SUMMARY
SPA #18-0042

This State Plan Amendment proposes to clarify rates of payment for LTC bed reservation.
PAYMENT FOR RESERVED BEDS IN MEDICAL INSTITUTIONS

LIMITATIONS

A. RESERVED BEDS DURING LEAVES OF ABSENCE (Defined to mean overnight absences including visits with relatives/friends, or leaves to participate in medically acceptable therapeutic or rehabilitative plans of care).

When patient's/resident's plan of care provides for leaves of absence:

General Hospital Patients
Eligibility restricted to patients receiving care in certified psychiatric or rehabilitation units, without consideration of any vacancy rate. A psychiatric patient must be institutionalized for 15 days during a current spell of illness; a rehabilitation patient must be institutionalized for 30 days. Leaves must be for therapeutic reasons only and carry a general limitation of no more than 18 days in any 12 month period, and 2 days per any single absence. Broader special limits are possible when physicians can justify them, subject to prior approval.

Nursing Facility (NF) Patients
A reserved bed day is a day for which a governmental agency pays a residential health care facility to reserve a bed for a person eligible for medical assistance while he or she is temporarily hospitalized or on leave of absence from the facility. All such reserve bed days during leaves of absences shall be pursuant to the residents’ plan of care.

All recipients are eligible after 30 days in the facility, subject to a facility vacancy rate, on the first day of the patient's/resident's absence of no more than 5%.

Effective July 1, 2012, for reserved bed days provided on behalf of persons 21 years of age or older:

(i) payments for reserved bed days related to hospitalization will be made at 50% of the Medicaid rate, and payments for reserved bed days related to non-hospitalization leaves of absence will be made at 95% of the Medicaid rate otherwise payable to the facility for services provided to such person;

(ii) payment to a facility for reserved bed days provided for such person for hospitalizations and therapeutic leave that is consistent with a plan of care ordered by the patient’s treating health care professional for visits to a health care professional that is expected to improve the patients’ physical condition or quality of life may not exceed 14 days in any 12-month period; and

(iii) payment to a facility for reserved bed days for patients on leave for purposes other than hospitalization or eligible therapeutic leave may not exceed 10 days in any 12-month period.

(iv) Broader special limits are possible when physicians can justify them, subject to prior approval.

The above payment methodology will sunset effective December 31, 2018.

[Reserved bed days provided on behalf of persons younger than 21 years of age will be made at 100% of the Medicaid rate.

In computing reserved bed days, the day of discharge from the residential health care facility shall be counted, but not day of readmission.]
Effective January 1, 2019, for reserved bed days provided on behalf of persons 21 years of age or older:

(i) payments for reserved bed days for patients on hospice will be made at 50% of the Medicaid rate otherwise payable to the facility for the services provided to such person.

(a) payment to a facility for reserved bed days provided on behalf of such person for leaves of absences may not exceed 14 days in any 12-month period.

(ii) payments for reserved bed days related to therapeutic leaves of absence will be made at 95% of the Medicaid rate otherwise payable to the facility for services provided to such person.

(a) payment to a facility for reserved bed days provided on behalf of such person for therapeutic leaves of absences may not exceed 10 days in any 12-month period.

Reserved bed days provided on behalf of persons younger than 21 years of age will be made at 100% of the Medicaid rate.

In computing reserved bed days, the day of discharge from the residential health care facility shall be counted, but not day of readmission.
Per Diem Reduction to all qualified facilities.

(a) Qualified facilities are residential health care facilities other than those facilities or units within facilities that provide extensive nursing, medical, psychological and counseling support services solely to children.

(b) Effective January 1, 2013, all qualified residential health care facilities will be subject to a per diem adjustment that is calculated to reduce Medicaid payments by $24 million for the period January 1, 2013 through March 31, 2013.

Effective April 1, 2013, all qualified residential health care facilities will be subject to a per diem adjustment that is calculated to reduce Medicaid payments by $19 million for each state fiscal year beginning April 1, 2013.

(c) An interim per diem adjustment for each facility will be calculated as follows:

(1) For each such facility, facility Medicaid revenues, calculated by multiplying each facility’s promulgated rate in effect for such period by reported Medicaid days as reported in a facility’s most recently available cost report, will be divided by total Medicaid revenues of all qualified facilities. The result will be multiplied by the amount of savings identified above for each such fiscal year, and divided by each facility’s most recently reported Medicaid days.

[ (2) Following the close of each fiscal year, the interim per diem adjustment effective January 1, 2013 through March 31, 2013, and April 1, 2013 through March 31, 2014 and in each state fiscal year thereafter will be reconciled using actual Medicaid claims data to determine the actual combined savings from the per diem adjustment and from the reduction in the payment for reserve bed days for hospitalizations from 95% to 50% of the Medicaid rate for such fiscal year. To the extent that such interim savings is greater than or less than $40 million, the per diem adjustment for each eligible provider in effect during such prior fiscal year will be adjusted proportionately such that $40 million in savings is achieved.]

PUBLIC NOTICE
Department of Health

Pursuant to 42 CFR Section 447.205, the Department of Health hereby gives public notice of the following:

The Department of Health proposes to amend the Title XIX (Medicaid) State Plan for institutional, non-institutional, long term care, and prescription drug services to comply with proposed statutory provisions. The following changes are proposed:

All Services

- Effective on and after April 1, 2017, no greater than zero trend factors attributable to services through March 31, 2020 pursuant to the provisions of Public Health Law § 2807-c(10)(c) to rates of payment for hospital inpatient and outpatient services, inpatient and adult day health care outpatient services provided by residential health care facilities pursuant to Article 28 of the Public Health Law, except for residential health care facilities or units of such facilities providing services primarily to children under 21 year of age, certified home health agencies, AIDS home care programs, and for personal care services pursuant to section 365-a of the Social Services Law, including personal care services provided in those local social services districts, including New York City, whose rates of payment for services is
established by such social services districts pursuant to a rate-setting exemption granted by the Department, and assisted living program services.

The annual decrease in gross Medicaid expenditures for state fiscal year 2017/2018 is ($208.8) million.

 Institutional Services

- For the state fiscal year beginning April 1, 2017 through March 31, 2018, increases specialty hospital adjustments for hospital inpatient services provided on and after April 1, 2012, to public general hospitals, other than those operated by the State of New York or the State University of New York, located in a city with a population of over one million and receiving reimbursement of up to $1.08 billion annually based on criteria and methodology set by the Commissioner of Health, which the Commissioner may periodically set through a memorandum of understanding with the New York City Health and Hospitals Corporation. Payments to eligible general public hospitals may be added to rates of payment or made as aggregate payments.

- Extends current provisions for services on and after April 1, 2017 through March 30, 2020, the reimbursable operating cost component for general hospital inpatient rates will be established with the 2006 final trend factor equal to the final Consumer Price Index (CPI) for all urban consumers less 0.25%.

The estimated annual net decrease in gross Medicaid expenditures attributable to these cost containment initiatives contained in the budget for state fiscal year 2017/2018 is ($513) million.

- Effective April 1, 2017, continues the supplemental upper payment limit payments made to general hospitals, other than major public general hospitals under institutional services of $339 million annually.

- Capital related costs of a general hospital excluding 44% of the major movable costs and excluding staff housing costs will continue effective April 1, 2017 through March 31, 2020.

The estimated gross annual decrease in Medicaid expenditures for state fiscal year 2017/2018 for this initiative is ($48.4) million.

- Budgeted capital inpatient costs of a general hospital applicable to the rate year will be decreased to reflect the percentage amount by which the budget for the base year two years prior to the rate year for capital related inpatient expenses of the hospital exceeded actual expenses will continue effective April 1, 2017 through March 31, 2020.

The estimated gross annual decrease in Medicaid expenditures for state fiscal year 2017/2018 for this initiative is ($15.9) million.

Long Term Care Services

- For state fiscal year beginning April 1, 2017, continues additional payments to non-state government operated public residential health care facilities, including public residential health care facilities located in Nassau, Westchester, and Erie counties, but excluding public residential health care facilities operated by a town or city within a county, in aggregate amounts of up to $500 million. The amount allocated to each eligible public RHCF will be in accordance with the previously approved methodology, provided, however that patient days shall be utilized for such computation reflecting actual reported data for 2014 and each representative succeeding year as applicable. Payments to eligible RHCF’s may be added to rates of payment or made as aggregate payments.

- The quality incentive program for non-specialty nursing homes for the state fiscal year 2017/2018 to recognize improvement in performance as an element in the program and provide for other minor modifications.

There is no additional estimated annual change to gross Medicaid expenditures attributable to this initiative for state fiscal year 2017/2018.

- This proposal eliminates the reimbursement to Nursing Homes for bed hold days through the repeal of PHL § 2808(25).

The estimated annual net decrease in gross Medicaid expenditures attributable to these cost containment initiatives contained in the budget for state fiscal year 2017/2018 is ($22) million.

- Continues, effective for periods on and after April 1, 2017, the total reimbursable state assessment on each residential health care facility’s gross receipts received from all patient care services and other operating income on a cash basis for inpatient or health-related services, including adult day service, but excluding gross receipts attributable to payments received pursuant to Title XVIII of the federal Social Security Act (Medicare), at six percent. The extent to which a facility is reimbursed for the additional cost of the assessment is dependent upon Medicaid volume of services.

The estimated annual net aggregate increase in gross Medicaid expenditures attributable to this initiative contained in the budget for state fiscal year 2017/2018 is $513 million.

