ACKNOWLEDGEMENTS

Special thanks go to the local health department enforcement officers, the New York City Department of Consumer Affairs and the youth who participated in the access compliance check surveillance program. For more than 16 years, these dedicated agencies and individuals have been the leaders in the state's effort to increase retailer compliance with the public health law in our communities.

Staff of the New York State Department of Health's Bureau of Community Environmental Health and Food Protection, Tobacco Enforcement Program prepared this report with data provided from the local enforcement officers, other state agencies and programs within the Department of Health.

The New York State Department of Health's Tobacco Control Program and the New York State Education Department supplied information regarding tobacco use and trends among minors. The State Department of Taxation and Finance provided registration and revenue data. The Department of State's Office of Fire Prevention and Control supplied data regarding fires.

PREFACE

The purpose of New York's Adolescent Tobacco Use Prevention Act is to aid in reducing morbidity and mortality caused by tobacco use by reducing children's access to cigarettes and other tobacco products. It has been well documented that most smokers begin before they are 18 years old and half before they are 15. Many people who start smoking as youth find it nearly impossible to quit during their lifetimes. For more than 16 years, state and local enforcement officials have been increasingly successful at reducing youth access to tobacco products and improving retailer compliance with the Adolescent Tobacco Use Prevention Act, realizing a reduction in the rate of non-compliance by retailers from 19% in 1997 to 5.0% in 2013-14.

The Adolescent Tobacco Use Prevention Act requires retailers to obtain positive proof that the person buying cigarettes is over the age of 18. Retailers found in violation of this law are subject to fines and loss of their tobacco registrations and lottery licenses for repeated violations. The law also limits the location of vending machines and limits the venues in which free tobacco products can be distributed. These enforcement measures are aimed at making tobacco products less accessible to minors and are a part of the state's comprehensive anti-smoking program.

This Annual Report is prepared by the Tobacco Enforcement Program, located in the New York State Department of Health's Center for Environmental Health. The report covers the period April 1, 2012 to March 31, 2014. The report includes the following information:

- Number of tobacco compliance checks that were conducted;
- Names and addresses of tobacco vendors who sold tobacco products to underage youth and were penalized;
- New York State results of the 2013 Youth Risk Behavior Survey (YRBS);
- Tobacco sales data from the State Department of Taxation and Finance; and
- Tobacco-related fire injury data from the Department of State's Fire Reporting System.

During the period 2012 – 2014, state and local enforcement officers conducted 62,197 inspections (30,793 in 2012-13 and 31,404 in 2013-14) of tobacco retailers to assess compliance with the state's Adolescent Tobacco Use Prevention Act. Of these inspections, more than 47,694 included unannounced compliance checks where minors attempted to purchase tobacco under the direct supervision of the enforcement officials. Over 13,800 additional visits were made to determine compliance with Department of Health signage requirements and Department of Taxation and Finance registration requirements, educate retailers about the Public Health Law, verify vending machine supervision and location compliance, and investigate complaints. A total of 5,134 enforcement actions were taken for sales of tobacco products to minors and more than \$4.96 million in fines were assessed.

In the last 16 program years, state grants totaling nearly \$72.45 million have been awarded to local enforcement officials to implement the Tobacco Enforcement Program, which resulted in a decline in the rate of non-compliance by retailers from 19.0 percent in the first program year (October 1, 1997 - September 30, 1998), to 5.0 percent in the 16th program year (April 1, 2013-March 31, 2014). From September 1997 to March 2014, more than \$32.6 million in fines have been levied against 43,152 retailers for selling tobacco to minors. The Department of Taxation and Finance has suspended the registrations of 2,947 tobacco retailers as a result of multiple enforcement actions for selling tobacco to underage youth. There were also 784 lottery agent licenses suspended for multiple sales to minors. Of the 592,694 compliance inspections that have taken place during the 16 years, 428,331 were conducted with the assistance of minors attempting to purchase tobacco products.

