New York State Prevention Agenda
Priorities Selected by Counties, 2013

Priority Areas (# Selected by Counties)
- Chronic Disease (n=57)
- Mental Health and Substance Abuse (n=30)
- Women, Infants, Children (n=16)
- Environment (n=9)
- HIV, STD, Vaccines & HAI (n=3)
Prevention Agenda Year One Progress

• 181 responses (as of 3/2015)
  – All 58 Local Health Departments
  – 123 Hospital/hospital groups
  – 362 interventions reported on (2 per survey response);

• Information on:
  – Interventions
  – Status of efforts
  – Disparities being addressed
  – Partners participating
  – Partnerships organizations require help developing
  – Successes and challenges

Hospitals Reporting PA Interventions as Part of DSRIP Application, December 2014 (N=123 Hospitals/Groups)

Interventions Part of DSRIP Application?

- Yes: 48.0%
- No: 13.8%
- Unsure: 29.3%
- No DSRIP application: 8.9%
PA Interventions Listed on Hospital’s Schedule H Tax Form, 12/2014 (N=123)

Interventions On Schedule H?

- One: 14.6%
- Both: 39.0%
- None: 22.8%
- Not sure: 23.6%
What’s Next?

Data from summary will be made available to help Local Health Departments and Hospital/Hospital Systems understand:

- Intervention progress
- Measures used to track progress
- Target populations
- Disparities being addressed
- Partners engaged
- Successes and challenges
- Collecting Stories to Showcase Local Efforts
New York State Health Initiatives

**PREVENTION AGENDA**

**Priority Areas:**
- Prevent chronic diseases
- Promote a healthy and safe environment
- Promote healthy women, infants, and children
- Promote mental health and prevent substance abuse
- Prevent HIV, sexually transmitted diseases, vaccine-preventable diseases, and healthcare-associated infections

**STATE HEALTH INNOVATION PLAN (SHIP)**

**Pillars and Enablers:**
- Improve access to care for all New Yorkers
- Integrate care to address patient needs seamlessly
- Make the cost and quality of care transparent
- Pay for healthcare value, not volume
- Promote population health
- Develop workforce strategy
- Maximize health information technology
- Performance measurement & evaluation

**MEDICAID DELIVERY SYSTEM REFORM INCENTIVE PAYMENT (DSRIP) PROGRAM**

**Key Themes:**
- Integrate delivery – create Performing Provider Systems
- Performance-based payments
- Statewide performance matters
- Regulatory relief and capital funding
- Long-term transformation & health system sustainability

**ALIGNMENT:**

Improve Population Health  
Transform Health Care Delivery  
Eliminate Health Disparities

**POPULATION HEALTH IMPROVEMENT PROGRAM (PHIP)**

**PHIP Regional Contractors:**
- Identify, share, disseminate, and help implement best practices and strategies to promote population health
- Support and advance the Prevention Agenda
- Support and advance the SHIP
- Serve as resources to DSRIP Performing Provider Systems
Population-wide Projects from Prevention Agenda (Domain 4)

- Tobacco cessation
- Access to preventive care and management of chronic diseases in clinical and community settings
- Decrease HIV morbidity; increase access to, and retention in, HIV care
- Reduce premature births
Project 4.b.i - Promote tobacco use cessation, especially among low SES populations and those with poor mental health

- **Objective**
  - decrease the prevalence of cigarette smoking by adults 18 and older; increase use of tobacco cessation services including NYS Smokers’ Quitline and nicotine replacement products.

- **Target population includes:**
  - Communities where smoking rates are high
  - Those with low socio-economic status
  - Those with serious mental illness
  - Young adults
  - Tobacco users who have been to the ED at least once in a year
### Tobacco Use Cessation

Project 4.b.ii - Increase Access to High Quality Chronic Disease Preventive Care and Management in Both Clinical and Community Settings - targets chronic diseases that are not included in Domain 3, such as cancer

- Objective – increase the numbers of New Yorkers who receive evidence based preventive care and management for chronic diseases.

- Target population includes:
  - People living in poverty or in rural areas
  - Immigrants, migrants, people for whom English is not a primary language
  - People in communities identified as “hotspots”
  - Low- or non-utilizers of health care
  - High risk populations such as those who are obese or smokers
Chronic Disease 4.b.ii Project

Increase access to high quality preventive care and management in both clinical and community settings

Project 4.c.i - Decrease HIV morbidity

- **Objective** – reduce the newly diagnosed HIV case rate in New York by 25% to no more than 14.7 new diagnoses per 100,000.

- **Target population includes:**
  - People living with HIV/AIDS in 5 boroughs
  - Those who have fallen out of care or were never in care;
  - Those with co-morbid conditions, especially mental illness or substance abuse
Project 4.c.ii - Increase early access to, and retention in, HIV care

- Objectives
  - Increase the percentage of HIV-infected persons with a known diagnosis who are in care by 9% to 72%.
  - Increase the percentage of HIV-infected persons with known diagnoses who are virally suppressed to 45%.

- Target population includes:
  - HIV-infected individuals (diagnosed and undiagnosed) and those at high-risk of becoming infected (i.e., individuals eligible for PrEP)
  - Persons with co-occurring diagnoses such as mental health or SA disorders
  - People with social factors such as homelessness, and persons identified as being high risk such as foreign born individuals, Black or Hispanic individuals, and MSMs.