The following is notice of the continuation of the Advanced Training Initiative (ATI) into the next fiscal year. Effective April 1, 2017, continues hospital outpatient payment adjustments that increase the operating cost components of rates of payment for hospital outpatient and emergency departments on and after April 1, 2011, for public general hospitals other than those operated by the State of New York or the State University of New York, which are located in a city with a population of over one million. The amount to be paid will be up to $287 million annually based on criteria and methodology set by the Commissioner of Health, which the Commissioner may periodically set through a memorandum of understanding with the New York City Health and Hospitals Corporation. Payments will be based on each DTC’s proportionate share of the sum of all clinic visits for all facilities eligible for an adjustment for the base year two years prior to the rate year. The proportionate share payments may be added to rates of payment or made as aggregate payments.

For state fiscal year beginning April 1, 2017 through March 31, 2018, continues upon the election of the social services district in which an eligible diagnostic and treatment center (DTC) is physically located, up to $12.6 million in additional annual Medicaid payments may be paid to public DTCs operated by the New York City Health and Hospitals Corporation. Such payments will be based on each DTC’s proportionate share of the sum of all clinic visits for all facilities eligible for an adjustment for the base year two years prior to the rate year. The proportionate share payments may be added to rates of payment or made as aggregate payments to eligible DTCs.

For the state fiscal year beginning April 1, 2017 through March 31, 2018, continues up to $5.4 million in additional annual Medicaid payments may be paid to county operated free-standing clinics, not including facilities operated by the New York City Health and Hospitals Corporation, for services provided by such DTC and those
provided by a county operated freestanding mental health or substance abuse DTC. Distributions shall be based on each eligible facility’s proportionate share of the sum of all DTC and clinic visits for all eligible facilities receiving payments for the base year two years prior to the rate year. The proportionate share payments may be added to rates of payment or made as aggregate payments to eligible facilities.

• Effective on or after April 1, 2017, eliminates supplemental medical assistance payments of up to $6 million annually made to providers of emergency medical transportation.

• Continues, effective for periods on and after April 1, 2017, funds to certified home health agencies, AIDS home care providers, and hospice service providers for the purpose of improving recruitment, training, and retention of home health aides or other personnel with direct patient care responsibility.

The estimated annual net aggregate increase in gross Medicaid expenditures attributable to this initiative contained in the budget for state fiscal year 2017/2018 is $26 million.

• Extends current provisions to services on and after April 1, 2017 through March 30, 2020, the reimbursable operating cost component for general hospital outpatient rates and adult day health care services provided by RHCFs rates will be established with the final 2006 trend factor equal to the final consumer price index (CPI) for all urban consumers less 0.25%.

• Extends current provisions for certified home health agency administrative and general cost reimbursement limits for the periods April 1, 2017 through March 31, 2020.

• Effective April 1, 2017, continues the supplemental upper payment limit payments made to general hospitals, other than major public general hospitals under non-institutional services of $339 million annually.

• Capital related costs of a general hospital excluding 44% of the major movable costs and excluding staff housing costs will continue effective April 1, 2017 through March 31, 2020.

The estimated gross annual decrease in Medicaid expenditures for state fiscal year 2017/2018 for this initiative is ($35.1) million.

Prescription Drugs:

• Effective April 1, 2017, in an effort to mitigate high drug costs, the Department proposes to establish requirements for manufacturers to pay a penalty in the form of a rebate, as well as impose a surcharge on wholesalers and manufacturers for certain high priced drugs.

• The Department will collect confidential information from drug manufacturers related to drug costs and prices, and with the assistance of the drug utilization review board (DURB), identify for review drugs which: are first introduced to market at prohibitively expensive prices, experience a large increase in price not explained by a relevant factor, or are priced disproportionally given limited therapeutic benefits. If a manufacturer’s price exceeds the reasonable value of the drug, as determined by the DURB, the Board would recommend that a benchmark price be established and the excess amount would be subject to a Medicaid rebate and a surcharge.

• A list of such designated high priced drugs shall be published on the Department’s website, along with the date on which each drug first appeared on the list, and its associated benchmark price.

• A surcharge of 60% shall be imposed on the excess charge amount of the gross receipt from the first in-state sale of a high priced drug. The surcharge shall be deposited into a designated High Priced Drug Reimbursement Fund, and paid out through the Department of Financial Services to health insurers and the Medicaid program in proportion to their respective costs attributable to the drug.

• Reimbursement for prescribed drugs will be the lower of ingredient cost (plus a professional dispensing fee when a covered outpatient drug), or the billing pharmacy’s usual and customary charge.

• For brand name drugs, the ingredient cost will be the National Average Drug Acquisition Cost (NADAC); or, in the event of no NADAC pricing available, Wholesale Acquisition Cost (WAC) less 3.3%.

• For generic drugs, ingredient cost will be the lower of NADAC; or the Federal Upper Limit (FUL); or the State Maximum Acquisition Cost (SMAC). In the event of no NADAC pricing available, ingredient cost is the lower of WAC less 17.5%; or the FUL; or SMAC.

• For over-the-counter drugs, ingredient cost will be the lower of NADAC; or FUL; or SMAC. In the event of no NADAC pricing available, ingredient cost is the lower of WAC; FUL; or SMAC.

• The professional dispensing fee for brand name, generic, and OTC covered outpatient drugs will be $10.00.

The estimated annual aggregate increase in Medicaid expenditures for state fiscal year 2017/2018 for this initiative is $11 million.

• Effective July 1, 2017, the co-pay for over-the-counter (OTC) non-prescription drug/items will be increased from $0.50 to $1.00. In addition, modifications to the list of covered drug/items in this category may be filed as regulations by the commissioner of health without prior notice and comment.

The estimated annual aggregate decrease in Medicaid expenditures for state fiscal year 2017/2018 for this initiative is $12.6 million.

• Effective July 1, 2017, the Department proposes to amend the copayment for brand name prescription drugs dispensed in order to eliminate the difference in co-pay between a preferred drug and a non-preferred drug, in accordance with federal requirements:

• The copay for brand-name prescription drugs will be changed to $2.50, regardless of their status on or off the preferred drug list; provided, however, that the copayments for brand name prescriptions drugs in the Fee-for-Service Brand Less Than Generic program will continue to be $1.00.

There is no additional estimated annual change to gross Medicaid expenditures as a result of the clarifying proposed amendments.

The overall estimated annual net aggregate decrease in gross Medicaid expenditures attributable to reform and other initiatives contained in the budget for state fiscal year 2017/2018 is $282,506,637 million; and the estimated annual net aggregate increase in gross Medicaid expenditures attributable to an extension of upper payment limit (UPL) payments for state fiscal year 2017/2018 is $2.5 billion.

The public is invited to review and comment on this proposed State Plan Amendment. Copies of which will be available for public review on the Department’s website at http://www.health.ny.gov/regulations/state_plans/status/.

PUBLIC NOTICE
Department of Health

Pursuant to 42 CFR Section 447.205, the Department of Health hereby gives public notice of the following:

The Department of Health proposes to amend the Title XIX (Medicaid) State Plan for Non-Institutional Services to comply with Section 5006 of the American Recovery and Reinvestment Act of 2009. The following changes are proposed:

Non-Institutional Services

Effective on or after April 1, 2017, in accordance with Section 5006 of the American Recovery and Reinvestment Act of 2009 which amended the Social Security Act to provide Indian health care providers that are not FQHCs with the right to wrap around payments from the State, in the event that the amount paid by a managed care plan is less than what is due to the Indian health care provider as stated in the State Plan, the difference will be provided.

The estimated annual net aggregate increase in gross Medicaid expenditures attributable to this initiative contained in the budget for state fiscal year 2017/2018 is approximately $450,000.

The public is invited to review and comment on this proposed State Plan Amendment, a copy of which will be available for public review on the Department’s website at http://www.health.ny.gov/regulations/state_plans/status. In addition, approved SPA’s beginning in 2011, are also available for viewing on this website.

**PUBLIC NOTICE**  
*Department of Health*

The New York State Department of Health (DOH) is required by the provisions of the federal Beaches Environmental Assessment and Coastal Health (BEACH) Act to provide for public review and comment on the Department’s beach monitoring and notification plan. The BEACH Act (Section 406(b) of the Clean Water Act) enacted a federal Environmental Protection Agency grant program available to states, such as New York, with coastal recreational waters. Coastal recreational waters include the Great Lakes and marine coastal waters that are designated for swimming, bathing, surfing, or similar water contact activities. The Act is not applicable to inland waters or waters upstream of the mouth of a river or stream having an unimpaired natural connection with the open sea.

The beach monitoring and public notification plan also includes information on the beach evaluation and classification process, including a list of waters to be monitored and beach ranking. Also included in this plan, is the sampling design and monitoring plan, including sampling location and sampling frequency. Lastly, the plan contains information on procedures for public notification and risk communication, including methods to notify the public of a swimming advisory or beach closure.

*Any interested parties and/or agencies desiring to review and/or comment on the beach monitoring and notification plan for coastal recreational waters may do so by writing to:* Timothy M. Shay, Assistant Bureau Director, Department of Health, Center for Environmental Health, Bureau of Community Environmental Health and Food Protection, Empire State Plaza, Corning Tower Bldg., Rm. 1395, Albany, NY 12237, Fax: (518) 402-7609

**PUBLIC NOTICE**  
*Department of Health*

Pursuant to 42 CFR Section 447.205, the Department of Health hereby gives public notice of the following:

The Department of Health proposes to amend the Title XIX (Medicaid) State Plan for institutional, non-institutional, long term care, and prescription drug services to comply with enacted statutory provisions. The following changes are proposed:

- **All Services**
  - Payments to Critical Access Hospitals based on criteria as determined by the Commissioner of Health.

The estimated annual increase in gross Medicaid expenditures for this initiative is $20 million.

**Institutional Services**

- Payments to hospitals that meet the criteria as an enhanced safety net hospital. The criteria are as follows: In any of the previous three calendar years, the hospital has had not less than fifty percent of the patients it treats receive Medicaid or be medically uninsured; not less than forty percent of its inpatient discharges are covered by Medicaid; twenty-five percent or less of its discharged patients are commercially insured; not less than three percent of the services are attributed to the care of uninsured patients; it provides care to uninsured patients in its emergency room, hospital based clinics and community based clinics, including the provision of important community services such as dental care and prenatal care.

