NEW YORK STATE OF OPPORTUNITY. Department of Health

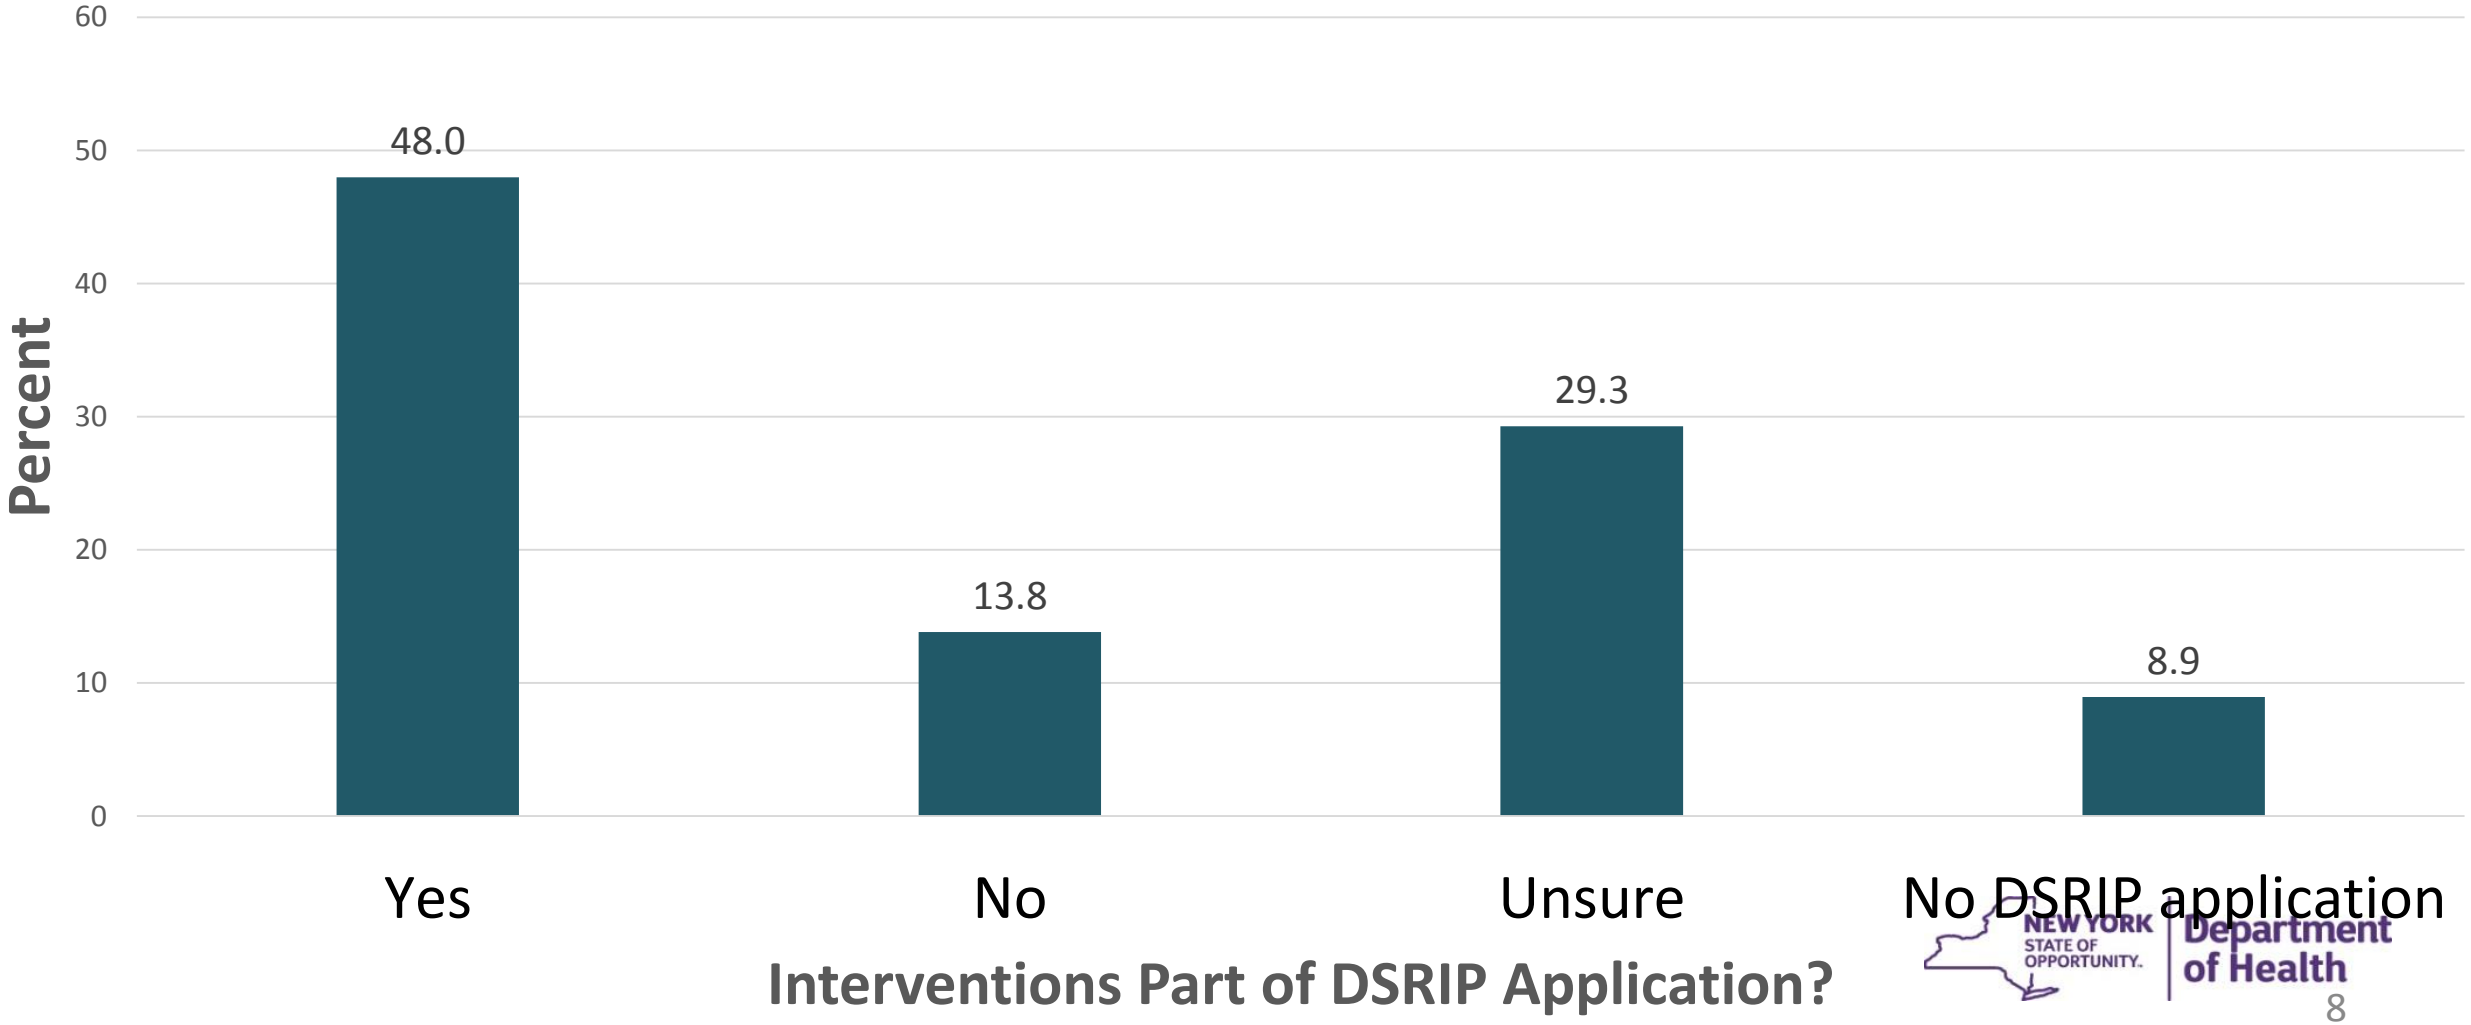
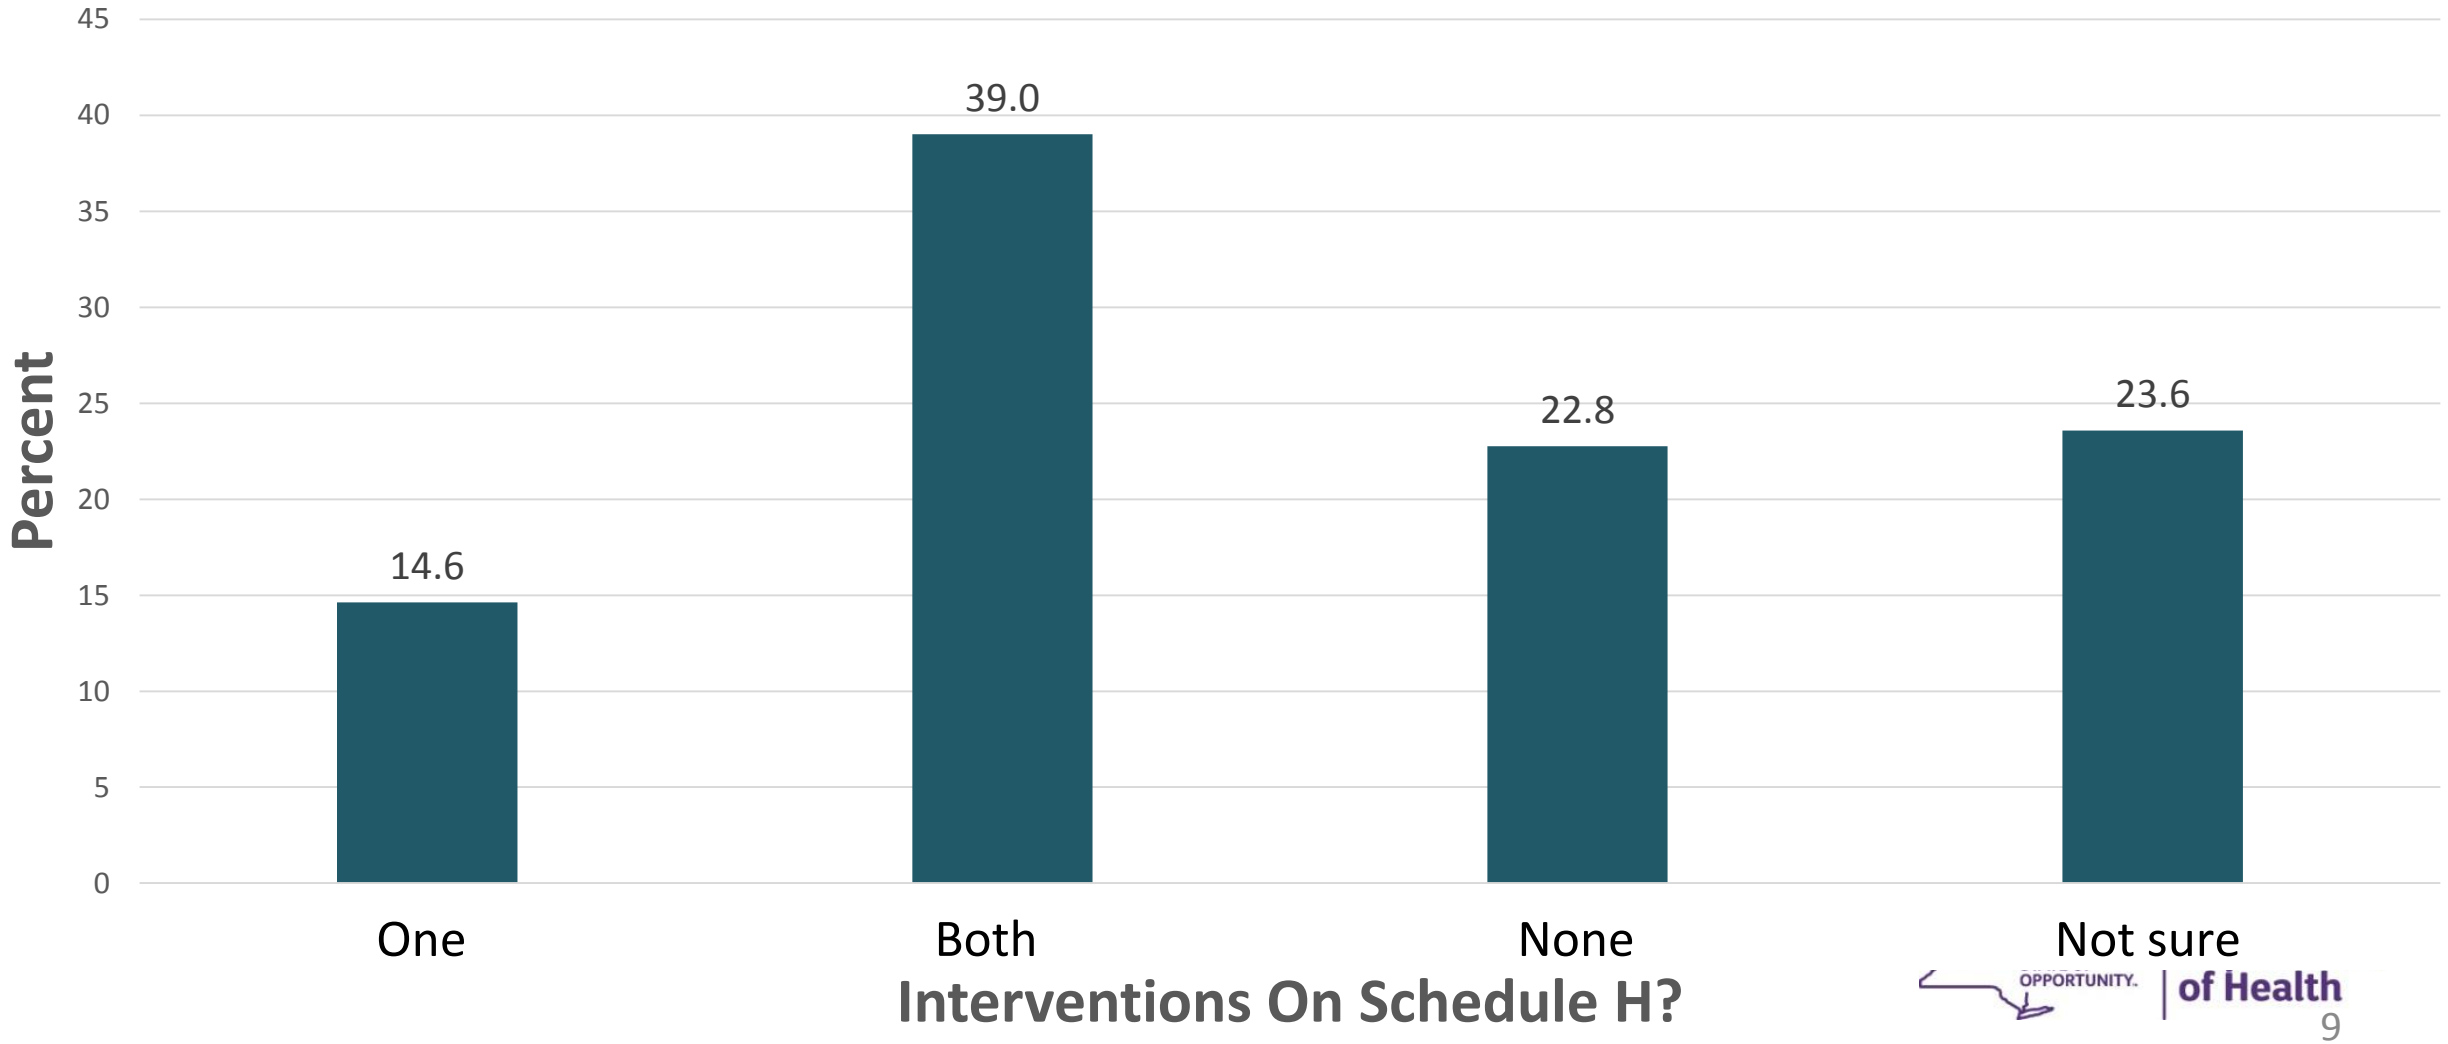
Hospitals Reporting PA Interventions as Part of DSRIP Application, December 2014 (N=123 Hospitals/Groups)



