Meaningful Use Registration for Public Health (MURPH)

Registration of Intent

Eligible Providers planning to meet any MU Public Health Reporting measures must register their intent to submit data to the appropriate Public Health registries within 60 days from the start of their EHR Reporting Period.

Registration and MURPH System Details

- Update the registration each year
- Providers excluded from all measures should not register
- Providers already in production with the registry should still register on the MURPH System
- Multiple organization/practice locations should be listed on the same registration
- One registration is submitted for all EPs at an organization/practice
- Providers practicing in both inside and outside the 5 boroughs of NYC will need to register their intent twice (once for each jurisdiction)

Obtaining an HCS User Account

Health Commerce System (HCS)

- The individual completing the registration will need a Health Commerce System (HCS) user account.
- Reference the [HCS Quick Reference Guide](#) for detailed instructions on obtaining an HCS user account.

Announcements

IMPORTANT:
 HCS and the MURPH System will no longer be accessible to users who have Windows XP or Internet Explorer 9.

As of June 1, 2017, access to HCS will be discontinued for all users who have Internet Explorer 9 (IE9) or older versions. In addition, access will also be discontinued for all users who have a Windows XP operating system.

The Meaningful Use Registration for Public Health (MURPH) System is an application located on the HCS System, so access will also be discontinued in the above cases.

Please update your web browser or operating system to avoid losing access to HCS and the MURPH System application.
