

TEMPLATE FOR CHILD HEALTH PLAN UNDER TITLE XXI OF THE SOCIAL SECURITY ACT
CHILDREN'S HEALTH INSURANCE PROGRAM

(Required under 4901 of the Balanced Budget Act of 1997 (New section 2101(b)))

State/Territory: New York
(Name of State/Territory)

As a condition for receipt of Federal funds under Title XXI of the Social Security Act, (42 CFR, 457.40(b)) Gabrielle Armenia March XX, 2024 (Signature of Governor, or designee, of State/Territory, Date Signed)

submits the following Child Health Plan for the Children's Health Insurance Program and hereby agrees to administer the program in accordance with the provisions of the approved Child Health Plan, the requirements of Title XXI and XIX of the Act (as appropriate) and all applicable Federal regulations and other official issuances of the Department.

The following State officials are responsible for program administration and financial oversight (42 CFR 457.40(c)):

Name:	Position/Title:
Gabrielle Armenia	CHIP Director
	Director, Division of Eligibility and Marketplace Integration
	Office of Health Insurance Programs

Disclosure Statement This information is being collected to pursuant to 42 U.S.C. 1397aa, which requires states to submit a State Child Health Plan in order to receive federal funding. This mandatory information collection will be used to demonstrate compliance with all requirements of title XXI of the Act and implementing regulations at 42 CFR part 457. According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid Office of Management and Budget (OMB) control number. The valid OMB control number for this information collection is 0938-1148 (CMS-10398 #34). Public burden for all of the collection of information requirements under this control number is estimated to average 80 hours per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to CMS, 7500 Security Boulevard, Attn: Paperwork Reduction Act Reports Clearance Officer, Mail Stop C4-26-05, Baltimore, Maryland 21244-1850.

Introduction: Section 4901 of the Balanced Budget Act of 1997 (BBA), public law 1005-33 amended the Social Security Act (the Act) by adding a new title XXI, the Children's Health Insurance Program (CHIP). In February 2009, the Children's Health Insurance Program Reauthorization Act (CHIPRA) renewed the program. The Patient Protection and Affordable Care Act, as amended by the Health Care and Education Reconciliation

Act of 2010, further modified the program. The HEALTHY KIDS Act and The Bipartisan Budget Act of 2018 together resulted in an extension of funding for CHIP through federal fiscal year 2027.

This template outlines the information that must be included in the state plans and the State plan amendments (SPAs). It reflects the regulatory requirements at 42 CFR Part 457 as well as the previously approved SPA templates that accompanied guidance issued to States through State Health Official (SHO) letters. Where applicable, we indicate the SHO number and the date it was issued for your reference. The CHIP SPA template includes the following changes:

- Combined the instruction document with the CHIP SPA template to have a single document. Any modifications to previous instructions are for clarification only and do not reflect new policy guidance.
- Incorporated the previously issued guidance and templates (see the Key following the template for information on the newly added templates), including:
 - Prenatal care and associated health care services (SHO #02-004, issued November 12, 2002)
 - Coverage of pregnant women (CHIPRA #2, SHO # 09-006, issued May 11, 2009)
 - Tribal consultation requirements (ARRA #2, CHIPRA #3, issued May 28, 2009)
 - Dental and supplemental dental benefits (CHIPRA # 7, SHO # #09-012, issued October 7, 2009)
 - Premium assistance (CHIPRA # 13, SHO # 10-002, issued February 2, 2010)
 - Express lane eligibility (CHIPRA # 14, SHO # 10-003, issued February 4, 2010)
 - Lawfully Residing requirements (CHIPRA # 17, SHO # 10-006, issued July 1, 2010)
- Moved sections 2.2 and 2.3 into section 5 to eliminate redundancies between sections 2 and 5.
- Removed crowd-out language that had been added by the August 17 letter that later was repealed.
- Added new provisions related to delivery methods, including managed care, to section 3 (81 FR 27498, issued May 6, 2016)

States are not required to resubmit existing State plans using this current updated template. However, States must use this updated template when submitting a new State Plan Amendment.