The estimated annual increase in gross Medicaid expenditures for this initiative is $20 million.

**Long Term Care Services**

- The Enacted Budget limits reimbursement to Nursing Homes for bed hold days to therapeutic leaves of absence.

The estimated annual net decrease in gross Medicaid expenditures attributable to this cost containment initiative contained in the budget for state fiscal year 2017/2018 is ($20) million.

**Non-Institutional Services**

- The initiative previously noticed regarding the elimination of supplemental medical assistance payments of up to $6 million annually made to providers of emergency medical transportation was not included in the Enacted Budget for state fiscal year 2017/2018.

**Prescription Drugs:**

- The initiative previously noticed regarding the co-pay for over-the-counter (OTC) non-prescription drug/items increased from $0.50 to $1.00 was eliminated from the budget for state fiscal year 2017/2018.

- Effective April 1, 2017, to mitigate high drug costs, the Department will establish a Medicaid prescription drug cap as a separate component of the Medicaid global cap with year to year spending targets. Drug expenditures will be reviewed quarterly. If it is determined that expenditures will exceed annual growth limitation, the Commissioner may identify and refer drugs to the Drug Utilization Review Board (DURB) for a recommended target supplemental rebate. The Department shall notify affected manufacturers prior to referring drug(s) to DURB, and attempt to reach a rebate agreement.

When determining whether to recommend a drug to the DURB for a target supplemental rate, the department shall consider the actual cost of a drug to the state, including current rebate amounts, taking into consideration whether the drug manufacturer provides significant discounts relative to other covered drugs. When considering whether to recommend a target supplemental rate for a drug, the DURB shall consider the actual cost of the drug to the Medicaid program including state and federal rebates, and may consider:

- Impact on spending target, capitation rates and affordability and value to the program;
- Significant and unjustified price increases;
- Whether the drug may be priced disproportionately to its therapeutic benefits.

If a target rebate is recommended by the DURB, and the department is unable to negotiate a rebate of at least 75% of the target rebate
amount with the manufacturer(s), the “prescriber prevails” provision (if applicable), may be waived for the target drug(s).

If a target rebate is recommended by the DURB, and the department is unable to negotiate a rebate which it deems satisfactory, the Department may collect additional cost information from the manufacturer.

If, regardless of rebates, total Medicaid drug expenditures are still projected to exceed the prescription drug cap, the department may invoke prior authorization on the targeted drug(s) or other drugs made by the same manufacturer, direct Medicaid managed care plans to remove the target drug(s) from their formularies, or promote the use of alternative cost and clinically effective drugs.

The estimated annual aggregate decrease in Medicaid expenditures for state fiscal year 2017-18 for this initiative is $110 million.

The overall estimated annual net aggregate increase in gross Medicaid expenditures attributable to reform and other initiatives contained in the budget for state fiscal year 2017/2018 is $233,906,637.

The public is invited to review and comment on this proposed State Plan Amendment. Copies of which will be available for public review on the Department’s website at http://www.health.ny.gov/regulations/state_plans/status.

Copies of the proposed State Plan Amendments will be on file in each local (county) social services district and available for public review.

The Department of Health proposes to amend the Title XIX (Medicaid) State Plan for institutional services to comply with enacted statutory provisions. The following changes are proposed:

Institutional Services

Effective for days of service on or after October 1, 2018, The Department of Health will adjust inpatient psychiatric per diem rates of reimbursement for Art 28 exempt psychiatric hospitals and Article 28 exempt hospital distinct units by increasing the case mix neutral psychiatric statewide per diem base price by 5.22 percent. This State Plan Amendment is necessary to adequately reimburse hospitals for providing these services and better meet the community’s mental health needs.

The estimated annual net aggregate increase in gross Medicaid expenditures attributable to this initiative is $30,000,000. Funds for this increase are contained in the State budget beginning in state fiscal year 2018/19.

The public is invited to review and comment on this proposed State Plan Amendment, a copy of which will be available for public review on the Department’s website at http://www.health.ny.gov/regulations/state_plans/status. In addition, approved SPA’s beginning in 2011 are also available for viewing on this website.

Copies of the proposed State Plan Amendments will be on file in each local (county) social services district and available for public review.

SUMMARY
SPA #18-0066

This State Plan Amendment proposes to increase reimbursement for Article 28 hospital inpatient psychiatric services to better meet community mental health needs.
New York 117(k)

ix. For dates of service beginning on or after July 1, 2014, an additional ten percent increase will be applied for hospitals located in an upstate region as defined in subdivision (l) of this section.

x. For dates of service on or after October 1, 2018, an additional increase of 5.22 percent will be applied to the current statewide per diem rate.

e. The first day of a patient’s readmissions to the same hospital within 30 days of discharge will be treated as day four for purposes of the variable payment factor computed as aforementioned, with subsequent days treated in a conforming manner with the provisions.

f. Reimbursement for physician services will not be included in rates and such services may be billed on a fee-for-services basis pursuant to the Hospital Physician Billing Section in Attachment 4.19-B.

g. Reimbursement for electroconvulsive therapy will be established at a statewide fee of $281, as adjusted for each facility’s WEF, for each treatment during a patient’s stay.

h. New inpatient psychiatric exempt hospitals or units established pursuant to Article 28 of the Public Health Law will be reimbursed at the statewide price plus budgeted capital and Direct GME. Budgeted capital will be adjusted as described in this section and will be adjusted to actual costs in future years. Direct GME will be adjusted to actual costs based upon the first twelve months reporting following the calendar year after the opening of the new unit.

i. The base period costs and statistics used for inpatient psychiatric per diem rate setting operating cost components including the weights assigned to diagnostic related groups (DRG) designated as psychiatric DRGs for per diem reimbursement, will be updated as soon as is practical at which time the State will submit a state plan amendment for the implementation of rebasing. The payment factors for rural designation, age, certain defined comorbidities, and the presence of mental retardation may also be updated to reflect more current data.

j. For rate periods through December 31, 2014, reimbursement will include transition payments of $25 million on an annualized basis, which will be distributed as follows:

PUBLIC NOTICE
Department of Health

Pursuant to 42 CFR Section 447.205, the Department of Health hereby gives public notice of the following:

The Department of Health proposes to amend the Title XIX (Medicaid) State Plan for institutional services to comply with enacted statutory provisions. The following changes are proposed:

Institutional Services

Effective for days of service on or after October 1, 2018, The Department of Health will adjust inpatient psychiatric per diem rates of reimbursement for Art 28 exempt psychiatric hospitals and Article 28 exempt hospital distinct units by increasing the case mix neutral psychiatric statewide per diem base price by 5.22 percent. This State Plan Amendment is necessary to adequately reimburse hospitals for providing these services and better meet the community’s mental health needs.

The estimated annual net aggregate increase in gross Medicaid expenditures attributable to this initiative is $30,000,000. Funds for this increase are contained in the State budget beginning in state fiscal year 2018/19.

The public is invited to review and comment on this proposed State Plan Amendment, a copy of which will be available for public review on the Department’s website at http://www.health.ny.gov/regulations/state_plans/status. In addition, approved SPA’s beginning in 2011 are also available for viewing on this website.

Copies of the proposed State Plan Amendments will be on file in each local (county) social services district and available for public review.

PUBLIC NOTICE
Department of State
F-2018-0442
Date of Issuance – September 26, 2018

The New York State Department of State (DOS) is required by Federal regulations to provide timely public notice for the activities described below, which are subject to the consistency provisions of the Federal Coastal Zone Management Act of 1972, as amended.

The applicant has certified that the proposed activities comply with and will be conducted in a manner consistent to the maximum extent practicable with the federally approved New York State Coastal Management Program (NYSCMP). The federal agency’s consistency determination and accompanying public information and data are available for inspection at the New York State Department of State offices located at One Commerce Plaza, 99 Washington Avenue, in Albany, New York.

In F-2018-0890 (DA), the applicant, U.S. National Park Service (NPS) proposes, through a Cooperative Management Agreement and long-term lease, to authorize the development and operation of a new unit of the State Parks system – Penn and Fountain State Park – by the New York State Office of Parks, Recreation, and Historic Preservation (NYS OPRHP) at the Gateway National Recreation Area, Jamaica Bay Unit, Brooklyn, New York. Penn and Fountain are located adjacent to each other on the north shore of Jamaica Bay.

The proposed new State park location is the site of the former Pennsylvania and Fountain Avenue landfills and including fill areas which were historically tidal marsh. Landfill operations ended in 1980 and 1983 at Penn and Fountain, respectively. Site remediation has been accomplished to establish native grasslands and a system of trails. Planned site improvements in association with establishment of the State park will allow for the provision of public access to 407 acres of open space. The purpose of the project is to create new public park space, allowing public access to this area for opportunities such as hiking, wildlife viewing, fishing, kayaking, bicycling, picnicking, and other recreational uses. The rehabilitated former landfill areas will continue to be monitored annually, per environmental consent order, for groundwater quality and migration of landfill gases.

The project site is located immediately upland of a State-designated Significant Coastal Fish and Wildlife Habitat (SCFWH) – Jamaica Bay – which is protected as biologically productive and valuable habitat area for an abundance of fish and wildlife species. Several streams which cross the project area are hydrologically connected to the Jamaica Bay. More information regarding this designation and the specific habitat values may be found at: https://www.dos.ny.gov/odp/programs/consistency/scfwhabitats.html

Any interested parties and/or agencies desiring to express their views concerning any of the above proposed activities may do so by filing their comments, in writing, no later than 4:30 p.m., 15 days from the date of publication of this notice or October 11, 2018.