Center for Environmental Health
Youth Access Tobacco Enforcement Program Annual Report
April 1, 2012 – March 31, 2014**

Program Overview

In March 2014, the New York State Department of Health (DOH) completed its 16th program year of statewide youth tobacco access enforcement. As part of the state's continued commitment to preventing youth access to tobacco, \$5.4 million in 2012-13 and \$5.28 million in 2013-14 was awarded to local enforcement officers to determine and enforce retail tobacco vendor compliance with Article 13-F of the Public Health Law, also known as the Adolescent Tobacco Use Prevention Act (ATUPA). This report covers the period from April 1, 2012 through March 31, 2014.

The ATUPA enforcement program is part of the state's comprehensive tobacco control initiative, the New York State Tobacco Control Program (TCP), administered by the Bureau of Tobacco Control, Division of Chronic Disease Prevention. The TCP was funded through a state appropriation of \$41.4 million and a grant from the federal Centers for Disease Control and Prevention (CDC) of \$3.198 million in 2012-2013 and a state appropriation of \$40.1 million and two grants from the CDC totaling \$2.7 million in 2013-14.

The goals of TCP's comprehensive tobacco control program are to prevent the initiation of tobacco use, promote tobacco use cessation and eliminate exposure to secondhand smoke, with a focus on working with disproportionately affected groups, including individuals with low socioeconomic status (low income and low education) and those with poor mental health. TCP uses policy-driven, population-based and evidence-based initiatives and strategies to advance tobacco control in New York State. DOH directs and manages statewide and community programs to work toward achieving a tobacco-free state.

Statewide and community action is used to change the community environment to support the tobacco-free norm, change community attitudes about tobacco and denormalize tobacco use through community education and mobilization. A key outcome is the adoption and effective implementation of local and statewide policies that permanently change society's acceptance of tobacco use.

Community Partnership contractors work with local governments and decision makers, employers, community organizations, health care institutions and community groups to address tobacco use, bring attention to tobacco industry marketing in the retail environment, and to change public opinion about tobacco and tobacco use. Community Partnerships implement a coordinated set of strategies designed to build public, political and organizational support and reinforce a tobacco-free norm. Community Partnerships foster community environments that are supportive of policy change, including policies to reduce the impact of retail tobacco product marketing on youth and to increase policies that limit exposure to secondhand smoke in multi-unit dwellings and in outdoor public spaces where people live, work and play.

Reality Check contractors engage middle and high school aged youth from diverse economic and cultural backgrounds to work to change community norms regarding tobacco use through activities aimed at deglamorizing and denormalizing tobacco use in their communities and by exposing the manipulative and deceptive marketing practices of the tobacco industry. Through civic engagement, youth program initiatives include community education linked to social action, media advocacy,

media and community events, and advocacy with organizational decision makers to advance tobacco-free norms through policy change. Like Community Partnerships, Reality Check contractors foster community environments that are supportive of policy change, including policies to reduce the impact on youth of retail tobacco marketing and smoking in media.

Health systems change strategies are used to advance organizational change addressing tobacco dependence from a systems and organizational perspective. TCP funds *Cessation Center* contractors who work with health care systems to address tobacco use primarily among disproportionately-affected populations, including people with low incomes, low educational attainment and poor mental health. A key outcome is the provision of guideline-concordant tobacco dependence treatment by the health care sector.

Cessation interventions are used to establish and maintain individual, community, governmental and health care delivery systems that promote cessation and increase access to and delivery of evidence-based cessation services. Key outcomes are to support individual tobacco use cessation and the adoption of policies that motivate smokers and other tobacco users to quit. Emotionally evocative paid media campaigns promote and support tobacco use cessation. These ads make a compelling case for quitting and drive calls to the New York State Smokers' Quitline (NYSSQL), which offers telephonic and web-based information, resources, coaching and starter kits of nicotine replacement therapy to help tobacco users quit. Other effective interventions that support cessation include keeping the price of tobacco products high and banning smoking from workplaces and public places.

Public health communication is used to increase awareness of the dangers of tobacco use and secondhand smoke, motivate tobacco users to quit, expose tobacco industry propaganda, deglamorize and denormalize tobacco use, and educate community members and decision makers about tobacco control. Key outcomes are lower tobacco use, reduced exposure to secondhand smoke and informed community members, health care providers and decision makers who create local environments that demand policy change toward a tobacco-free New York. Paid media includes advertising on television, radio, print, the Internet and other venues. Press releases, opinion pieces, letters to the editor, and events garner free, earned media coverage that informs communities and decision makers in supporting the tobacco-free norm.