Federal Requirements for Submission and Review of a Proposed SPA. (42 CFR Part 457 Subpart A) In order to be eligible for payment under this statute, each State must submit a Title XXI plan for approval by the Secretary that details how the State intends to use the funds and fulfill other requirements under the law and regulations at 42 CFR Part 457. A SPA is approved in 90 days unless the Secretary notifies the State in writing that the plan is disapproved or that specified additional information is needed. Unlike Medicaid SPAs, there is only one 90 day review period, or clock for CHIP SPAs, that may be stopped by a request for additional information and restarted after a complete response is received. More information on the SPA review process is found at 42 CFR 457 Subpart A.

When submitting a State plan amendment, states should redline the changes that are being made to the existing State plan and provide a “clean” copy including changes that are being made to the existing state plan.

The template includes the following sections:

1. **General Description and Purpose of the Children’s Health Insurance Plans and the Requirements-**
This section should describe how the State has designed their program. It also is the place in the template

- that a State updates to insert a short description and the proposed effective date of the SPA, and the proposed implementation date(s) if different from the effective date. (Section 2101); (42 CFR, 457.70)
2. **General Background and Description of State Approach to Child Health Coverage and Coordination-** This section should provide general information related to the special characteristics of each state's program. The information should include the extent and manner to which children in the State currently have creditable health coverage, current State efforts to provide or obtain creditable health coverage for uninsured children and how the plan is designed to be coordinated with current health insurance, public health efforts, or other enrollment initiatives. This information provides a health insurance baseline in terms of the status of the children in a given State and the State programs currently in place. (Section 2103); (42 CFR 457.410(A))
 3. **Methods of Delivery and Utilization Controls-** This section requires the State to specify its proposed method of delivery. If the State proposes to use managed care, the State must describe and attest to certain requirements of a managed care delivery system, including contracting standards; enrollee enrollment processes; enrollee notification and grievance processes; and plans for enrolling providers, among others. (Section 2103); (42 CFR Part 457. Subpart L)
 4. **Eligibility Standards and Methodology-** The plan must include a description of the standards used to determine the eligibility of targeted low-income children for child health assistance under the plan. This section includes a list of potential eligibility standards the State can check off and provide a short description of how those standards will be applied. All eligibility standards must be consistent with the provisions of Title XXI and may not discriminate on the basis of diagnosis. In addition, if the standards vary within the state, the State should describe how they will be applied and under what circumstances they will be applied. In addition, this section provides information on income eligibility for Medicaid expansion programs (which are exempt from Section 4 of the State plan template) if applicable. (Section 2102(b)); (42 CFR 457.305 and 457.320)
 5. **Outreach-** This section is designed for the State to fully explain its outreach activities. Outreach is defined in law as outreach to families of children likely to be eligible for child health assistance under the plan or under other public or private health coverage programs. The purpose is to inform these families of the availability of, and to assist them in enrolling their children in, such a program. (Section 2102(c)(1)); (42 CFR 457.90)
 6. **Coverage Requirements for Children's Health Insurance-** Regarding the required scope of health insurance coverage in a State plan, the child health assistance provided must consist of any of the four types of coverage outlined in Section 2103(a) (specifically, benchmark coverage; benchmark-equivalent coverage; existing comprehensive state-based coverage; and/or Secretary-approved coverage). In this section States identify the scope of coverage and benefits offered under the plan including the categories under which that coverage is offered. The amount, scope, and duration of each offered service should be fully explained, as well as any corresponding limitations or exclusions. (Section 2103); (42 CFR 457.410(A))
 7. **Quality and Appropriateness of Care-** This section includes a description of the methods (including monitoring) to be used to assure the quality and appropriateness of care and to assure access to covered services. A variety of methods are available for State's use in monitoring and evaluating the quality and appropriateness of care in its child health assistance program. The section lists some of the methods which states may consider using. In addition to methods, there are a variety of tools available for State adaptation and use with this program. The section lists some of these tools. States also have the option to choose who will conduct these activities. As an alternative to using staff of the State agency administering the program, states have the option to contract out with other organizations for this quality