Comments should be addressed to: Consistency Review Unit, Department of State, Office of Planning and Development, One Commerce Plaza, 99 Washington Ave., Albany, NY 12231, (518) 474-6000, Fax (518) 473-2464. Electronic submissions can be made by email at: CR@dos.ny.gov

This notice is promulgated in accordance with Title 15, Code of Federal Regulations, Part 930.

SUMMARY
SPA #18-0067

This State Plan Amendment proposes to revise the State Plan to provide additional payments to Medicaid safety net diagnostic and treatment centers (DTCs), excluding Federally Qualified Health Centers (FQHCs), to sustain access to services.
Diagnostic and Treatment Centers (D&TCs) Safety Net Payment

1. For the period December 1, 2018, through March 31, 2019, and for annual state fiscal years thereafter, up to $17,350,000 of additional payments will be made to eligible Medicaid safety net diagnostic and treatment centers (D&TCs), except for Federally Qualified Health Centers (FQHCs), to sustain access to services. The amount of $17,350,000 is subject to modification by the transfers described in paragraphs (2) and (3) of this section.

   a. "Eligible Medicaid safety net diagnostic and treatment centers", for purposes of this section, will mean voluntary non-profit and publicly sponsored diagnostic and treatment centers licensed under Article 28 or Article 31, and must meet the following criteria: deliver comprehensive range of health care or mental health services; provide at least 5% of their annual visits to uninsured individuals; and have a process in place to collect payment from third party payers.

   b. The base year data used for the period commencing on December 1, 2018 through March 31, 2019 will be the 2016 certified cost report and will be advanced one year thereafter for each subsequent period. In order to be included in the distribution calculation, a provider must timely submit a certified cost report for the base year used in the distribution calculation.

   c. New providers which do not have a full year cost or visit experience in the base year used for the distribution may qualify to be included in the distribution as follows:

      i. The provider meets the criteria in paragraph (1)(a).

      ii. The provider must be eligible to receive a Medicaid rate.

      iii. The provider must submit a request to the Department of Health to participate in the distribution. This request must include annualized patient visits, by payer source, which are certified by the Chief Executive Officer, or a similar executive position.

      iv. The effective date to be included in the distribution will be the first state fiscal year distribution calculation after the provider qualifies to be included based on the requirements in paragraphs (1)(c)(i) through (1)(c)(iii) (herein after referred to as paragraph (1)(c)) or the first state fiscal year distribution calculation after the date a request is made to the Department of Health to be included in the distribution, whichever is later.

      v. The distribution method applied to a new provider that qualifies to be included in the distribution based on paragraph (1)(c) of this section will be in accordance with the distribution method for other providers in this section. However, the annual distribution for a provider that qualifies based on paragraph (1)(c) of this section will not exceed $100,000.

      vi. The distribution for a provider that qualifies based on paragraph (1)(c) of this section will be included in the total safety net distribution amount as described in paragraph (1) of this section.
Diagnostic and Treatment Centers (D&TCs) Safety Net Payment (continued):

d. Each eligible D&TC will qualify for a rate add-on based on its percentage of uninsured visits to total visits according to the following tiers:

<table>

e. Safety net payments will be calculated by multiplying each facility's rate add-on, based on the tiers in paragraph (1)(d), by the number of Medicaid fee-for-service visits reported on the base year certified cost report.

f. The safety net rate adjustment for each eligible D&TC that is determined based on the tier system will be scaled based on the ratio of the total funds allocated for distribution, using the tier system, to the total statewide safety net payment that is available for all eligible D&TCs.

g. Adjustments to rates of payment made pursuant to this section will be made quarterly as aggregate payments to eligible diagnostic and treatment centers and will not be subject to subsequent adjustment or reconciliation.

2. In the event that a provider that is included in this D&TCs Safety Net Payment section receives FQHC designation during a state fiscal year, the newly designated FQHC provider will be removed from this D&TCs Safety Net Payment section and included in section for the FQHCs Safety Net Payment as follows:

a. The effective date of the transfer will be the later of the following:

   i. The first state fiscal year distribution calculation after the FQHC designated approval date; or

   ii. The first state fiscal year distribution calculation after the date the Department of Health is notified of the FQHC designation.

b. The funds that were allocated to the new FQHC provider in this D&TCs Safety Net Payment section will be transferred to the FQHC Safety Net Payment section based on the prior state fiscal year calculation.
Diagnostic and Treatment Centers (D&TCs) Safety Net Payment (continued):

i. The transfer of funds will be at the same time the new FQHC provider is included in the FQHC Safety Net Payment section distribution.

ii. Due to the transfer of the newly designated FQHC’s funds to the FQHCs Safety Net Payment section, the total value of the additional payment, as described in paragraph (1) of this section for the additional annual payment, will decrease.

c. In no event will the sum of the total safety net distribution amount of the FQHCs Safety Net Payment in this section and the D&TCs Safety Net Payment section exceed $151,500,000 for the period July 28, 2016, through March 31, 2017, and $110,000,000 for the annual state fiscal periods thereafter.

3. In the event that a provider that is included in the FQHCs Safety Net Payment section loses its FQHC designation, the FQHCs Safety Net Payment distribution to the provider calculated for the state fiscal year during which the provider lost its FQHC designation will be transferred to this section as follows:

a. The provider will be removed from the distribution calculated in the FQHC Safety Net Payment section and included in this section for the D&TC Safety Net Payment.

b. The effective date of the transfer will be the first state fiscal year distribution calculation after the date the provider lost their FQHC designation.

c. The funds allocated to the provider in the FQHC Safety Net Payment section will be transferred to this D&TC Safety Net Payment section based on the portion of the distribution pertaining to the Medicaid fee-for-service visits applied to the tier add-on payment. The transfer of funds will be at the same time the provider is included in this D&TC Safety Net Payment section distribution, as stated in paragraph (3)(b) of this section, increasing the total value of the additional payment as described on paragraph (1) of this section.

PUBLIC NOTICE
Department of Health

Pursuant to 42 CFR Section 447.205, the Department of Health hereby gives public notice of the following:

The Department of Health proposes to amend the Title XIX (Medicaid) State Plan for non-institutional services to revise provisions of Comprehensive diagnostic and treatment centers Indigent Care program. The following changes are proposed:

Non-Institutional Services

Effective on or after December 1, 2018, and for each State Fiscal Year thereafter, the State proposes to provide additional payments of up to $17,350,000 annually to Medicaid safety net non-FQHC clinics to sustain access to services. Eligible facilities must meet the following criteria: deliver comprehensive range of health care or mental health services; provide at least 5% of their annual visits/services to uninsured individuals; and have a process in place to collect payment from third party payers. The proposed distribution methodology will qualify facilities into tiers on their percentage of uninsured visits. An Add-on amount will be established for each tier and each facility’s proportion of Medicaid services will then be used to arrive at a final safety net payment. Payment made to each facility may be added to rates of payment or made as lump sum.

The estimated annual net aggregate increase in gross Medicaid expenditures attributable to this initiative contained in the budget for state fiscal year 2018/2019 is $17,350,000.
The public is invited to review and comment on this proposed State Plan Amendment, a copy of which will be available for public review on the Department’s website at http://www.health.ny.gov/regulations/state_plans/status. **PUBLIC NOTICE**

**Department of State**

**Date of Issuance - November 28, 2018**

The New York State Department of State (DOS) is required by Federal regulations to provide timely public notice for the activities described below, which are subject to the consistency provisions of the Federal Coastal Zone Management Act of 1972, as amended.

The applicant has certified that the proposed activity complies with and will be conducted in a manner consistent with the approved New York State Coastal Management Program. The applicant’s consistency certification and accompanying public information and data are available for inspection at the New York State Department of State offices located at One Commerce Plaza, 99 Washington Avenue, in Albany, New York, and are available for review at: http://www.dos.ny.gov/odp/programs/pdfs/Consistency/F-2018-0735_Application.pdf

In F-2018-0735, Maspeth Recycling, Inc., is proposing to construct a barge mooring facility along Newtown Creek at 58 08 48th Street, in the Borough of Queens, Queens County. The facility would include a new 402-linear foot steel sheetpile bulkhead installed waterward of the existing shoreline and backfilled with approximately 3,500 cubic yards of acceptable fill below the spring high water elevation. This would result in a loss of approximately 34,272 square feet (0.79 acres) of tidal wetlands. An area of approximately 26,225 square feet (0.60 acres) would be dredged on the waterward side of the proposed bulkhead to establish a depth of -10 feet. The initial dredging volume is estimated at approximately 3,900 cubic yards, and maintenance dredging of approximately 300 cubic yards is proposed every two years. The stated purpose of the project is to allow for the transport of demolition and recycled materials via the waterway in lieu of overland transport via truck.

The proposed activities would be undertaken within the New York City Waterfront Revitalization Program (WRP) area and is subject to consistency with the WRP policies. The WRP can be reviewed at: https://waterfrontnavigator.nyc/agency-contacts-information/nyc-dcp/

Any interested parties and/or agencies desiring to express their views concerning any of the above proposed activities may do so by filing their comments, in writing, no later than 4:30 p.m., 30 days from the date of publication of this notice, or, December 28, 2018.

Comments should be addressed to the Consistency Review Unit, Department of State, Office of Planning, Development & Community Infrastructure, One Commerce Plaza, 99 Washington Ave., Albany, NY 12231, (518) 474-6000, Fax (518) 473-2464. Electronic submissions can be made by email at: CR@dos.ny.gov

This notice is promulgated in accordance with Title 15, Code of Federal Regulations, Part 930.

