

DSRIP and Home Care Strategies.ppt

This slide deck shows ways in which PPSs can leverage the home care workers already in patients' homes to help acheive DSRIP project outcomes, especially for:
-3.b.i and 3.b.ii, Evidence-based strategies for disease management - Cardiovascular health
-3.c.i and 3.c.ii, Evidence-based strategies for disease management - Diabetes care
-3.d.i, Evidence-based medication adherence programs - Asthma medication
It is from a webinar with presenters from leading New York City home care providers, including:
Bridget Gallagher, RN, Jewish Home Lifecare
Ann Frisch, RN, HHC Home Care
Adria Powell and Latifa Beato, Cooperative Home Care Associates

Helen, Thank you for providing this slideshow. The presentation has so much valuable information with respect to workforce and IT. As a member of the IT Group on the MIX, I will encourage other members to view your presentation on eCaring and Telehealth technologies. Thank you again and please continue to share with us presentations and any helpful outreach materials you may have.