- of care function. (Section 2107); (42 CFR 457.495)
8. **Cost Sharing and Payment-** This section addresses the requirement of a State child health plan to include a description of its proposed cost sharing for enrollees. Cost sharing is the amount (if any) of premiums, deductibles, coinsurance and other cost sharing imposed. The cost-sharing requirements provide protection for lower income children, ban cost sharing for preventive services, address the limitations on premiums and cost-sharing and address the treatment of pre-existing medical conditions. (Section 2103(e)); (42 CFR 457, Subpart E)
 9. **Strategic Objectives and Performance Goals and Plan Administration-** The section addresses the strategic objectives, the performance goals, and the performance measures the State has established for providing child health assistance to targeted low income children under the plan for maximizing health benefits coverage for other low income children and children generally in the state. (Section 2107); (42 CFR 457.710)
 10. **Annual Reports and Evaluations-** Section 2108(a) requires the State to assess the operation of the Children's Health Insurance Program plan and submit to the Secretary an annual report which includes the progress made in reducing the number of uninsured low income children. The report is due by January 1, following the end of the Federal fiscal year and should cover that Federal Fiscal Year. In this section, states are asked to assure that they will comply with these requirements, indicated by checking the box. (Section 2108); (42 CFR 457.750)
 11. **Program Integrity-** In this section, the State assures that services are provided in an effective and efficient manner through free and open competition or through basing rates on other public and private rates that are actuarially sound. (Sections 2101(a) and 2107(e); (42 CFR 457, subpart I)
 12. **Applicant and Enrollee Protections-** This section addresses the review process for eligibility and enrollment matters, health services matters (i.e., grievances), and for states that use premium assistance a description of how it will assure that applicants and enrollees are given the opportunity at initial enrollment and at each redetermination of eligibility to obtain health benefits coverage other than through that group health plan. (Section 2101(a)); (42 CFR 457.1120)

Program Options. As mentioned above, the law allows States to expand coverage for children through a separate child health insurance program, through a Medicaid expansion program, or through a combination of these programs. These options are described further below:

- **Option to Create a Separate Program-** States may elect to establish a separate child health program that are in compliance with title XXI and applicable rules. These states must establish enrollment systems that are coordinated with Medicaid and other sources of health coverage for children and also must screen children during the application process to determine if they are eligible for Medicaid and, if they are, enroll these children promptly in Medicaid.
- **Option to Expand Medicaid-** States may elect to expand coverage through Medicaid. This option for states would be available for children who do not qualify for Medicaid under State rules in effect as of March 31, 1997. Under this option, current Medicaid rules would apply.

Medicaid Expansion- CHIP SPA Requirements

In order to expedite the SPA process, states choosing to expand coverage only through an expansion of Medicaid eligibility would be required to complete sections:

- 1 (General Description)
- 2 (General Background)

They will also be required to complete the appropriate program sections, including:

- 4 (Eligibility Standards and Methodology)
- 5 (Outreach)
- 9 (Strategic Objectives and Performance Goals and Plan Administration including the budget)
- 10 (Annual Reports and Evaluations).

Medicaid Expansion- Medicaid SPA Requirements

States expanding through Medicaid-only will also be required to submit a Medicaid State plan amendment to modify their Title XIX State plans. These states may complete the first check-off and indicate that the description of the requirements for these sections are incorporated by reference through their State Medicaid plans for sections:

- 3 (Methods of Delivery and Utilization Controls)
 - 4 (Eligibility Standards and Methodology)
 - 6 (Coverage Requirements for Children’s Health Insurance)
 - 7 (Quality and Appropriateness of Care)
 - 8 (Cost Sharing and Payment)
 - 11 (Program Integrity)
 - 12 (Applicant and Enrollee Protections)
- **Combination of Options-** CHIP allows states to elect to use a combination of the Medicaid program and a separate child health program to increase health coverage for children. For example, a State may cover optional targeted-low income children in families with incomes of up to 133 percent of poverty through Medicaid and a targeted group of children above that level through a separate child health program. For the children the State chooses to cover under an expansion of Medicaid, the description provided under “Option to Expand Medicaid” would apply. Similarly, for children the State chooses to cover under a separate program, the provisions outlined above in “Option to Create a Separate Program” would apply. States wishing to use a combination of approaches will be required to complete the Title XXI State plan and the necessary State plan amendment under Title XIX.