**Program Name:** Community Psychiatric Support and Treatment (CPST)

**Description:** Community Psychiatric Support and Treatment (CPST) services are goal-directed supports and solution-focused interventions intended to address challenges associated with a behavioral health need and to achieve identified goals or objectives as set forth in the child’s treatment plan. This includes the implementation of interventions using evidence-based techniques, drawn from cognitive-behavioral therapy and/or other evidence-based psychotherapeutic interventions approved by New York State. CPST is a face-to-face intervention with the child, family/caregiver or other collateral supports. This service is recommended by any of the following licensed practitioners of the healing arts operating within the scope of their practice under State license: Licensed Master Social Worker (LMSW), Licensed Clinical Social Worker (LCSW), Licensed Mental Health Counselor, Licensed Creative Arts Therapist, Licensed Marriage and Family Counselor, Licensed Psychoanalyst, Licensed Psychologist, Physician’s Assistant, Psychiatrist, Physician, Registered Professional Nurse, or Nurse Practitioner. CPST is designed to provide community-based services to children and families who may have difficulty engaging in formal office settings, but can benefit from community based rehabilitative services. CPST allows for delivery of services within a variety of permissible settings including community locations where the child lives, works, attends school, engages in services (e.g. provider office sites), and/or socializes. Family is a birth, foster, adoptive or self-created unit of people residing together, with significant attachment to the individual, consisting of adult(s) and/or child (ren), with adult(s) performing duties of parenthood/caregiving for the child (ren) even if the individual is living outside of the home. CPST face-to-face interventions may include other collateral supports beyond the individual or family/caregiver, as necessary.

**Practitioner qualifications:** CPST may be provided by an individual who has at least a bachelor’s degree level with a minimum of two years of applicable experience in children’s mental health, addiction, and/or foster care/child welfare/ juvenile justice. These practitioners may include: Registered Professional Nurses with one year of behavioral health experience, Licensed Occupational Therapists, and Licensed Creative Arts Therapists to the extent they are operating under the scope of their license.

Practitioners with a bachelor’s degree may only perform the following activities under CPST: Family and Group Counseling/Therapy (Rehabilitative psychoeducation), Service Planning (Strengths-based treatment planning), or the Rehabilitative Supports portion of Individual and Group Counseling/Therapy.

Practitioners with at least a bachelor’s degree level, certified in an Evidenced Based Practice consistent with the CPST component being delivered, and designated by the State OR a master’s degree level in social work, psychology, or in related human services plus one year of applicable experience OR who has been certified in an Evidenced Based Practice may perform any of the activities under CPST listed above without any exclusions.

The interventions and skill building identified by the CPST practitioner and family may be implemented by the child and family with the assistance of a peer (under Peer Supports Services), Psychosocial Rehabilitation practitioner (under Psychosocial Rehabilitation Services) or the CPST practitioner, if necessary.

**Community Psychiatric Support and Treatment (CPST) Description (Continued)**

**Practitioner Qualifications (Continued)**

**Supervisor Qualifications:** Individuals providing services under CPST must receive regularly scheduled supervision from a professional meeting the qualifications of at least a Licensed Clinical Social Worker (LCSW), Licensed Mental Health Counselor, Licensed Creative Arts Therapist, Licensed Marriage and Family Therapists, Licensed Psychoanalyst, Licensed Psychologist, Physician’s Assistant, Psychiatrist, Physician, Registered Professional Nurse, or Nurse Practitioner operating within the scope of their practice, with at least 2-3 years of work experience. Supervisors must also be aware of and sensitive to trauma informed care and the cultural needs of the population of focus and how to best meet those needs, and be capable of training staff regarding these issues.

**Provider Agency Qualifications:** Any child serving agency or agency with children’s behavioral health and health experience that is licensed, certified, designated and/or approved by OCFS, OMH, OASAS or DOH or its designee, to provide comparable services referenced in the definition.

The provider agency will assess the child prior to developing a treatment plan for the child. Authorization of the treatment plan is required by the DOH or its designee. Treatment services must be part of a treatment plan including goals and activities necessary to correct or ameliorate conditions discovered during the initial assessment visits. CPST service delivery may also include collateral contact. Evidence-based practices (EBPs) require approval, designations, and fidelity reviews on an ongoing basis as determined necessary by New York State.

**Service Planning (Strengths-based treatment planning):**

**Description:** Strengths-based treatment planning - Facilitate participation in and utilization of strengths-based planning for Medicaid services and treatments related to child’s behavioral health/health needs which include assisting the child and family members, caregiver or other collateral supports with identifying strengths and needs, resources, natural supports, within the context of the client’s culture and developing goals and objectives to utilize personal strengths, resources, and natural supports to address functional deficits associated with their behavioral health disorder.

**Practitioner Qualifications:** Strengths-based treatment planning may be provided by an individual who has at least a bachelor’s degree level with a minimum of two years of applicable experience in children’s mental health, addiction, and/or foster care/child welfare/ juvenile justice OR At least a bachelor's degree level, certified in an Evidenced Based Practice consistent with the CPST component being delivered, and designated by the State OR A master’s degree level in social work, psychology, or in related human services plus one year of applicable experience OR who has been certified in an Evidenced Based Practice.
13d. Rehabilitative Services: EPSDT only (Continued)
Program Name: Community Psychiatric Support and Treatment (CPST) (Continued):

Individual Counseling/Therapy (Intensive Interventions):
Description: Intensive Interventions - Provide individual supportive treatment and counseling; solution-focused interventions consistent with cognitive behavior therapy and psycho-educational therapy; harm reduction; emotional, cognitive and behavioral management; and problem behavior analysis with the child and family/caregiver, with the goal of assisting the child with social, interpersonal, self-care, daily functioning, and independent living skills to restore stability, to support functional gains and to adapt to community living. This includes the implementation of interventions using evidence-based techniques, drawn from cognitive-behavioral therapy and/or other evidence based psychotherapeutic interventions with prior authorization from NYS that ameliorate targeted symptoms and/or recover the person’s capacity to cope with or prevent symptom manifestation.

Individual Counseling/Therapy (Crisis Avoidance):
Description: Crisis Avoidance - Assist the child and family/caregiver with effectively responding to or preventing identified precursors or triggers that would risk their ability to remain in a natural community location, including assisting the child and family members, caregivers or other collateral supports with identifying a potential psychiatric or personal crisis; practicing de-escalation skills; developing a crisis management plan; assessing the step-by-step plan before a crisis occurs; developing strategies to take medication regularly; and seeking other supports to restore stability and functioning.

Individual Counseling/Therapy (Rehabilitative Supports):
Description: Rehabilitative Supports - Restoration, rehabilitation, and support to minimize the negative effects of behavioral health symptoms or emotional disturbances that interfere with the individual’s daily functioning. Counseling helps restore life safety skills such as ability to access emergency services, basic safety practices and evacuation, physical and behavioral health care (maintenance, scheduling physicians appointments) recognizing when to contact a physician, self-administration of medication for physical and mental health or substance use disorder conditions, understanding purpose and possible side effects of medication prescribed for conditions, other common prescription and non-prescription drugs and drug uses. Group face-to-face counseling may occur in rehabilitative supports.

Practitioner qualifications:

**Community Psychiatric Support and Treatment (CPST) (Continued):**

**CPST Components (Continued):**

**Crisis Intervention (Intermediate term crisis management):**

**Description:** Intermediate term crisis management - Provide intermediate-term crisis management to the child and family following a crisis (beyond 72 hour period) as stated in the crisis management plan. The purpose of this activity is to stabilize the child/youth in the home and natural environment. Goal setting is focused upon the issues identified from crisis intervention, emergency room crisis and other referral. The service is intended to be stability focused and for existing clients of CPST services or for children needing longer term crisis managements services.

**Practitioner qualifications:** Intermediate term crisis management may be provided by an individual who has at least a bachelor’s degree level, certified in an Evidenced Based Practice consistent with the CPST component being delivered, and designated by the State OR a master’s degree level in social work, psychology, or in related human services plus one year of applicable experience OR who has been certified in an Evidenced Based Practice.

**Rehabilitative Services: EPSDT only**

**Program Name: Psychosocial Rehabilitation**

**Description:** Psychosocial Rehabilitation Services (PSR) are designed for children and their families to assist with implementing interventions outlined on a treatment plan to compensate for or eliminate functional deficits and interpersonal and/or behavioral health barriers associated with a child/youth’s behavioral health needs. The intent of PSR is to restore, rehabilitate, and support a child/youth’s functional level as possible and as necessary for integration of the child/youth as an active and productive member of their community and family with minimal ongoing professional intervention. PSR can occur in a variety of settings including community locations where the child/youth lives, works, attends school, engages in services (e.g. provider office sites), and/or socializes. Family is a birth, foster, adoptive, or self-created unit of people residing together, with significant attachment to the individual, consisting of adult(s) and/or child(ren), with adult(s) performing duties of parenthood/caregiving for the child(ren) even if the individual is living outside of the home.