Surveillance and evaluation activities are used to ensure that the TCP uses effective and proven strategies to obtain the goal of a tobacco-free New York State. These activities monitor program progress and impact, provide technical assistance and guidance, and manage the effective and efficient investment of state tobacco control funding. Evaluation data from media studies, surveys, and observational projects have contributed to the ongoing improvement of the program helping to focus key messaging and determine the effective use of media. TCP strives to contribute to the science of tobacco control through surveillance and evaluation of program initiatives and dissemination of program findings.

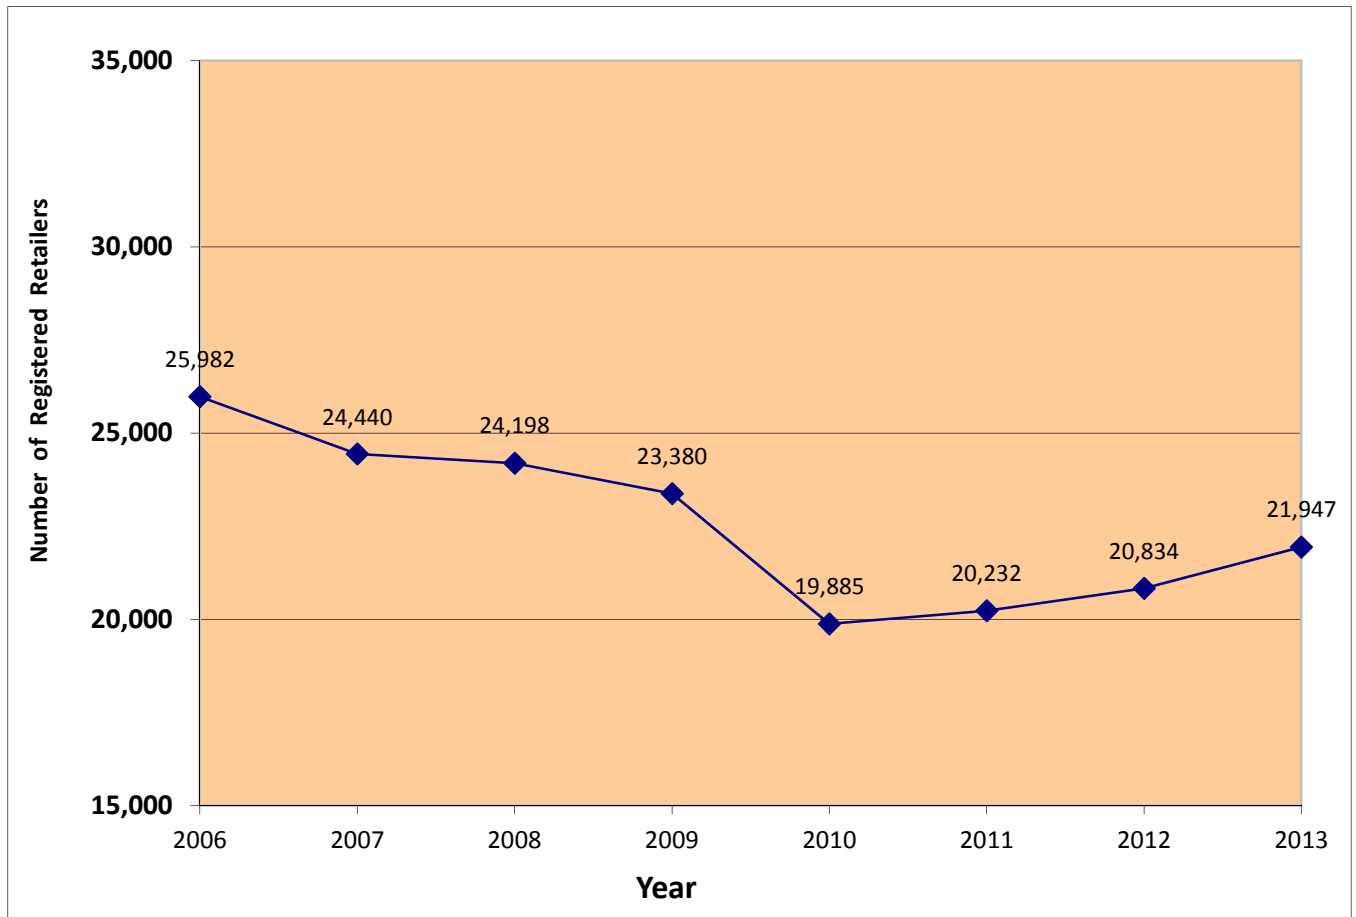

Program Purpose

The goal of the Tobacco Enforcement Program is to lower the prevalence of tobacco use among youth by reducing tobacco product sales and preventing the onset of its use by this population. Specifically, the program seeks to improve compliance by tobacco retailers with the ATUPA.

Status and Accomplishments

The New York State Department of Taxation and Finance (DTF) reports the total number of registered tobacco retailers and vendors in New York State. A total of 20,834 tobacco retailers were registered as of June 2012 and 21,947 tobacco retailers were registered as of July 2013.

