at (518) 474-6746.

The New York State Education Department reported the following information:

- a. A survey of attitudes and behaviors regarding tobacco use among minors: During 1999, 2003, 2005, 2007 and again in 2009, the New York State Education Department conducted a CDC funded statewide "Youth Risk Behavior Survey" (YRBS) of students in New York State (including New York City) schools. The survey contains several questions on youth tobacco use and is conducted every two years. For each survey, a new sample of schools and students is selected; student participation is voluntary. In 1999, 3,312 ninth through twelfth grade students representing 97 schools participated. In 2003, 9,320 ninth through twelfth grade students representing 140 schools participated (the sample from the 2001 survey was not large enough to be compiled into weighted data). In 2005, 9,708 ninth through twelfth grade students representing 146 schools participated.). In 2007, 13,439 ninth through twelfth grade students representing 144 schools participated. In 2009, 14,870 ninth through twelfth grade students representing 144 schools participated. New York State data from the YRBS for 2003, 2005, 2007 and 2009 is included in Appendix 3.

Note: * 95% Confidence Interval

Bidis - a product containing tobacco that is wrapped in tamburni leaf (*diospyros melanoxylon*) or tendra leaf (*diospyros exculpra*).

Kreteks - a cigarette containing a blend of cloves and tobacco.

Hookah - a single or multi-stemmed water pipe for smoking.