PA Interventions Listed on Hospital's Schedule H Tax Form, 12/2014 (N=123)



What's Next?

Data from summary will be made available to help Local Health Departments and Hospital/Hospital Systems understand:

- Intervention progress
- Measures used to track progress
- Target populations
- Disparities being addressed
- Partners engaged
- Successes and challenges
- Collecting Stories to Showcase Local Efforts

New York State Health Initiatives

PREVENTION AGENDA

Priority Areas:

- Prevent chronic diseases
- Promote a healthy and safe environment
- Promote healthy women, infants, and children
- Promote mental health and prevent substance abuse
- Prevent HIV, sexually transmitted diseases, vaccine-preventable diseases, and healthcare-associated infections

STATE HEALTH INNOVATION PLAN (SHIP)

Pillars and Enablers:

- Improve access to care for all New Yorkers
- Integrate care to address patient needs seamlessly
- Make the cost and quality of care transparent
- Pay for healthcare value, not volume
- Promote population health
- Develop workforce strategy
- Maximize health information technology
- Performance measurement & evaluation

ALIGNMENT:

Improve Population Health
Transform Health Care Delivery
Eliminate Health Disparities

MEDICAID DELIVERY SYSTEM REFORM INCENTIVE PAYMENT (DSRIP) PROGRAM

Key Themes:

- Integrate delivery – create Performing Provider Systems
- Performance-based payments
- Statewide performance matters
- Regulatory relief and capital funding
- Long-term transformation & health system sustainability

POPULATION HEALTH IMPROVEMENT PROGRAM (PHIP)

PHIP Regional Contractors:

- Identify, share, disseminate, and help implement best practices and strategies to promote population health
- Support and advance the Prevention Agenda
- Support and advance the SHIP
- Serve as resources to DSRIP Performing Provider Systems

Population-wide Projects from Prevention Agenda (Domain 4)

