1. **Page 23, 5. Payment, 3rd paragraph:**

A completed interview is defined according to the standards of the American Association for Public Opinion Research and reflects an interview in which the selected respondent has been asked all questions up to and including the demographic questions which will be used for weighting. See Attachment 1, 2016 BRFSS Data Collection Protocol with Disposition Table for definitions of partial completes and completes.

2. **Page 23, 5. Payment, 4th paragraph:**

A targeted goal number of completed interviews for landline and cell phone is established by NYSDOH prior to the start of the data collection for the year. The contractor will be paid the price quoted per completed interview for each survey type and phone type based on the targeted goal number.

3. **Page 23, 5. Payment, 6th paragraph:**

For the Expanded BRFSS, for each Option, payment will be reduced by the percentage of completed landline and/or cell phone interviews below the goal of completed landline and cell phone interviews per county and cell phone per each county region in New York State. For example, if the county level regional cell phone interview goal is 400 but 260 interviews are actually completed in a given county region, 400 minus 360 completed interviews equals 40 completed interviews below goal. 40/400 = 10%. Each Option payment for data collection in that county region will be reduced by 10%.