Activities included must be intended to achieve the identified goals or objectives as set forth in the child/youth individualized treatment plan. PSR is an individual or group face-to-face intervention and may include collateral contact. PSR is recommended by any of the following licensed practitioners of the healing arts operating within the scope of their practice under State license: Licensed Master Social Worker (LMSW), Licensed Clinical Social Worker (LCSW), Licensed Mental Health Counselor, Licensed Creative Arts Therapist, Licensed Marriage and Family Therapist, Licensed Psychoanalyst, Licensed Psychologist, Physician’s Assistant, Psychiatrist, Physician, Registered Professional Nurse, or Nurse Practitioner.
13d. **Rehabilitative Services: EPSDT only (Continued)**

**Psychosocial Rehabilitation (Continued)**

**Description (Continued):**

The professional uses partnerships and mutual support, as well as hands-on implementation of rehabilitation interventions to improve personal independence and autonomy including:

1) **Restoration, rehabilitation and support to reduce the effect of the child’s behavioral health diagnosis and re-establish social and interpersonal skills to increase community tenure, enhance personal relationships, establish support networks, increase community awareness, develop coping strategies and effective functioning in the individual’s social environment, including home, work and school. This includes learning to confidently manage stress, unexpected daily events and disruptions, and behavioral health and physical health symptoms. It also includes support to establish and maintain friendships/supportive social networks, improve interpersonal skills such as social etiquette and anger management.**

2) **Restoration, rehabilitation and support to reduce the effect of the child’s diagnosis and re-establish daily functioning skills to improve self-management of the negative effects of psychiatric or emotional symptoms that interfere with a person’s daily functioning. This includes supporting the individual with implementation of interventions to re-establish daily functioning skills and daily routines necessary to remain in home, school, work and community, including managing medications and learning self-care. It also includes development of constructive and comfortable interactions with healthcare professionals, develop relapse prevention strategies, and re-establishing good health routines and practices.**

3) **Restoration, rehabilitation and support to reduce the effect of the child’s diagnosis and re-establish social skills so that the person can remain in a natural community location and re-achieve developmentally appropriate functioning including using collaboration, partnerships and mutual supports to strengthen the individual community integration in areas of personal interests as well as other domains of community life including home, work and school. This includes assisting the individual with generalizing coping strategies and social and interpersonal skills in community settings. The professional may assist the individual with effectively responding to or avoiding identified precursors or triggers that result in functional impairments.**

**Practitioner Qualifications:** Must be 18 years old and have a high school diploma, high school equivalency preferred, or a State Education Commencement Credential (e.g. SACC or CDOS); with a minimum of three years’ experience in children’s mental health, addiction and/or foster care.
13d. Rehabilitative Services: EPSDT only (Continued)

Psychosocial Rehabilitation (Continued):
Description (Continued):

**Supervisor Qualifications:**
The PSR provider must receive regularly scheduled supervision from a Licensed Clinical Social Worker (LCSW), Licensed Mental Health Counselor, Licensed Creative Arts Therapist, Licensed Marriage and Family Therapist, Licensed Psychoanalyst, Licensed Psychologist, Physician’s Assistant, Psychiatrist, Physician, Registered Professional Nurse, or Nurse Practitioner operating within the scope of their practice. Supervisors must also be aware of and sensitive to trauma informed care and the cultural needs of the population of focus and how to best meet those needs, and be capable of training staff regarding these issues.

**Provider Agency qualifications:** Any child serving agency or agency with children’s behavioral health and health experience that is licensed, certified, designated and/or approved by OCFS, OMH, OASAS OR DOH or its designee, to provide comparable services referenced in the definition. The caseload size must be based on the needs of the child/youth and families with an emphasis on successful outcomes and individual satisfaction and must meet the needs identified in the individual treatment plan.

The provider agency will assess the child prior to developing a treatment plan for the child. A licensed CPST practitioner or OLP must develop the treatment plan, with the PSR worker implementing the interventions identified on the services/plan. Group should not exceed more than 8 members. Authorization of the treatment plan is required by the DOH or its designee. Treatment services must be part of a treatment plan including goals and activities necessary to correct or ameliorate conditions discovered during the initial assessment visits.
13d. **Rehabilitative Services: EPSDT only (Continued):**

**Family Peer Support:**

**Description:** Family Peer Support Services (FPSS) are an array of formal and informal activities and supports provided to families caring for/raising a child who is experiencing social, emotional, medical, developmental, substance use and/or behavioral challenges in their home, school, placement, and/or community. FPSS provide a structured, strength-based relationship between a Family Peer Advocate (FPA) and the parent/family member/caregiver for the benefit of the child/youth. Family is defined as the primary care-giving unit and is inclusive of the wide diversity of primary caregiving units in our culture. Family is a birth, foster, adoptive, or self-created unit of people residing together, with significant attachment to the individual, consisting of adult(s) and/or child(ren), with adult(s) performing duties of parenthood/caregiving for the child(ren) even if the individual is living outside of the home.

Activities included must be intended to achieve the identified goals or objectives as set forth in the child/youth’s treatment plan. FPSS is a face-to-face intervention, a group face-to-face intervention. A group is a composition of members should share common characteristics, such as related experiences, developmental age, chronological age, challenges or treatment goals. The Service is directed to the child, and includes contacts necessary for treatment with the family/caregiver or other collateral supports. FPSS is recommended by a licensed practitioner of the healing arts including: Licensed Master Social Worker (LMSW), Licensed Clinical Social Worker (LCSW), Licensed Mental Health Counselor, Licensed Creative Arts Therapist, Licensed Marriage and Family Therapist, Licensed Psychoanalyst, Licensed Psychologist, Physician’s Assistant, Psychiatrist, Physician, Registered Professional Nurse, or Nurse Practitioner, operating within the scope of their practice. FPSS can be provided through individual and group face-to-face work and can occur in a variety of settings including community locations where the beneficiary lives, works, attends school, engages in services (e.g. provider office sites), and/or socializes. Components of FPSS include:

- **Engagement, Bridging and Transition Support:** Provide a bridge between families and service providers, support a productive and respectful partnership by assisting the families to express their strengths, needs and goals.
- **Self-Advocacy, Self-Efficacy and Empowerment:** Coach and model shared decision-making and skills that support collaboration, in addition to providing opportunities for families to self-advocate.
- **Parent Skill Development:** Support the efforts of families in caring for and strengthening their children’s mental, and physical health, development and well-being.
- **Community Connections and Natural Supports:** Enhance the quality of life by supporting the integration of families into their own communities.

In addition to licensure, service providers that offer addiction services must demonstrate competency as defined by state law and regulations. Any practitioner above must operate within a child serving agency that is licensed, certified, designated and/or approved by OCFS, OMH, OASAS or DOH or its designee, in settings permissible by that designation.

Inpatient hospital visits by these licensed practitioners are limited to those ordered by the child’s physician. Visits to nursing facilities are allowed for licensed professionals other than social workers if a Preadmission Screening and Resident Review (PASRR) indicates it is medically necessary treatment. Social worker visits are included in the Nursing Facility Visit and may not be billed separately. Visits to ICF-IDD facilities are non-covered. All NP-LBHP services provided while a person is a resident of an (Institution for Mental Diseases) (IMD), such as a free standing psychiatric hospital or psychiatric residential treatment facility, are part of the institutional service and not otherwise reimbursable by Medicaid.

Non-physician licensed behavioral health practitioners (NP-LBHPs) will assess the child prior to developing a treatment plan for the child. Authorization of the treatment plan is required by the DOH or its designee. Evidence-based practices (EBPs) require approval, designations, and fidelity reviews on an ongoing basis as determined necessary by New York State. Treatment services must be part of a treatment plan including goals and activities necessary to correct or ameliorate conditions discovered during the initial assessment visits.

**Assurances:**

The State assures that all NP-LBHP services are provided to, or directed exclusively toward the treatment of, the Medicaid eligible individual in accordance with section 1902(a)(10)(A)(i) of the Act.

The State assures that NP-LBHP services do not include and FFP is not available for any of the following:

Program Name: Community Psychiatric Support and Treatment (CPST)

Description: Community Psychiatric Support and Treatment (CPST) services are goal-directed supports and solution-focused interventions intended to address challenges associated with a behavioral health need and to achieve identified goals or objectives as set forth in the child’s treatment plan. This includes the implementation of interventions using evidence-based techniques, drawn from cognitive-behavioral therapy and/or other evidence-based psychotherapeutic interventions approved by New York State. CPST is a face-to-face intervention with the child, family/caregiver or other collateral supports. This service is recommended by any of the following licensed practitioners of the healing arts operating within the scope of their practice under State license: Licensed Master Social Worker (LMSW), Licensed Clinical Social Worker (LCSW), Licensed Mental Health Counselor, Licensed Creative Arts Therapist, Licensed Marriage and Family Counselor, Licensed Psychoanalyst, Licensed Psychologist, Physician’s Assistant, Psychiatrist, Physician, Registered Professional Nurse, or Nurse Practitioner. CPST is designed to provide community-based services to children and families who may have difficulty engaging in formal office settings, but can benefit from community based rehabilitative services. CPST allows for delivery of services within a variety of permissible settings including community locations where the child lives, works, attends school, engages in services (e.g. provider office sites), and/or socializes. Family is a birth, foster, adoptive or self-created unit of people residing together, with significant attachment to the individual, consisting of adult(s) and/or child (ren), with adult(s) performing duties of parenthood/caregiving for the child (ren) even if the individual is living outside of the home. CPST face-to-face interventions may include other collateral supports beyond the individual or family/caregiver, as necessary.

Practitioner qualifications: CPST may be provided by an individual who has at least a bachelor’s degree level with a minimum of two years of applicable experience in children’s mental health, addiction, and/or foster care/child welfare/juvenile justice. These practitioners may include: Registered Professional Nurses with one year of behavioral health experience, Licensed Occupational Therapists, and Licensed Creative Arts Therapists to the extent they are operating under the scope of their license.

Practitioners with a bachelor’s degree may only perform the following activities under CPST: Family and Group Counseling/Therapy (Rehabilitative psychoeducation), Service Planning (Strengths-based treatment planning), or the Rehabilitative Supports portion of Individual and Group Counseling/Therapy.

Practitioners with at least a bachelor’s degree, certified in an Evidenced Based Practice consistent with the CPST component being delivered, and designated by the State OR a master’s degree level in social work, psychology, or in related human services plus one year of applicable experience OR who has been certified in an Evidenced Based Practice may perform any of the activities under CPST listed above without any exclusions.