Where the state’s assurance is requested in this document for compliance with a particular requirement of 42 CFR 457 et seq., the state shall place a check mark to affirm that it will be in compliance no later than the applicable compliance date.

Proposed State plan amendments should be submitted electronically and one signed hard copy to the Centers for Medicare & Medicaid Services at the following address:

Name of Project Officer
 Centers for Medicare & Medicaid Services
 7500 Security Blvd
 Baltimore, Maryland 21244
 Attn: Children and Adults Health Programs Group
 Center for Medicaid and CHIP Services
 Mail Stop - S2-01-16

Section 1. General Description and Purpose of the Children’s Health Insurance Plans and the Requirements

1.1. The state will use funds provided under Title XXI primarily for (Check appropriate box) (Section 2101)(a)(1)); (42 CFR 457.70):

Guidance: Check below if child health assistance shall be provided primarily through the development of a separate program that meets the requirements of Section 2101, which details coverage requirements and the other applicable requirements of Title XXI.

1.1.1. Obtaining coverage that meets the requirements for a separate child health program (Sections 2101(a)(1) and 2103); OR

Guidance: Check below if child health assistance shall be provided primarily through providing expanded eligibility under the State’s Medicaid program (Title XIX). Note that if this is selected the State must also submit a corresponding Medicaid SPA to CMS for review and approval.

1.1.2. Providing expanded benefits under the State’s Medicaid plan (Title XIX) (Section 2101(a)(2)); OR

Guidance: Check below if child health assistance shall be provided through a combination of both 1.1.1. and 1.1.2. (Coverage that meets the requirements of Title XXI, in conjunction with an expansion in the State’s Medicaid program). Note that if this is selected the state must also submit a corresponding Medicaid state plan amendment to CMS for review and approval.

1.1.3. A combination of both of the above. (Section 2101(a)(2))

1.1-DS The State will provide dental-only supplemental coverage. Only States operating a separate CHIP program are eligible for this option. States choosing this option must also complete sections 4.1-DS, 4.2-DS, 6.2-DS, 8.2-DS, and 9.10 of this SPA template. (Section 2110(b)(5))

1.2. Check to provide an assurance that expenditures for child health assistance will not be claimed prior to the time that the State has legislative authority to operate the State plan or plan amendment as approved by CMS. (42 CFR 457.40(d))

1.3. Check to provide an assurance that the State complies with all applicable civil rights requirements, including title VI of the Civil Rights Act of 1964, title II of the Americans with Disabilities Act of 1990, section 504 of the Rehabilitation Act of 1973, the Age Discrimination Act of 1975, 45 CFR part 80, part 84, and part 91, and 28 CFR part 35. (42CFR 457.130)

Guidance: The effective date as specified below is defined as the date on which the State begins to incur costs to implement its State plan or amendment. (42 CFR 457.65) The implementation date is defined as the date the State begins to provide services; or, the date on which the State puts into practice the new policy described in the State plan or amendment. For example, in a State that has increased eligibility, this is the date on which the State begins to provide coverage to enrollees (and not the date the State begins outreach or accepting applications).

- 1.4.** Provide the effective (date costs begin to be incurred) and implementation (date services begin to be provided) dates for this SPA (42 CFR 457.65). A SPA may only have one effective date, but provisions within the SPA may have different implementation dates that must be after the effective date.

1.4- TC Tribal Consultation (Section 2107(e)(1)(C)) Describe the consultation process that occurred specifically for the development and submission of this State Plan Amendment, when it occurred and who was involved.

TN No: Approval Date Effective Date

Guidance: Section 2.2 allows states to request to use the funds available under the 10 percent limit on administrative expenditures in order to fund services not otherwise allowable. The health services initiatives must meet the requirements of 42 CFR 457.10.