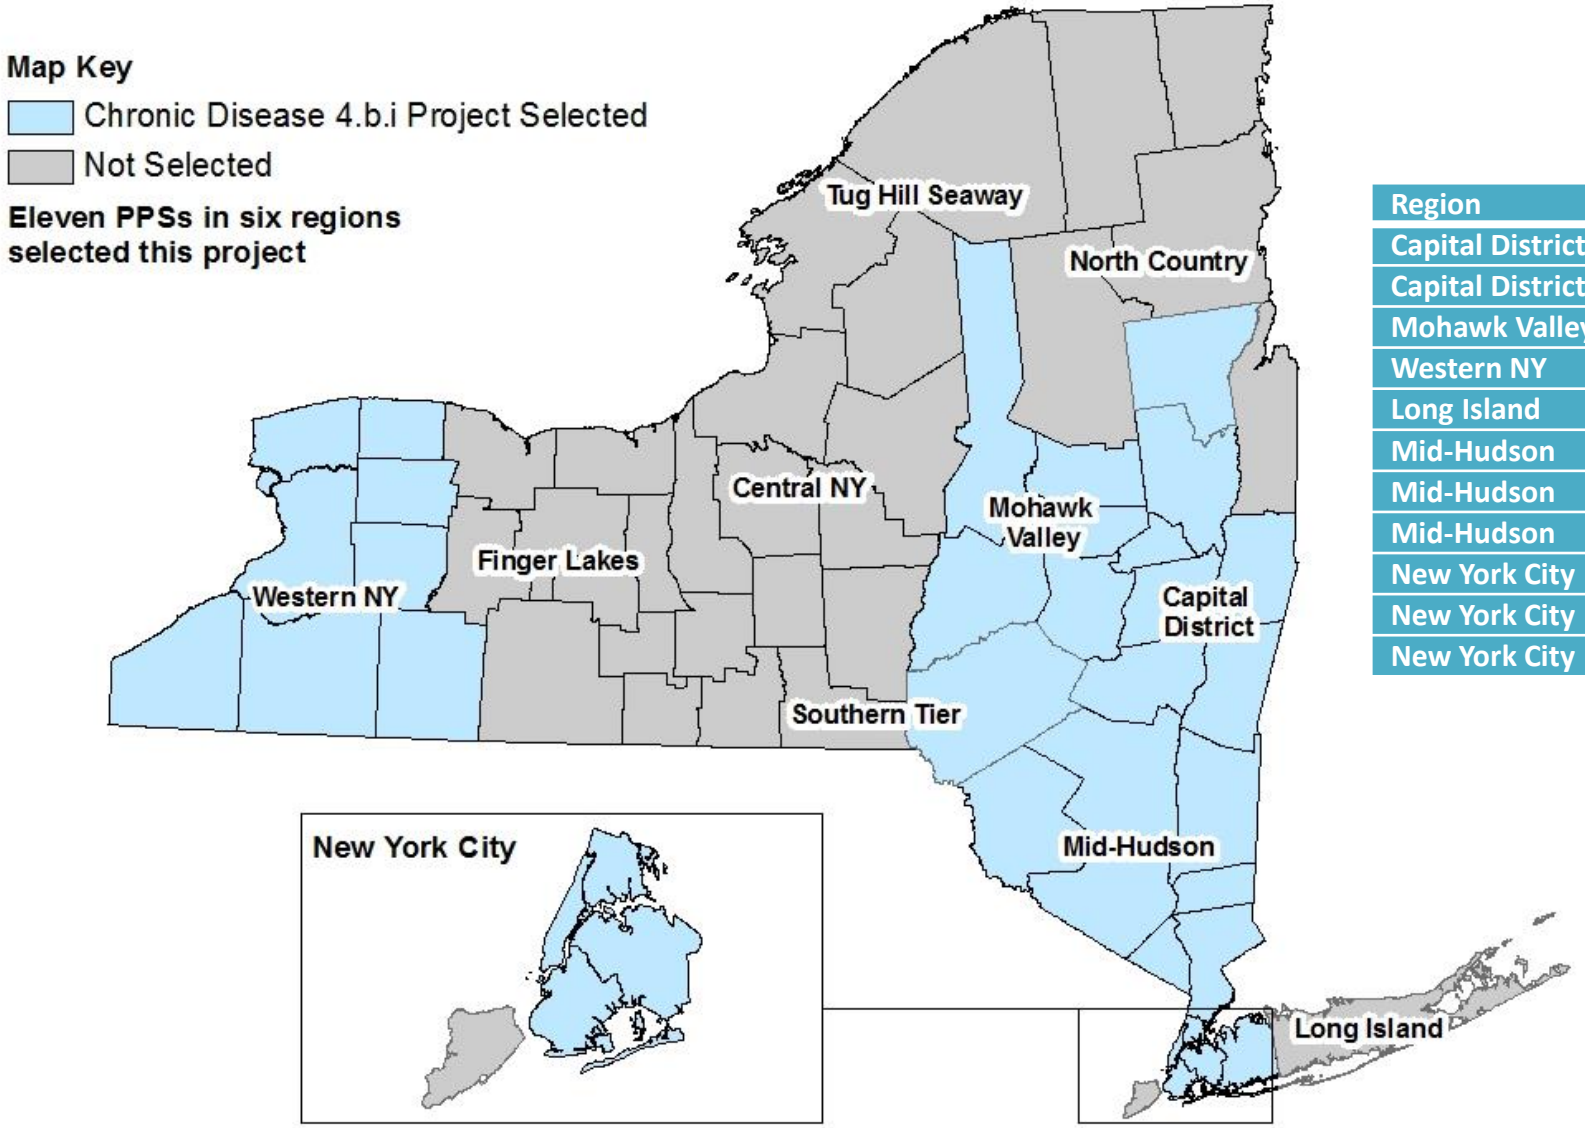
- Tobacco cessation
- Access to preventive care and management of chronic diseases in clinical and community settings
- Decrease HIV morbidity; increase access to, and retention in, HIV care
- Reduce premature births

Project 4.b.i - Promote tobacco use cessation, especially among low SES populations and those with poor mental health

- **Objective**
  - decrease the prevalence of cigarette smoking by adults 18 and older; increase use of tobacco cessation services including NYS Smokers' Quitline and nicotine replacement products.
- Target population includes:
  - Communities where smoking rates are high
  - Those with low socio-economic status
  - Those with serious mental illness
  - Young adults
  - Tobacco users who have been to the ED at least once in a year

NEW YORK STATE OF OPPORTUNITY. Department of Health

Tobacco Use Cessation



Region	PPS
Capital District	Albany Medical Center Hospital
Capital District	Ellis Hospital
Mohawk Valley	Mohawk Valley (Bassett)
Western NY	Catholic Medical Partners
Long Island	Nassau County PPS
Mid-Hudson	Refuah Health Center
Mid-Hudson	Montefiore Medical Center
Mid-Hudson	Westchester Medical Center
New York City	Lutheran Medical Center
New York City	Advocate Community Partners (AW)
New York City	The NY and Presbyterian Hospital