Number of DTF registered tobacco retailers and vendors in New York State

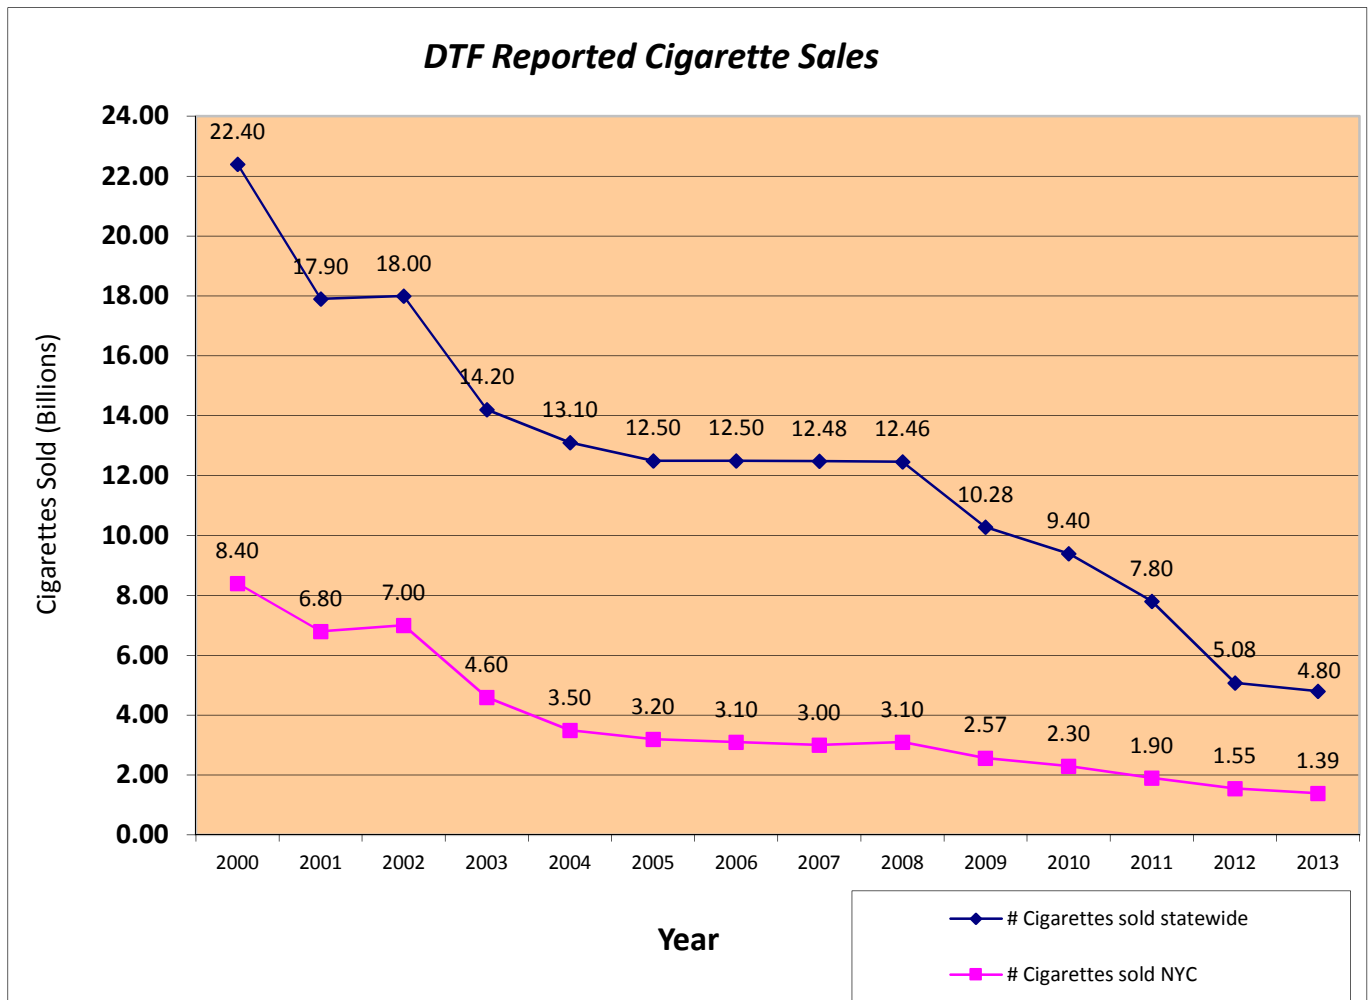

DTF reported number of registered vending machines

The total number of vending machines registered in New York State by DTF was 112 in 2012 and 89 in 2013. This is down from 807 registered in 2010 and considerably lower than the 4,434 registered in 2000.

The Family Smoking Prevention and Tobacco Control Act (Tobacco Control Act) (Public Law 111-31; 123 Stat. 1776) was enacted on June 22, 2009, amending the Federal Food, Drug, and Cosmetic Act (FFDCA) and providing the U.S. Food & Drug Administration (FDA) with the authority to regulate tobacco products. Effective June 22, 2010 vending machines are only permitted in facilities where no one younger than 18 years of age is present or permitted to enter at any time.

