**2014 Title XIX State Plan**  
**First Quarter Amendment**  
**Summary**

**SUMMARY**  
**SPA #14-06**

This State Plan Amendment revises the Medically Needy income levels, effective January 1, 2014. For Medically Needy households of 1 and 2, levels are calculated using the SSI standards. To arrive at uniform levels for households of 3 and higher, 15% per additional household member is added to the standard for a household of 2. Thus, the standard for a household of 3 would be 115% of the standard for a household of 2; the standard for a household of 4 would be 130% of the standard for a household of 2, etc.

**New York State Social Services Law – Section 366**

§ 366. Eligibility

1. [4th/cd, L 2013] ( a) Definitions. For purposes of this section:

(I) “benchmark coverage” refers to medical assistance coverage defined in subdivision one of section three hundred sixty-five-a of this title:

(c) Non-MAGI eligibility groups. Individuals listed in this paragraph are eligible for standard coverage. Where a financial eligibility determination must be made by the medical assistance program for individuals in these groups, such financial eligibility will be determined in accordance with subdivision two of this section.

(1) An individual receiving or eligible to receive federal supplemental security income payments and/or additional state payments pursuant to title six of this article; any inconsistent provision of this chapter or other law notwithstanding, the department may designate the office of temporary and disability assistance as its agent to discharge its responsibility, or so much of its responsibility as is permitted by federal law, for determining eligibility for medical assistance with respect to persons who are not eligible to receive federal supplemental security income payments but who are receiving a state administered supplementary payment or mandatory minimum supplement in accordance with the provisions of subdivision one of section two hundred twelve of this article.

(2) An individual who, although not receiving public assistance or care for his or her maintenance under other provisions of this chapter, has income and resources, including available support from responsible relatives, that does not exceed the amounts set forth in paragraph (a) of subdivision two of this section, and is (i) sixty-five years of age or older, or certified blind or certified disabled or (ii) for reasons other than income or resources, is eligible for federal supplemental security income benefits and/or additional state payments.

(3) An individual who, although not receiving public assistance or care for his or her maintenance under other provisions of this chapter, has income, including available support from responsible relatives, that does not exceed the amounts set forth in paragraph (a) of subdivision two of this section, and is (i) under the age of twenty-one years, or (ii) a spouse of a cash public assistance recipient living with him or her and essential or necessary to his or her welfare and whose needs are taken into account in determining the amount of his or her cash payment, or (iii) for reasons other than income, would meet the eligibility requirements of the aid to dependent children program as it existed on the sixteenth day of July, nineteen hundred ninety-six.

2. (a) The following income and resources shall be exempt and shall not be taken into consideration in determining a person’s eligibility for medical care, services and supplies under this title:

(1) (i) for applications for medical assistance filed on or before December thirty-first, two thousand five, a homestead which is essential and appropriate to the needs of the household;

(ii) for applications for medical assistance filed on or after January first, two thousand six, a homestead which is essential and appropriate to the needs of the household; provided, however, that in determining eligibility of an individual for medical assistance for nursing facility services *and other long term care services*, the individual shall not be eligible for such assistance if the individual's equity interest in the homestead exceeds seven hundred fifty thousand dollars; provided further, that the dollar amount specified in this clause shall be increased, beginning with the year two thousand eleven, from year to year, *in an amount to be determined by the secretary of the federal department of health and human services*, based on the percentage increase in the consumer price index for all urban consumers, rounded to the nearest one thousand dollars. *If such secretary does not determine such an amount, the department of health shall increase such dollar amount based on such increase in the consumer price index.* Nothing in this clause shall be construed as preventing an individual from using a reverse mortgage or home equity loan to reduce the individual's total equity interest in the homestead. The home equity limitation established by this clause shall be waived in the case of a demonstrated hardship, as determined pursuant to criteria established by [fig 1] *such secretary*. The home equity limitations shall not apply if one or more of the following persons is lawfully residing in the individual's homestead [fig 2]: (A) the spouse of the individual; or (B) the individual's child who is under the age of twenty-one, or is blind or permanently [fig 3] *and* totally disabled, *as defined in section 1614 of the federal social security act.*

(2) essential personal property;

(3) a burial fund, to the extent allowed as an exempt resource under the cash assistance program to which the applicant is most closely related;

(4) savings in amounts equal to [fig 1] *one hundred fifty percent* of the income amount permitted under subparagraph seven of this paragraph, provided, however, that the amounts for one and two person households shall not be less than the amounts permitted to be retained by households of the same size in order to qualify for benefits under the federal supplemental security income program;

(5) (i) such income as is disregarded or exempt under the cash assistance program to which the applicant is most closely related for purposes of this subparagraph, cash assistance program means either the aid to dependent children program as it existed on the sixteenth day of July, nineteen hundred ninety-six, or the supplemental security income program; *and*

(ii) [Added, L 2007] such income of a disabled person (as such term is defined in section 1614(a)(3) of the federal social security act (42 U.S.C. section 1382c(a)(3)) or in accordance with any other rules or regulations established by the social security administration), that is deposited in trusts as defined in clause (iii) of subparagraph two of paragraph (b) of this subdivision in the same calendar month within which said income is received;

(6) health insurance premiums;

(7) income [fig 1] *based on the number* of family members in the medical assistance household, as defined in regulations by the commissioner consistent with federal regulations under title XIX of the federal social security act [fig 2] *and calculated as follows:*

(i) The amounts for one and two person households and families shall be equal to twelve times the standards of monthly need for determining eligibility for and the amount of additional state payments for aged, blind and disabled persons pursuant to section two hundred nine of this [fig 1] *article* rounded up to the next highest one hundred dollars for eligible individuals and couples living alone, respectively [fig 2].

(ii) *[Added, L 2008]* The amounts for households of three or more shall be calculated by increasing the income standard for a household of two, established pursuant to clause (i) of this subparagraph, by fifteen percent for each additional household member above two, such that the income standard for a three-person household shall be one hundred fifteen percent of the income standard for a two-person household, the income standard for a four-person household shall be one hundred thirty percent of the income standard for a two-person household, and so on.

(iii) No other income or resources, including federal old-age, survivors and disability insurance, state disability insurance or other payroll deductions, whether mandatory or optional, shall be exempt and all other income and resources shall be taken into consideration and required to be applied toward the payment or partial payment of the cost of medical care and services available under this title, to the extent permitted by federal law.
