Jason A. Helgerson State Medicaid Director **Deputy Commissioner** Office of Health Insurance Programs NYS Department of Health Corning Tower (OCP-1211) Albany, New York 12237

Dear Mr. Helgerson:

This is to notify you that New York's State Plan Amendment (SPA) #17-0066, "Express Lane for Children on TA," has been approved for adoption into the State Medicaid Plan with an effective date of October 1, 2017. This SPA proposes to end Express Lane Eligibility. Further, due to approval of NY SPA 17-0014, Income Determination – Public Benefit Program to Support Medicaid Determination, which now covers the means tested public benefits program to support Medicaid eligibility determinations, Express Lane Eligibility (which is optional under both the Federal and State law) is no longer necessary.

If you have any questions or wish to discuss this SPA further, please contact Michael Cutler of this office. Mr. Cutler may be reached at (212) 616-2421.

Sincerely,

Michael Melendez, LMSW Associate Regional Administrator

Division of Medicaid and Children's Health Operations

### 2.1 Application, Determination of Eligibility and Furnishing Medicaid (Continued)

(4) The following component/components of Medicaid eligibility are determined under the Express Lane option. Also, specify any differences in budget unit, deeming, income exclusions, income disregards, or other methodology between Medicaid eligibility determinations for such children and the determination under the Express Lane option.

[Child Health Plus annually renews eligibility for children enrolled in CHPlus. Under the screen and enroll process, the first step is to determine if the child is eligible for Medicaid. In order to streamline eligibility for children who screen Medicaid eligible, the Department of Health is implementing a process that will send the eligibility findings made at the renewal by CHPlus to the Local Departments of Social Services (LDSS).

The State will use an income finding from CHPlus and apply this income information to enroll a child in Medicaid if a child is found to be ineligible for CHPlus at renewal. Both Medicaid and Child Health Plus use MAGI (modified adjusted gross income) to determine eligibility. Medicaid will be accepting the income findings determined by CHPlus using MAGI methodology based on Medicaid income rules.

Medicaid and CHPlus both use the same residency rules. Neither Medicaid nor CHPlus require documentation of residency at renewal. Medicaid will accept the CHPlus agency's finding for residency.

Temporary Assistance requires the same verification of citizenship that Medicaid requires for eligibility. Income budgeting is slightly different, Temporary Assistance uses net income after allowing income disregards. Medicaid determines eligibility using MAGI (modified adjusted gross income) methodology. Since TA income guidelines are lower than the Medicaid levels, this slight discrepancy in budgeting income would not affect eligibility in a majority of the cases.]