2.2. Health Services Initiatives- Describe if the State will use the health services initiative option as allowed at 42 CFR 457.10. If so, describe what services or programs the State is proposing to cover with administrative funds, including the cost of each program, and how it is currently funded (if applicable), also update the budget accordingly. (Section 2105(a)(1)(D)(ii)); (42 CFR 457.10)

4.1.7 Access to or coverage under other health coverage:

Effective April 1, 2022, New York provides coverage from conception to the end of pregnancy (FCEP) for uninsured pregnant consumers with income up to and including 218% FPL, plus 5% deduction, not otherwise eligible for Medicaid or CHIP. In determining household size, the “unborn child” or “children” will be counted as if born and living with the pregnant parent.

Effective January 1, 2024, families who report or are found to have other health insurance coverage, public minimum essential coverage, except Medicaid, or children who gain access or enrollment into a state health benefits plan, the New York State Health Insurance Program (NYSHIP), during the course of their 12-month enrollment period, will remain enrolled in the Child Health Plus program for the remainder of their 12-month continuous eligibility period and will become ineligible for Child Health Plus at renewal.

4.1.8 Duration of eligibility, not to exceed 12 months:

The period of eligibility shall commence on the first day of the month during which a child is determined eligible, as described below, and end on the last day of the twelfth month of coverage. The period of eligibility shall cease if the child no longer resides in New York State; has become eligible for Medicaid; has reached the age of 19; the child or child’s representative requests a voluntary termination of eligibility; the state determines that eligibility was erroneously granted at the most recent determination, redetermination, or renewal of eligibility because of state error or fraud, abuse, or perjury attributed to the child or the child’s representative; or the child dies.

At the State’s discretion, either allow additional time for enrollees to pay outstanding family premium contributions or waive such contributions for

enrollees living in and/or working in FEMA or Governor declared disaster areas at the time of the disaster event, in the event of a disaster, the State will notify CMS of the intent to provide temporary adjustments to its enrollment and/or re-determination policies, the effective dates of such adjustments and the counties/areas impacted by the disaster.

Effective January 1, 2014, children whose application is submitted to NY State of Health, New York's Health Insurance Marketplace, by the 15th of the month, shall be enrolled on the first day of the next month if determined eligible. Applications received by NY State of Health after the 15th day of the month will be processed for the first day of the second subsequent month. In no case is a child enrolled more than 45 days after submission of the application. Implemented on October 2017, if a child renews their coverage after the 15th day of the month but before the last day of the month of their 12-month enrollment period and the child selects the same health plan, the child will remain continuously enrolled effective the first day of the subsequent month.

Effective June 1, 2023, if a child renews their coverage in the month following their prior 12-month enrollment period, and the child selects the same health plan, the child will be given eligibility retroactive enrollment coverage to the first day of the month following their prior 12-month enrollment period so the child will not experience a gap.

Effective January 1, 2017, a newborn who applies for coverage, is found eligible for the Child Health Plus program and selects a health plan within 60 days of the child's date of birth, will be given eligibility retroactive to the first day of the month of the child's date of birth. The family is provided with the option to choose the enrollment start date which can be either retroactive to the first of the month of the date of birth, the first of the month after the date of birth or prospective based on the 15th day of the month rule described above.

Implemented on August 1, 2017, children who originally enrolled directly with a health plan prior to January 1, 2014 will be transitioned to NY State of Health, New York's Health Insurance Marketplace, at their annual renewal. Children will receive a notice approximately 60 days prior to their renewal with instructions regarding how they must renew their coverage in NY State of Health. If the child appears Medicaid eligible at renewal, the child will be enrolled in Medicaid through NY State of Health. The process to transition children originally enrolled with a health plan to NY State of Health was completed on July 31, 2018.

Families are required to report changes in New York State residency or health

insurance coverage that would make a child ineligible for subsidy payments. Effective January 1, 2014, these changes must be provided to NY State of Health if that is where enrollment originated. If enrollment originated with the health plan prior to January 1, 2014 and the child's enrollment was not yet transitioned to NY State of Health, changes must be reported directly to the health plan.

Effective August 1, 2018 all changes are reported to NY State of Health as the transition of CHPlus children to NY State of Health was completed by 7/31/2018. If a family submits required eligibility information that affects their enrollment status, the information will be implemented prospectively. A family may incur a different family premium contribution or be enrolled in Medicaid based on the new information.