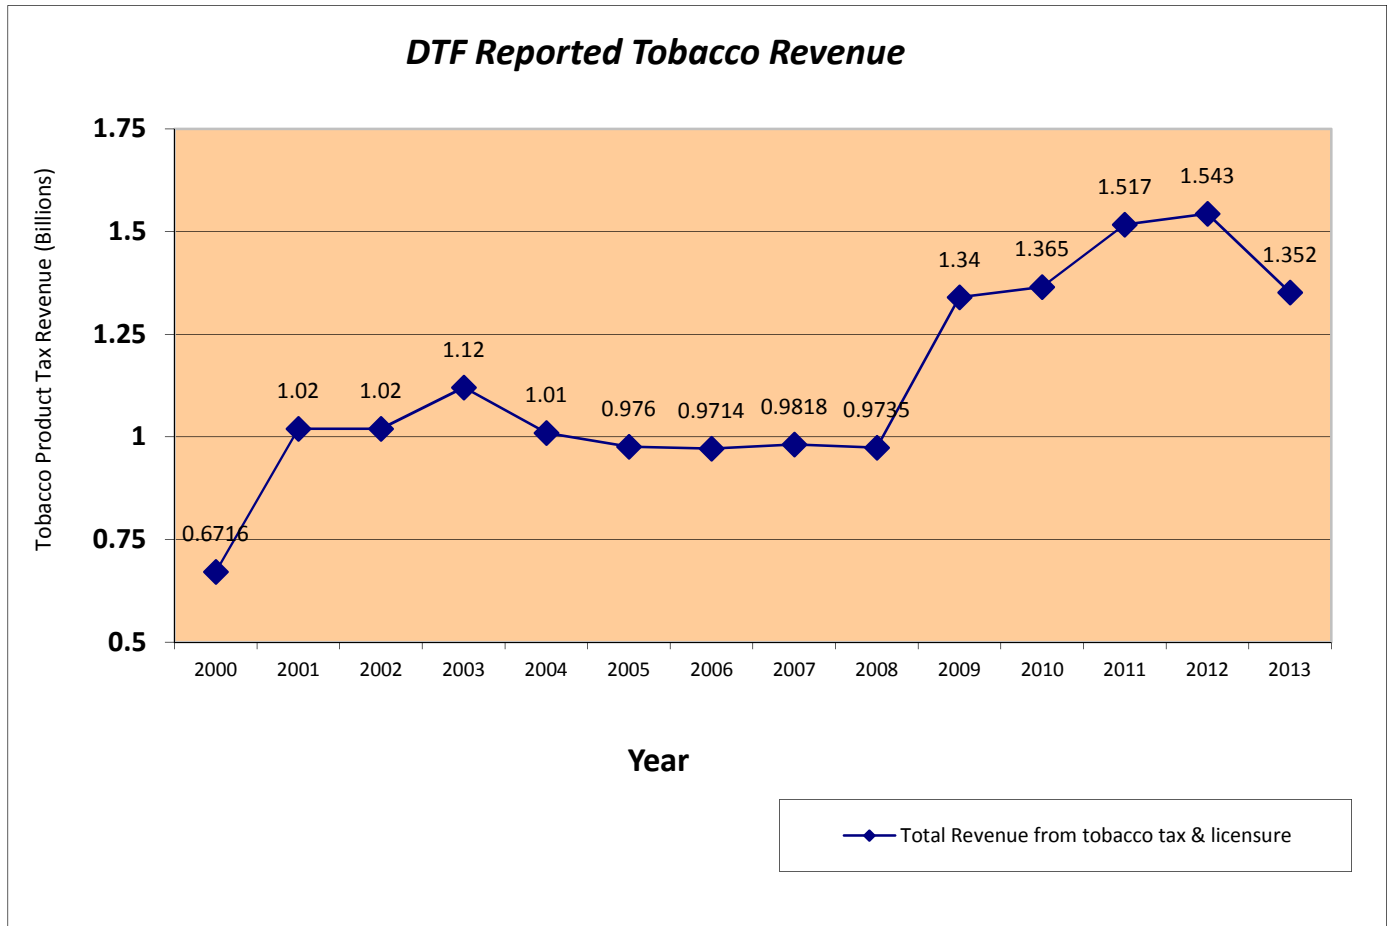

DTF reported number of cigarettes sold in New York State

Approximately 9.88 billion cigarettes were sold in New York State for the period April 1, 2012 to March 31, 2014. Of this number, approximately 2.94 billion were sold in New York City.

DTF reported tax revenue collected in New York State

Excluding local sales tax, the tax revenue collected by the DTF from the sale of cigarettes and tobacco products for the period April 1, 2012 to March 31, 2014, totaled approximately \$3.003 billion and resulted from retailer licensure, vending machine registrations and the excise tax. Retail vendor licensure and vending machines yielded \$14.76 million in the 2012-13 State Fiscal Year. The excise tax on cigarettes yielded \$2.895 billion, and other tobacco products yielded \$190.5 million.

The NYSDOH reported the following information.

