Dear Health Plans:

The purpose of this letter is to provide Health Plans with information regarding the initial hospital Medicaid Managed Care (MMC) inpatient rates, based on the initial Medicaid fee-for-service rates, effective January 1, 2024 for Acute DRG, Exempt Hospitals and Exempt Hospital Unit services.

The rates are based on the same methodology and data used in the rates effective April 1, 2023, but take into consideration the following updates:

- 2024 budgeted capital, as reported by hospitals, and calculated in accordance with Section 8 of Article 2807-c of the Public Health Law.
- Inclusion of prospective rate adjustments associated with the capital component of each of the inpatient rates to reflect the reconciliation of budget to actual costs and utilization for the 2020 reporting period.
- Article 19 of NYS Labor Law established new minimum wage increases beginning January 1, 2024. Consequently, the Department of Health has incorporated adjustments to the acute, critical access hospital and specialty hospital rates for applicable hospitals.
- Continuation of 2% hospital investment on all eligible operating components of the inpatient rates. As a reminder, those hospitals where the estimated annual Medicaid impact from the 2% operating investment is less than \$75,000, the operating components were not adjusted since lump sum payments are anticipated to be made through Medicaid Fee-for-Service.
- Continuation of 1% and 7.5% operating component rate increases in accordance with Part I of Chapter 57 of the Laws of 2022 of the State Fiscal Year (SFY) 2022-23 enacted Budget and Part E of Chapter 57 of the Laws of 2023 of the SFY 2023-24 enacted Budget, respectively.
- Continuation of 10% reduction to all capital rate add-ons. Please note that an additional 10% reduction is anticipated effective October 1, 2024, in accordance with the SFY 2024-25 enacted Budget. A separate rate publication will follow.
- Continuation of Safety Net/Financially Distressed Hospital rate add-ons for Acute DRG and Psychiatric Hospital rates, where applicable. These rate add-ons are only effective for the period April 1, 2023 through March 31, 2024. For dates of service April 1, 2024 – March 31, 2025, the add-ons will be published once the necessary approvals are received. Please see the billing guidance attachment to this letter.
- Inclusion of recently approved NYC Upper Payment Limit (UPL) Conversion rate add-ons for Acute DRG and Specialty Hospital rates, where applicable. These add-ons are effective for the period April 1, 2023 through March 31, 2024 and will also be included in a revised April 1, 2023 rate publication.

Plans should treat these adjustments in accordance with Section 22.19 and Appendix V of the Managed Care Model Contract and the terms of their provider contracts with hospitals. This includes any reprocessing or claims settlements that should occur consistent with those agreements.

For payment of the January 1, 2024 rates, the July 1, 2018 service intensity weights (SIWs), average lengths of stay (ALOS) and cost outlier thresholds should continue to be utilized, as well as the 3M APR-DRG grouper version 34.

Within the published rate schedules, we have included MMC rates and informational Graduate Medical Education (GME) components, for the inpatient services listed below. Also published is a payment calculation file that displays how each component from the rate schedules is used in the payment of Medicaid claims.