Effective January 1, 2024, families who report or are found to have other health insurance coverage, public minimum essential coverage, except Medicaid, or children who gain access or enrollment into a state health benefits plan, the New York State Health Insurance Program (NYSHIP), become incarcerated, or fail to pay the monthly family premium contribution during the course of their 12-month enrollment period, will remain enrolled in the Child Health Plus program for the remainder of their 12-month continuous eligibility period and will become ineligible for Child Health Plus at renewal.

Guidance: States should describe their continuous eligibility process and populations that can be continuously eligible.

4.1.9.2 Continuous eligibility

Fully eligible children are granted twelve months of continuous eligibility with the following exceptions: the child no longer resides in New York State; the child has enrolled in Medicaid; the child has reached the age of 19; the child or child's representative requests a voluntary termination of eligibility; the state determines that eligibility was erroneously granted at the most recent determination, redetermination, or renewal of eligibility because of state error or fraud, abuse, or perjury attributed to the child or the child's representative; or the child dies.

At the State's discretion, either allow additional time for enrollees to pay outstanding family premium contributions or waive such contributions for enrollees living in and/or working in FEMA or Governor declared disaster areas at the time of the disaster event. In the event of a disaster, the State will notify CMS of the intent to provide temporary adjustments to its enrollment and/or re-determination policies, the effective dates of such adjustments and the counties/areas impacted by

the disaster.

Guidance: Outreach strategies may include, but are not limited to, community outreach workers, outstationed eligibility workers, translation and transportation services, assistance with enrollment forms, case management and other targeting activities to inform families of low-income children of the availability of the health insurance program under the plan or other private or public health coverage.

The description should include information on how the State will inform the target of the availability of the programs, including American Indians and Alaska Natives, and assist them in enrolling in the appropriate program.

5.3. Strategies Describe the procedures used by the State to accomplish outreach to families of children likely to be eligible for child health assistance or other public or private health coverage to inform them of the availability of the programs, and to assist them in enrolling their children in such a program. (Section 2102(c)(1)) (42CFR 457.90)

New York established a facilitated enrollment program in 1999 to assist families in applying for public health insurance programs. We contracted with 41 community-based organizations including child advocacy groups, health care providers, rural health networks, perinatal networks and local governments to provide facilitated enrollment for CHPlus and Medicaid.

These organizations provide application assistance in community-based settings. Approximately \$17 million was awarded to these organizations during the period April 1, 2010 through March 31, 2011 to support locally-tailored programs to develop and implement the necessary enrollment infrastructure. The facilitated enrollment program was re-procured in 2011 for contracts effective January 1, 2012. Approximately \$15.3 million was awarded to 41 community-based organizations throughout the State.

Under the Affordable Care Act, NY State of Health is required to operate a Navigator Program to assist New Yorkers in enrolling in health insurance. Today, New York holds contracts with over 40 different agencies under that Navigator Program, that employ more than 400 navigators who speak 40 languages and American Sign Language. Additionally, New York has Assistors and Marketplace Facilitated Enrollers that also provide outreach and enrollment assistance to consumers that may be eligible for Child Health Plus.

Navigators, Certified Application Counselors and Marketplace Facilitated Enrollers (collectively referred to as assistors) provide families with eligibility information, assist them in completing the application, help gather documentation and submit the application to NY State of Health for enrollment in CHPlus or Medicaid, for Modified Adjusted

Gross Income (MAGI) populations. NY State of Health Assistors are available during evening and weekend hours, making enrollment more convenient for working families. By removing some of the identified barriers to enrollment, the Department, through the facilitated enrollers, can ensure that each child enters the system and receives services through the “right door”, without families having to search for that door. In doing so, the Department has created a system that balances and coordinates federal and state statutes with the goal of enrolling targeted low-income children.