The interventions and skill building identified by the CPST practitioner and family may be implemented by the child and family with the assistance of a peer (under Peer Supports Services), Psychosocial Rehabilitation practitioner (under Psychosocial Rehabilitation Services) or the CPST practitioner, if necessary.
13d. Rehabilitative Services: EPSDT only (Continued)
Community Psychiatric Support and Treatment (CPST) Description (Continued)
Practitioner Qualifications (Continued)

Supervisor Qualifications: Individuals providing services under CPST must receive regularly scheduled supervision from a professional meeting the qualifications of at least a Licensed Clinical Social Worker (LCSW), Licensed Mental Health Counselor, Licensed Creative Arts Therapist, Licensed Marriage and Family Therapists, Licensed Psychoanalyst, Licensed Psychologist, Physician's Assistant, Psychiatrist, Physician, Registered Professional Nurse, or Nurse Practitioner operating within the scope of their practice, with at least 2-3 years of work experience. Supervisors must also be aware of and sensitive to trauma informed care and the cultural needs of the population of focus and how to best meet those needs, and be capable of training staff regarding these issues.

Provider Agency Qualifications: Any child serving agency or agency with children's behavioral health and health experience that is licensed, certified, designated and/or approved by OCFS, OMH, OASAS or DOH or its designee, to provide comparable services referenced in the definition.

The provider agency will assess the child prior to developing a treatment plan for the child. Authorization of the treatment plan is required by the DOH or its designee. Treatment services must be part of a treatment plan including goals and activities necessary to correct or ameliorate conditions discovered during the initial assessment visits. CPST service delivery may also include collateral contact. Evidence-based practices (EBPs) require approval, designations, and fidelity reviews on an ongoing basis as determined necessary by New York State.

Service Planning (Strengths-based treatment planning):
Description: Strengths-based treatment planning - Facilitate participation in and utilization of strengths-based planning for Medicaid services and treatments related to child’s behavioral health/health needs which include assisting the child and family members, caregiver or other collateral supports with identifying strengths and needs, resources, natural supports, within the context of the client’s culture and developing goals and objectives to utilize personal strengths, resources, and natural supports to address functional deficits associated with their behavioral health disorder.

Practitioner Qualifications: Strengths-based treatment planning may be provided by an individual who has at least a bachelor’s degree level with a minimum of two years of applicable experience in children’s mental health, addiction, and/or foster care/child welfare/ juvenile justice OR At least a bachelor’s degree level, certified in an Evidenced Based Practice consistent with the CPST component being delivered, and designated by the State OR A master’s degree level in social work, psychology, or in related human services plus one year of applicable experience OR who has been certified in an Evidenced Based Practice.
13d. Rehabilitative Services: EPSDT only (Continued)
Program Name: Community Psychiatric Support and Treatment (CPST) (Continued):

Individual Counseling/Therapy (Intensive Interventions):
**Description:** Intensive Interventions - Provide individual supportive treatment and counseling; solution-focused interventions consistent with cognitive behavior therapy and psycho-educational therapy; harm reduction; emotional, cognitive and behavioral management; and problem behavior analysis with the child and family/caregiver, with the goal of assisting the child with social, interpersonal, self-care, daily functioning, and independent living skills to restore stability, to support functional gains and to adapt to community living. This includes the implementation of interventions using evidence-based techniques, drawn from cognitive-behavioral therapy and/or other evidence based psychotherapeutic interventions with prior authorization from NYS that ameliorate targeted symptoms and/or recover the person's capacity to cope with or prevent symptom manifestation.

Individual Counseling/Therapy (Crisis Avoidance):
**Description:** Crisis Avoidance - Assist the child and family/caregiver with effectively responding to or preventing identified precursors or triggers that would risk their ability to remain in a natural community location, including assisting the child and family members, caregivers or other collateral supports with identifying a potential psychiatric or personal crisis; practicing de-escalation skills; developing a crisis management plan; assessing the step-by-step plan before a crisis occurs; developing strategies to take medication regularly; and seeking other supports to restore stability and functioning.

Individual Counseling/Therapy (Rehabilitative Supports):
**Description:** Rehabilitative Supports - Restoration, rehabilitation, and support to minimize the negative effects of behavioral health symptoms or emotional disturbances that interfere with the individual’s daily functioning. Counseling helps restore life safety skills such as ability to access emergency services, basic safety practices and evacuation, physical and behavioral health care (maintenance, scheduling physicians appointments) recognizing when to contact a physician, self-administration of medication for physical and mental health or substance use disorder conditions, understanding purpose and possible side effects of medication prescribed for conditions, other common prescription and non-prescription drugs and drug uses. Group face-to-face counseling may occur in rehabilitative supports.

Practitioner qualifications:
Rehabilitative Supports components of Individual Counseling/Therapy may be provided by an individual who has at least a bachelor’s degree level with a minimum of two years of applicable experience in children’s mental health, addiction, and/or foster care/child welfare/juvenile justice OR At least a bachelor’s degree level, certified in an Evidenced Based Practice consistent with the CPST component being delivered, and designated by the State OR a master’s degree level in social work, psychology, or in related human services plus one year of applicable experience OR who has been certified in an Evidenced Based Practice.

CPST Components (Continued):

Crisis Intervention (Intermediate term crisis management):
Description: Intermediate term crisis management - Provide intermediate-term crisis management to the child and family following a crisis (beyond 72 hour period) as stated in the crisis management plan. The purpose of this activity is to stabilize the child/youth in the home and natural environment. Goal setting is focused upon the issues identified from crisis intervention, emergency room crisis and other referral. The service is intended to be stability focused and for existing clients of CPST services or for children needing longer term crisis managements services.

Practitioner qualifications: Intermediate term crisis management may be provided by an individual who has at least a bachelor’s degree level, certified in an Evidenced Based Practice consistent with the CPST component being delivered, and designated by the State OR a master’s degree level in social work, psychology, or in related human services plus one year of applicable experience OR who has been certified in an Evidenced Based Practice.

Rehabilitative Services: EPSDT only

Program Name: Psychosocial Rehabilitation
Description: Psychosocial Rehabilitation Services (PSR) are designed for children and their families to assist with implementing interventions outlined on a treatment plan to compensate for or eliminate functional deficits and interpersonal and/or behavioral health barriers associated with a child/youth’s behavioral health needs. The intent of PSR is to restore, rehabilitate, and support a child/youth’s functional level as possible and as necessary for integration of the child/youth as an active and productive member of their community and family with minimal ongoing professional intervention. PSR can occur in a variety of settings including community locations where the child/youth lives, works, attends school, engages in services (e.g. provider office sites), and/or socializes. Family is a birth, foster, adoptive, or self-created unit of people residing together, with significant attachment to the individual, consisting of adult(s) and/or child(ren), with adult(s) performing duties of parenthood/caregiving for the child(ren) even if the individual is living outside of the home.

Activities included must be intended to achieve the identified goals or objectives as set forth in the child/youth individualized treatment plan. PSR is an individual or group face-to-face intervention and may include collateral contact. PSR is recommended by any of the following licensed practitioners of the healing arts operating within the scope of their practice under State license: Licensed Master Social Worker (LMSW), Licensed Clinical Social Worker (LCSW), Licensed Mental Health Counselor, Licensed Creative Arts Therapist, Licensed Marriage and Family Therapist, Licensed Psychoanalyst, Licensed Psychologist, Physician’s Assistant, Psychiatrist, Physician, Registered Professional Nurse, or Nurse Practitioner.

13d. Rehabilitative Services: EPSDT only (Continued)
Psychosocial Rehabilitation (Continued)

Description (Continued):

The professional uses partnerships and mutual support, as well as hands-on implementation of rehabilitation interventions to improve personal independence and autonomy including:

1) Restoration, rehabilitation and support to reduce the effect of the child’s behavioral health diagnosis and re-establish social and interpersonal skills to increase community tenure, enhance personal relationships, establish support networks, increase community awareness, develop coping strategies and effective functioning in the individual’s social environment, including home, work and school. This includes learning to confidently manage stress, unexpected daily events and disruptions, and behavioral health and physical health symptoms. It also includes support to establish and maintain friendships/supportive social networks, improve interpersonal skills such as social etiquette and anger management.

2) Restoration, rehabilitation and support to reduce the effect of the child’s diagnosis and re-establish daily functioning skills to improve self-management of the negative effects of psychiatric or emotional symptoms that interfere with a person’s daily functioning. This includes supporting the individual with implementation of interventions to re-establish daily functioning skills and daily routines necessary to remain in home, school, work and community, including managing medications and learning self-care. It also includes development of constructive and comfortable interactions with healthcare professionals, develop relapse prevention strategies, and re-establishing good health routines and practices.

3) Restoration, rehabilitation and support to reduce the effect of the child’s diagnosis and re-establish social skills so that the person can remain in a natural community location and re-achieve developmentally appropriate functioning including using collaboration, partnerships and mutual supports to strengthen the individual’s community integration in areas of personal interests as well as other domains of community life including home, work and school. This includes assisting the individual with generalizing coping strategies and social and interpersonal skills in community settings. The professional may assist the individual with effectively responding to or avoiding identified precursors or triggers that result in functional impairments.

Practitioner Qualifications: Must be 18 years old and have a high school diploma, high school equivalency preferred, or a State Education Commencement Credential (e.g. SACC or CDOS); with a minimum of three years’ experience in children’s mental health, addiction and/or foster care.

Non-Physician Licensed Behavioral Health Practitioner Services (EPSDT only - cont.)

The rate development methodology will primarily be composed of provider cost modeling, through New York provider compensation studies and cost data. Rates from similar State Medicaid programs may be considered, as well. The following list outlines the major components of the cost model to be used in rate development.

- Staffing assumptions and staff wages.
- Employee-related expenses — benefits, employer taxes (e.g., Federal Insurance Contributions Act (FICA), unemployment, and workers compensation).
- Program-related expenses (e.g., supplies).
- Provider overhead expenses.
- Program billable units.

The rates will be developed as the ratio of total annual modeled provider costs to the estimated annual billable units.