NEW YORK STATE OF OPPORTUNITY. Department of Health

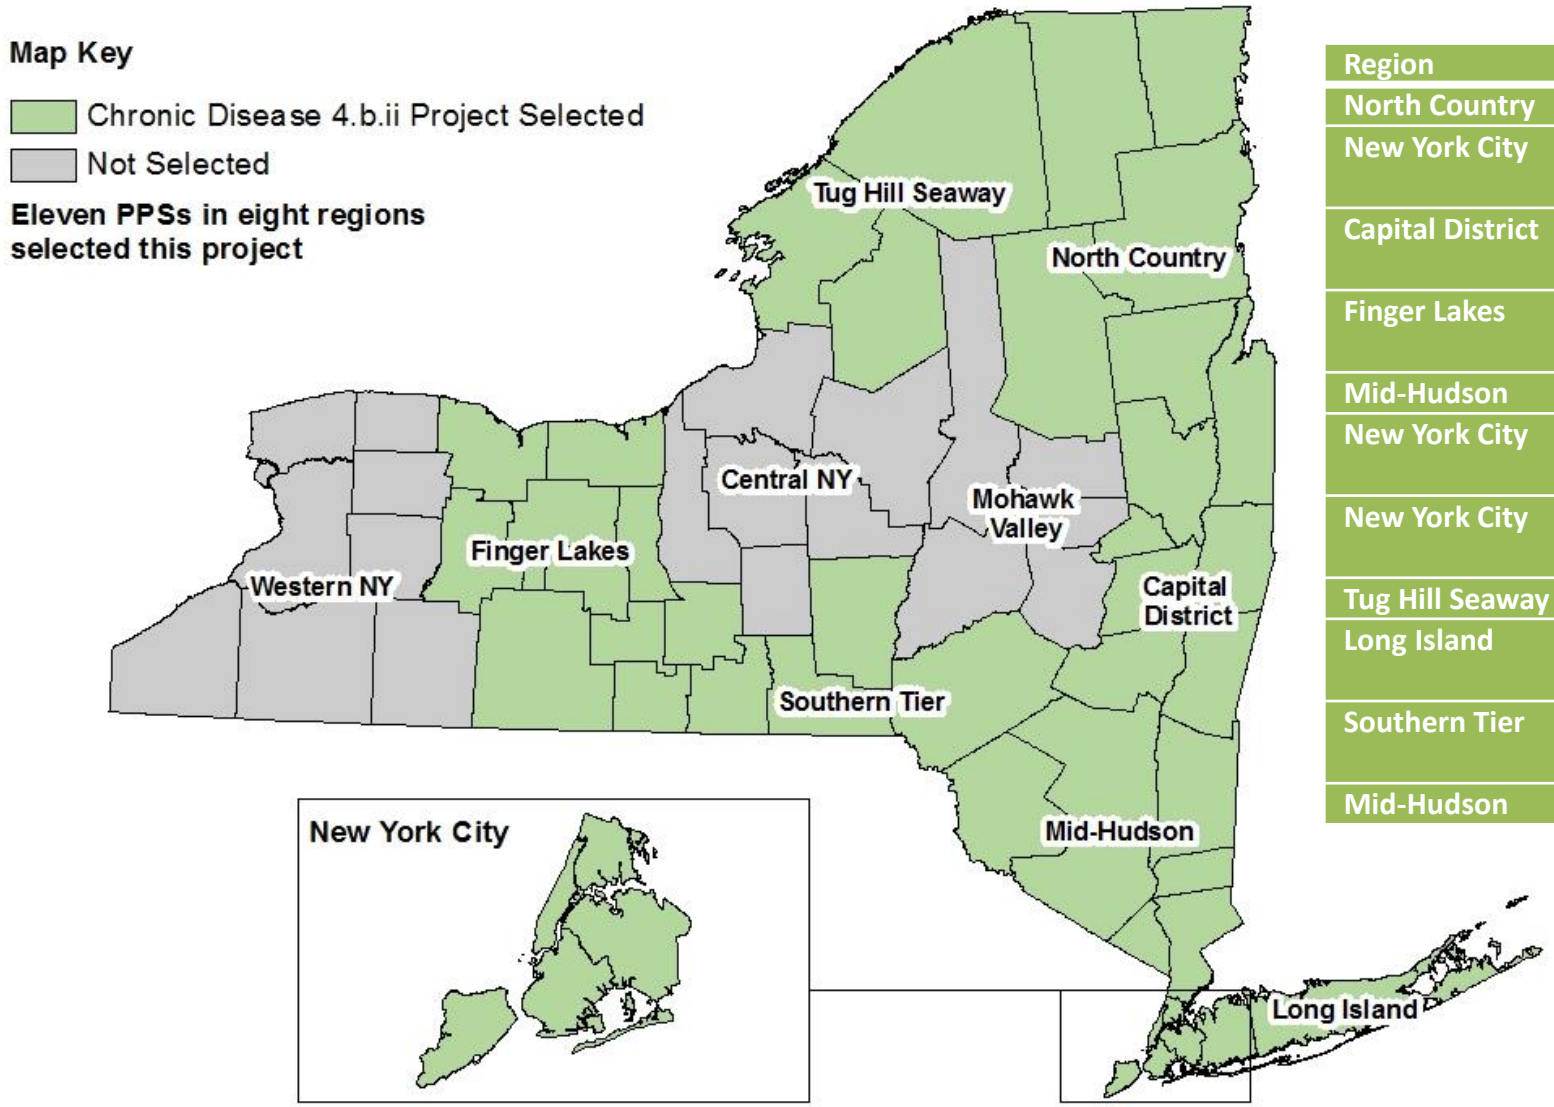
Project 4.b.ii - Increase Access to High Quality Chronic Disease Preventive Care and Management in Both Clinical and Community Settings - targets chronic diseases that are not included in Domain 3, such as cancer