Because New York State has an integrated eligibility and enrollment system, much of the outreach work is geared toward promoting NY State of Health and the programs available through the Marketplace, including Medicaid and Child Health Plus. Specific outreach is not done for each program. In addition to a media campaign promoting NY State of Health, other campaign strategies include developing community partnerships, conducting outreach at community events, making presentations to provide education about NY State of Health, training community partners about the available health insurance options and raising public awareness about the programs available on NY State of Health. State and locally targeted outreach efforts are developed in conjunction with Navigators, Marketplace Facilitated Enrollers and Certified Application Counselors to address specific populations in need of health care coverage. Many Navigators Agencies target specific communities that are hard-to-reach.

Guidance: Check below if the State elects to provide a source of coverage that is not described above. Describe the coverage that will be offered, including any benefit limitations or exclusions.

- 8.2.** Describe the amount of cost-sharing, any sliding scale based on income, the group or groups of enrollees that may be subject to the charge by age and income (if applicable) and the service for which the charge is imposed or time period for the charge, as appropriate. (Section 2103(e)(1)(A)) (42CFR 457.505(a), 457.510(b) and (c), 457.515(a) and (c))

- 8.2.1.** Premiums:
≤222% FPL \$0
>222%-250% * \$15, max per family \$45
>250%-300% \$30, max per family \$90
>300%-350% * \$45, max per family \$135
>350%-400% \$60, max per family \$180

*American Indians/Native Americans exempt from Family contribution. At the State’s discretion, non-payment of premiums may be temporarily forgiven/waived or families may be given additional time to pay their premiums for CHIP applicants and/or existing beneficiaries who reside and/or work in a State or federally declared disaster area.

Effective January 1, 2024, children within their 12-month continuous eligibility period will not be terminated for non-payment of the monthly family premium contribution.

* No cost-sharing imposed on the FCEP population.

- 8.7.** Provide a description of the consequences for an enrollee or applicant who does not pay a charge. (42CFR 457.570 and 457.505(c))

If a subsidized enrollee has a family premium contribution, the initial premium contribution is due by the 10th of the month of the enrollment start date for coverage to be effectuated. If the family premium contribution is not received, the enrollee is cancelled for non-payment and must reapply for coverage through NY State of Health. For subsequent months of coverage, enrollees are billed monthly, either 60 or 90 days in advance prior to their month of coverage. The family premium contribution is due 30 days in advance of the month of coverage. Effective January 1, 2024 fully eligible subsidized enrollees who are within their 12-month continuous eligibility (CE) period and do not pay the monthly family premium contribution will remain enrolled in coverage and will not be terminated for non-payment through the end of their 12-month CE period.

Enrollees have the opportunity to update their income in NY State of Health and to provide proof of a decrease in income. If proof is required by NY State of Health, that would make the child eligible for Medicaid or for a lower family contribution. NY State of Health would redetermine program eligibility and the family contribution based on the updated information.

At State discretion, families may temporarily be given additional time to pay their premiums or non-payment of premium may be temporarily forgiven/waived for existing CHIP beneficiaries who reside and/or work in a FEMA or Governor-declared disaster area.

Effective January 1, 2024, fully eligible subsidized enrollees who are within their 12-month continuous eligibility (CE) period and do not pay the monthly family premium contribution will remain enrolled in coverage and will not be terminated for non-payment through the end of their 12-month CE period.

There are no other charges associated with the program, and the family has the option of paying more than one month's family contribution at a time.

- 8.7.1.** Provide an assurance that the following disenrollment protections are being applied:

Guidance: Provide a description below of the State’s premium grace period process and how the State notifies families of their rights and responsibilities with respect to payment of premiums. (Section 2103(e)(3)(C))

- 8.7.1.1. State has established a process that gives enrollees reasonable notice of and an opportunity to pay past due premiums, copayments, coinsurance, deductibles or similar fees prior to disenrollment. (42CFR 457.570(a))

Effective January 1, 2024, fully eligible subsidized enrollees who are within their 12-month continuous eligibility (CE) period and do not pay the monthly family premium contribution will remain enrolled in coverage and will not be terminated for non-payment through the end of their 12-month CE period.

- 8.7.1.2. The disenrollment process affords the enrollee an opportunity to show that the enrollee’s family income has declined prior to disenrollment for non-payment of cost-sharing charges. (42CFR 457.570(b))

At the State’s discretion, either allow additional time for enrollees to pay outstanding family premium contributions or waive such contributions for enrollees living in/and or working in FEMA or Governor declared disaster areas at the time of the disaster event. In the event of a disaster, the State will notify CMS of the intent to provide temporary adjustments to its enrollment and/or redetermination policies, the effective dates of such adjustments and the counties/areas impacted by the disaster.