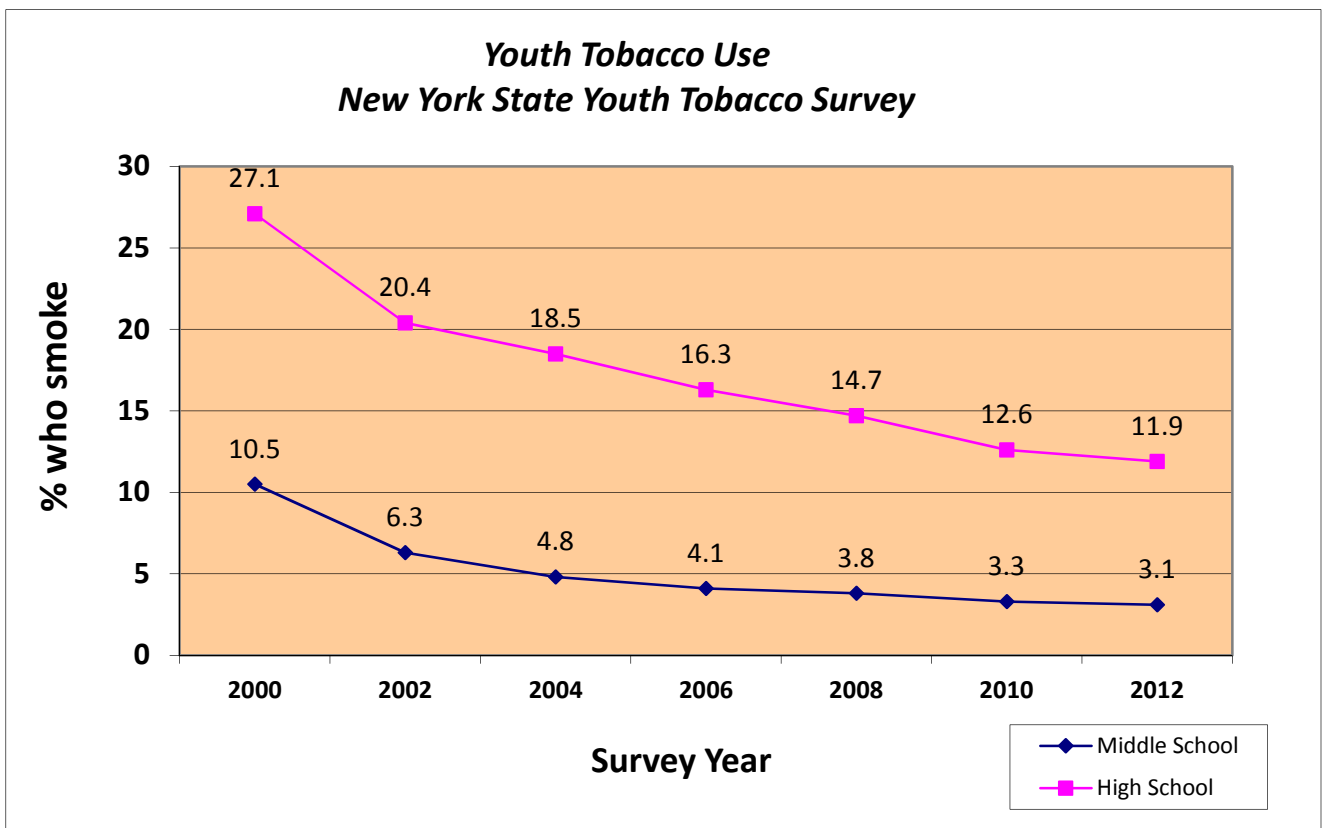

The number and types of compliance checks conducted in New York State: State and local enforcement officers conducted 62,197 compliance inspections during the period April 1, 2012 to March 31, 2014. Of these, 48,294 were compliance checks where underage youth attempted over-the-counter purchases of tobacco products.

Additional visits were made to determine compliance with Department of Taxation and Finance registration or NYSDOH signage requirements, to educate operators of the Public Health Law requirements, to verify vending machine supervision and location compliance, or to investigate complaints. See page 16 for a summary by program year and Appendix 1 and 1-A for a county-by-county listing of compliance investigations.

Number of complaints filed against registered tobacco retailers and vendors in New York State: During the time period April 1, 2012 to March 31, 2014 a total of 674 inspections were conducted in response to 507 complaints received concerning ATUPA violations. One hundred sixty complaints were filed against “registered” tobacco retailers. Included in Appendix 1 is a county-by-county breakdown.

The names and addresses of retailers and vendors reported by local enforcement officers to have paid fines or been otherwise penalized due to tobacco enforcement actions in New York State: During the time period April 1, 2012 to March 31, 2014, state and local enforcement officers conducted 62,197 inspections of tobacco retailers to assess compliance with the State’s Public Health Law (ATUPA). A total of 5,143 enforcement actions were taken for ATUPA violations and more than \$4.93 million in fines were assessed. The names of penalized tobacco retailers and vendors are listed by county and program year in Appendix 2.

