**Phase I – Prescription Drugs Formulary Design – Step 2 (List of Factors Triggering the NQTL) and Substantive Comparative Analysis for Step 3 (Evidentiary Standards Comparability and Equivalent Stringency)**

As referenced in the Department of Health’s November 25, 2020 correspondence, which accompanied this Statement of Deficiency, at this time due to the planned pharmacy benefit carve out from Medicaid Managed Care, our Plan is not required to address deficiencies related to the prescription drugs classification or the formulary design NQTL in Phase I.

**Phase II – Outpatient Reimbursement – Steps 3, 4, and 5**

Excellus Health Plan, Inc. is committed to ensuring ongoing compliance with the Mental Health Parity and Addiction Equity Act of 2008 (MHPAEA) and related regulations. This commitment includes updating and maintaining current workbooks with the required information and substantive comparative analyses to demonstrate compliance.

**Remediation:**

We have updated our workbooks to provide more detail about how our Plan is operationalizing this NQTL. We have also been in contact with OMH and Milliman to ensure that our updates meet their expectations with respect to accurately reflecting our compliance. In the event OMH recommends changes to the updated workbook, we will immediately implement such changes.

**Responsible Party:**

Diane Burden, HCNM Project Manager III
Completion Date:  
12/17/2020

Monitoring:  
We will perform ongoing comparative analyses.

If any parity discrepancies are identified through the comparative analyses, or other monitoring activities, the workbooks will be updated as appropriate. Additionally, the individual or business area responsible for performing the comparative analyses is required to notify the Plan's Regulatory Compliance Department of these potential or actual violations through our regulatory self-reporting process. Our Plan will document and retain records of these violations, take the appropriate action to remediate the violations as identified, produce the necessary evidence of the remediation activity, and provide this information to the State, upon request.

Responsible Party:  
Laura Dibble, Vice President Regulatory Compliance, Medicare and Safety Net Compliance Officer

Completion Date:  
12/31/2021 and annually thereafter, and as often as needed when operational changes are made that impact the workbooks.

Education/Training:  
We are implementing robust training on all aspects of MH Parity. We are in the process of developing formal training related to MH and SUD parity requirements to be provided to those employees and agents (i.e. behavioral health vendors and utilization review agents) who are engaged in functions subject to MH and SUD parity requirements or who are involved in conducting analyses to determine compliance with such requirements. This training will be conducted at least annually, and also be made a part of the orientation for new employees involved with MH and SUD benefits or analyses to determine compliance. We plan to conduct an initial training session (Lunch and Learn format) to be completed by 6/30/2021 and then annually thereafter.

Training also includes training on updating workbooks to reflect any changes or corrections needed to address any areas of noncompliance found through our monitoring activities. We have also provided re-education to staff on the required components of a Plan of Correction.
Responsible Party:
Laura Dibble, Vice President Regulatory Compliance, Medicare and Safety Net Compliance Officer

Completion Date:
We expect initial training of employees and agents on all aspects of MH parity including training on workbooks to be completed by 6/30/2021 and annually thereafter.

The re-education on the required components of a Plan of Correction was completed 3/18/2021.

MCO Representative's Signature  Date March 19, 2021
Title Vice President, Regulatory Compliance, Medicare and Safety Net Compliance Officer
