### EHR SUCCESS STORIES

*"The use of EHR has made locating charts and looking up labs quicker...it has eased the hassle of flipping through stacks of paper." – Provider in Brooklyn, NY*

Has your EHR system made a positive impact on your practice or facility? Please let us know! Visit <https://nyehrsuccess.questionpro.com> to share your story with us, which could be featured in the monthly Medicaid Update and EHR Incentive Program website.

### ATTENTION

Currently, MEIPASS is only accepting 2015 attestations for:

- Adopt / Implement / Upgrade (AIU)
- First year of Meaningful Use Stage 1 (MU1), which requires a continuous 90-day EHR reporting period

Providers who attest for 2015 as their first year of Stage 1 must meet the existing requirements for the NY Medicaid EHR Incentive Program. [Click here](#) to review the Stage 1 attestation worksheet for Eligible Professionals.

Please be advised that the Centers for Medicare & Medicaid Services (CMS) has not yet published a final rule to modify meaningful use for 2015 through 2017. Announcements will be posted on the EHR Incentive Program website and LISTSERV when providers may attest to the modified requirements.