- Objective – increase the numbers of New Yorkers who receive evidence based preventive care and management for chronic diseases.
- Target population includes:
  - People living in poverty or in rural areas
  - Immigrants, migrants, people for whom English is not a primary language
  - People in communities identified as “hotspots”
  - Low- or non-utilizers of health care
  - High risk populations such as those who are obese or smokers

NEW YORK STATE OF OPPORTUNITY. Department of Health

Chronic Disease 4.b.ii Project

Increase access to high quality preventive care and management in both clinical and community settings



Region	PPS	Focus of 4.b.ii
North Country	Adirondack Health Institute	COPD
New York City	Advocate Community Partners (AW)	Cancer and hepatitis screening; HPV vaccines
Capital District	Albany Medical Center Hospital	Cancer screening
Finger Lakes	Finger Lakes PPS	Obesity and Tobacco in high risk populations, especially low SES
Mid-Hudson	Montefiore Medical Center	Cancer screening and prevention
New York City	Mt. Sinai Hospital Group	Cancer, Hep C, Chlamydia screening; increase well child visits
New York City	Richmond Univ. Med Ctr & Staten Island Univ. Hospital	Cancer, COPD and hypertension
Tug Hill Seaway	Samaritan Medical Center	COPD and Cancer
Long Island	Stony Brook University Hospital	Cancer screening; tobacco cessation; obesity
Southern Tier	United Health Services Hospitals	COPD
Mid-Hudson	Westchester Medical Center	Cancer screening

NEW YORK STATE OF OPPORTUNITY. Department of Health

Project 4.c.i - Decrease HIV morbidity

- Objective – reduce the newly diagnosed HIV case rate in New York by 25% to no more than 14.7 new diagnoses per 100,000.
- Target population includes:
  - People living with HIV/AIDS in 5 boroughs
  - Those who have fallen out of care or were never in care;
  - Those with co-morbid conditions, especially mental illness or substance abuse

Project 4.c.ii - Increase early access to, and retention in, HIV care

- Objectives
  - Increase the percentage of HIV-infected persons with a known diagnosis who are in care by 9% to 72%
  - Increase the percentage of HIV-infected persons with known diagnoses who are virally suppressed to 45%.

- **Target population includes**:
  - HIV-infected individuals (diagnosed and undiagnosed) and those at high-risk of becoming infected (i.e., individuals eligible for PrEP)
  - Persons with co-occurring diagnoses such as mental health or SA disorders
  - People with social factors such as homelessness, and persons identified as being high risk such as foreign born individuals, Black or Hispanic individuals, and MSMs.