The number of tobacco users and trends among minors in New York State: New York State conducts a Youth Tobacco Survey every other year to develop statewide estimates of tobacco use and related behaviors and attitudes for students from grades six to 12. The survey includes questions about tobacco use, exposure to environmental tobacco smoke, minors' ability to purchase or otherwise obtain tobacco products, knowledge and attitudes about tobacco and familiarity with pro- and anti-tobacco media messages. A total of 73 public, parochial and other private schools agreed to participate in the survey with a total of 10,643 students completing the survey in 2012. The results of the survey are applicable to New York State youth attending middle school or high school. There was a significant downward trend in current use of cigarettes by high school and middle school students in each year from 2000 through 2012. Additional data from the 2012 National Youth Tobacco Survey are found in Appendix 4.

Funding disbursement: Appendix 5 lists the funding amounts distributed to 35 county health departments, the New York City Department of Health and Mental Hygiene and the New York City Department of Consumer Affairs to conduct, as enforcement officers, youth access tobacco enforcement activities. As guided by Section 1399-hh of the Public Health Law, funding was based on the number of retail facilities registered with the Department of Taxation and Finance to sell tobacco products within the local health department's jurisdiction. Funding is also listed for the nine NYS DOH district offices that conducted compliance checks in the 22 upstate counties that do not, or did not elect to, conduct enforcement activities in their counties.

Enforcement: One thousand and twenty vendors were reported to the Department of Taxation and Finance for lack of required registration to sell tobacco products from April 1, 2012 to March 31, 2014. As a result, the Department of Taxation and Finance verifies the status and notifies unregistered vendors of the need to pay a fee to gain a registration and fines them up to \$3,500 for non-compliance. During compliance checks conducted from April 1, 2012 to March 31, 2014, under-aged youth purchased tobacco 2,483 times and health officers assessed fines totaling \$4,959,313 for ATUPA violations and finalized enforcement against 5,134 tobacco vendors. Fines collected for the period April 1, 2012 to March 31, 2014 totaled \$4,039,685.

During the reporting period from April 1, 2012 to March 31, 2014, a total of 232 tobacco retailers' registrations to sell tobacco products were suspended by the Department of Taxation and Finance as a result of multiple enforcement actions for violations of the ATUPA. Of this total, 215 were suspended for six months, four for one year and 13 permanently. There were also 62 lottery agent licenses suspended for six months for multiple sales to minors.

Impact of 15 program years:

* Other Regulatory Requirements include proper Department of Taxation and Finance registration compliance, posting required signs, educating operators of the Public Health Law requirements, verifying vending machine supervision and proper location, attempting compliance checks and/or investigation of complaints.

** Includes compliance checks conducted by adult inspectors for out of the package cigarettes, self-service restrictions, bidis, gutka, etc.

¹ Total for years 3 through 15, data not collected in the first two program years.

² The FFY 2011 program year covers 18 months, October 1, 2010 to March 31, 2012.

³ The tobacco enforcement program year now follows the State Fiscal Year (SFY).

The tobacco retailer non-compliance rate for FFY 1998 & 1999 is based on the number of enforcement actions for illegal sales to minors; the 2000-2012 rate is based on the actual number of sales to minors.

* The FFY 2011 contract period covers the 18 months from October 1, 2010 to March 31, 2012.

** The tobacco enforcement program year now follows the State Fiscal Year (SFY).

The New York State Division of Homeland Security & Emergency Services Office of Fire Prevention and Control reported the following information:

Number of fires and related injuries and deaths caused or believed to be caused by tobacco products: The Office of Fire Prevention and Control's Fire Reporting System data for the period January 1, 2012 to December 31, 2013 identified 1,826 fires classified as being caused by abandoned or discarded cigarettes. There were 68 deaths and 66 injuries to civilians resulting from fires caused by tobacco products. Ten firefighters were also injured and one firefighter death. Appendix 6 includes a breakdown of tobacco-related fire statistics by year and county.

The New York State Education Department reported the following information:

A survey of attitudes and behaviors regarding tobacco use among minors: The New York State Education Department conducts a federal Center for Disease Control (CDC) funded statewide "Youth Risk Behavior Survey" (YRBS) of students in New York State (including New York City) schools. The survey contains several questions on youth tobacco use and is conducted every two years. For each survey, a new sample of schools and students is selected; student participation is voluntary. In 2013, 10,643 ninth through twelfth grade students from 83 schools participated. New York State data from the YRBS for years 2007, 2009, 2011 and 2013 is included in Appendix 3.