Effective January 1, 2024, fully eligible subsidized enrollees who are within their 12-month continuous eligibility (CE) period and do not pay the monthly family premium contribution will remain enrolled in coverage and will not be terminated for non-payment through the end of their 12-month CE period.

Guidance: Goals should be measurable, quantifiable and convey a target the State is working towards.

- 9.2. Specify one or more performance goals for each strategic objective identified: (Section 2107(a)(3)) (42CFR 457.710(c))

- Performance Goal: Increase the number of children enrolled in CHIP by 5% over the next three years to reduce the number of uninsured children in New York State.
Performance Measure: Analysis of current population survey (CPS) data to ensure that the number of insured children in the State remains stable or increases through

CHIP and Medicaid enrollment, while both the number and percentage of uninsured children under age 19 below 250 percent of the poverty level continues to decrease.

- Performance Goal: Increase the percentage of children ages 6-12 enrolled in the CHIP program who receive follow up care after being prescribed an ADHD medication by 5% over the next three years;

Performance Measure: Perform quality improvement initiatives to enhance the performance of health plans in all areas of child and adolescent health.

- Performance Goal: Increase the percentage of CHIP members ages 3-11 who received at least one well-care visit during the measurement year by 5% over the next three years;

Performance Measure: Perform quality improvement initiatives to enhance the performance of health plans in all areas of child and adolescent health.

- 9.9.1.** Describe the process used by the State to ensure interaction with Indian Tribes and organizations in the State on the development and implementation of the procedures required in 42 CFR 457.125. States should provide notice and consultation with Tribes on proposed pregnant women expansions. (Section 2107(c)) (42CFR 457.120(c))
- Child Health Plus participates in the quarterly Centers for Medicare and Medicaid Services (CMS) conference call to New York State's federally recognized Native American tribes. These calls discuss Native American health related issues concerning New York State's Child Health Plus program, Medicaid Managed Care Program, , Office of Medicaid Management (Medicaid Fee-for-Service) and Clinic Reimbursement as they affect the Native Americans in New York State.

There is a designated Native American Contact (NAC) from CMS who initiates the calls, in addition to developing the agenda from input from the Nations and prior discussions. The tribes are given program updates, current status or they bring up issues that the Nations would like to discuss or review.

New York State's federally recognized tribes that are invited to participate are: The Oneida Nation, Onondaga Nation, St. Regis Mohawk Tribe, Seneca Nation, Tuscarora Tribe, Tonawanda Band of Senecas and the Cayuga Nation.

- 9.10.** Provide a 1-year projected budget. A suggested financial form for the budget is below. The budget must describe: (Section 2107(d)) (42CFR 457.140)

- Planned use of funds, including:
 - Projected amount to be spent on health services;

- Projected amount to be spent on administrative costs, such as outreach, child health initiatives, and evaluation; and
 - Assumptions on which the budget is based, including cost per child and expected enrollment.
 - Projected expenditures for the separate child health plan, including but not limited to expenditures for targeted low income children, the optional coverage of the unborn, lawfully residing eligibles, dental services, etc.
 - All cost sharing, benefit, payment, eligibility need to be reflected in the budget.
-
- Projected sources of non-Federal plan expenditures, including any requirements for cost-sharing by enrollees.
 - Include a separate budget line to indicate the cost of providing coverage to pregnant women.
 - States must include a separate budget line item to indicate the cost of providing coverage to premium assistance children.
 - Include a separate budget line to indicate the cost of providing dental-only supplemental coverage.
 - Include a separate budget line to indicate the cost of implementing Express Lane Eligibility.
 - Provide a 1-year projected budget for all targeted low-income children covered under the state plan using the attached form. Additionally, provide the following:
 - Total 1-year cost of adding prenatal coverage
 - Estimate of unborn children covered in year 1

NOTE: Include the costs associated with the current SPA.