All rates are published on the Department of Health website:

The rate development methodology will primarily be composed of provider cost modeling, through New York provider compensation studies and cost data. Rates from similar State Medicaid programs may be considered, as well. The following list outlines the major components of the cost model to be used in rate development.

- Staffing assumptions and staff wages.
- Employee-related expenses — benefits, employer taxes (e.g., Federal Insurance Contributions Act (FICA), unemployment, and workers compensation).
- Program-related expenses (e.g., supplies).
- Provider overhead expenses.
- Program billable units.

The rates will be developed as the ratio of total annual modeled provider costs to the estimated annual billable units.
The Department of Health proposes to amend the Title XIX (Medicaid) State Plan for non-institutional services. The following changes are proposed:

Effective on or after October 1, 2017, the Commissioner of Health will amend the State Plan for Health Home services to reduce the per member per month (pmpm) “outreach” payment for members in the case finding group that have been assigned to a Health Home from $135 (pmpm) to a rate no less than $100. In addition, the billing cycles applicable to outreach will be modified, and may include limiting payments for outreach to two consecutive months and requiring a face-to-face meeting in the second month.

The public is invited to review and comment on this proposed State Plan Amendment, a copy of which will be available for public review on the Department’s website at http://www.health.ny.gov/regulations/state_plans/status.

Copies of the proposed State Plan Amendments will be on file in each local (county) social services district and available for public review.

PUBLIC NOTICE
Department of Health

The New York State Department of Health is submitting a request to the federal Centers for Medicare and Medicaid Services (CMS) to amend New York State’s Medicaid Section 1115 Medicaid Redesign Team (MRT) Waiver.

Beginning no earlier than January 1, 2018, New York is seeking approval with this demonstration amendment to:

- Expand the 1115 benefit package to include those OPWDD Medicaid services targeted for individuals with intellectual and developmental disabilities not previously included in the waiver benefit package.
- Transition coverage under the Office for People with Developmental Disabilities (OPWDD) 1915(c) Comprehensive Home and Community Based Services (HCBS) waiver to the 1115 demonstration.
- Remove the exemption from mandatory enrollment into Medicaid Managed Care (MMC) for Medicaid eligible persons who have an intellectual and/or developmental disability (IDD) as defined in Mental Hygiene Law 1.03, unless the individual is otherwise excluded from enrollment, i.e., available comprehensive Third Party Health Insurance and/or Medicare. Individuals who have an intellectual and/or...

PUBLIC NOTICE
Department of State
F-2018-0034

Date of Issuance – November 7, 2018

The New York State Department of State (DOS) is required by Federal regulations to provide timely public notice for the activities described below, which are subject to the consistency provisions of the Federal Coastal Zone Management Act (CZMA) of 1972, as amended.

The applicant has certified that the proposed activities comply with and will be conducted in a manner consistent with the federally approved New York State Coastal Management Program (NYSCMP). The applicant’s consistency certification and accompanying public information and data are available for inspection at the New York State Department of State offices located at One Commerce Plaza, 99 Washington Avenue, in Albany, New York, and are available for review at: http://www.dos.ny.gov/opd/programs/pdfs/Consistency/F-2018-0034ForPN
In F-2018-0034, Carver Realty, LLC proposes to stabilize ~490 linear feet of Coeymans Creek shoreline using heavy armor stone and plantings. When complete the bank will have a 2:1 to 3:1 slope. A portion of the proposed work would be conducted below the Mean High Tide Line. The activity is proposed along the southern shoreline of Coeymans Creek near the creek’s confluence with the Hudson River. The property is owned by the applicant and is operated as the Coeymans Landing Marina.

The stated purpose of the proposed activity is to provide bank stabilization along the bank of Coeymans Creek and reduce further erosion of the stream bank.

Any interested parties and/or agencies desiring to express their views concerning any of the above proposed activities may do so by filing their comments, in writing, no later than 4:30 p.m., 15 days from the date of publication of this notice or November 22, 2018.

Comments should be addressed to: Department of State, Office of Planning and Development and Community Infrastructure, Consistency Review Unit, One Commerce Plaza, Suite 1010, 99 Washington Ave., Albany, NY 12231, (518) 474-6000. Electronic submissions can be made by email at: CR@dos.ny.gov

This notice is promulgated in accordance with Title 15, Code of Federal Regulations, Part 930.

PUBLIC NOTICE

Department of State
F-2018-0736

Date of Issuance – November 7, 2018

The New York State Department of State (DOS) is required by Federal regulations to provide timely public notice for the activities described below, which are subject to the consistency provisions of the Federal Coastal Zone Management Act of 1972, as amended.

The applicant has certified that the proposed activity complies with and will be conducted in a manner consistent with the federally approved New York State Coastal Management Program (NYSCMP). The applicant’s consistency certification and accompanying public information and data are available for inspection at the New York State Department of State offices located at One Commerce Plaza, 99 Washington Avenue, in Albany, New York.

In F-2018-0737, the applicant, Village of Kings Point, proposes to remove invasive vegetation at several locations immediately east of and along the East Shore Road (approximately 620 feet north of the intersection of Ravine Road and East Shore Road) in Kings Point, Nassau County. The project area borders the Manhasset Bay and all property is owned by the Village of Kings Point. Invasive species targeted include several invasive trees, shrubs, and vines as well as invasive common reed or Phragmites. Mechanical and chemical treatment with EPA approved herbicide glyphosate is proposed and long-term management of the various species will be employed as well as planting of the areas with native vegetation. Mechanical means will be employed to the maximum extent practicable. A 324+/- linear foot barrier at the southern portion of the site will be installed to prevent further Phragmites spreading. Best management practices include use of coir matting and silt fencing as needed. Native trees and plants will be protected during the treatment of invasive target species. All work is to be completed in one phase.

Any interested parties and/or agencies desiring to express their views concerning any of the above proposed activities may do so by filing their comments, in writing, no later than 4:30 p.m., 15 days from the date of publication of this notice or November 22, 2018.

Comments should be addressed to: Department of State, Office of Planning and Development and Community Infrastructure, Consistency Review Unit, One Commerce Plaza, Suite 1010, 99 Washington Ave., Albany, NY 12231, (518) 474-6000, Fax (518) 473-2464. Comments can also be submitted electronically via e-mail to: CR@dos.ny.gov

This notice is promulgated in accordance with Title 15, Code of Federal Regulations, Part 930.

PUBLIC NOTICE

Department of State
F-2018-0777

Date of Issuance – November 7, 2018

The New York State Department of State (DOS) is required by Federal regulations to provide timely public notice for the activities described below, which are subject to the consistency provisions of the Federal Coastal Zone Management Act of 1972, as amended.

The applicant has certified that the proposed activity complies with and will be conducted in a manner consistent with the approved New York State Coastal Management Program. The applicant’s consistency certification and accompanying public information and data are available for inspection at the New York State Department of State’s website at http://www.dos.ny.gov/opd/programs/pdfs/Consistency/F-2018-0777GosierCantileverSystem.pdf

In F-2018-0777, or the “Gosier Cantilever System”, the applicant – Mary Gosier – proposes to construct a cantilever system at ground level. The proposed cantilever system includes a 300 square foot composite deck built on steel super structure. The project includes steel stairs from the steel structure to the water. The steel beam structure will be a total of 37 feet long by 11 feet-eight inches wide. The project is located at 20849 Hess Shore Drive in the Town of Hounsfield, Jefferson County, New York on Black River Bay. The application states purpose of the project is “to provide stairs for access to the water from the property. To also provide a deck and means to pull a boat out of the water.”

Any interested parties and/or agencies desiring to express their views concerning the above proposed activities may do so by filing their comments, in writing, no later than 4:30 p.m., 30 days from the date of publication of this notice, or December 7, 2018.
This State Plan Amendment proposes to provide transitional Health Home payments to a transitioning provider who will be providing Health Home care management services to a child and who is currently providing Health Care Integration (HCI) or Individualized Care Coordination (ICC) under the current approved 1915c Waiver. Those providers will be entitled to bill the transition rate for up to 2 years. A transitional rate will only be allowed to be billed if there is a corresponding Health Home enrolled child with the appropriate documented Health Home required core service(s) provided to bill the Health Home acuity rate. During this period from January 1, 2019 through December 31, 2020, the provider would continue to bill for the Health Home rate.

Agency Rates

Describe the rates used

- FFS Rates included in plan
- Comprehensive methodology included in plan
- The agency rates are set as of the following date and are effective for services provided on or after that date
Health Homes Payment Methodologies

Rate Development

Provide a comprehensive description in the SPA of the manner in which rates were set

1. In the SPA please provide the cost data and assumptions that were used to develop each of the rates
2. Please identify the reimbursable unit(s) of service
3. Please describe the minimum level of activities that the state agency requires for providers to receive payment per the defined unit
4. Please describe the state’s standards and process required for service documentation, and
5. Please describe in the SPA the procedures for reviewing and rebasing the rates, including
   - the frequency with which the state will review the rates, and
   - the factors that will be reviewed by the state in order to understand if the rates are economic and efficient and sufficient to ensure quality services.

Comprehensive Description

Provide a comprehensive description of the rate-setting policies the State will use to establish Health Homes provider reimbursement fee for service or PMPM rates. Explain how the methodology is consistent with the goals of efficiency, economy, and quality of care. Within your description, please explain: the reimbursable unit(s) of service, the cost assumptions and other relevant factors used to determine the payment amounts, the minimum level of activities that the State agency requires for providers to receive payment per the defined unit, and the State’s standards and process required for service documentation.

Provider Type

NYS Medicaid providers eligible to become health homes include managed care plans; hospitals; medical, mental and chemical dependency treatment clinics; primary care practitioner practices; PCMHs; FQHCs; Targeted Case Management (TCM) providers; certified home health care agencies and any other Medicaid enrolled providers that meet health home provider standards.

Care Management Fee

Health Homes meeting State and Federal standards will be paid a per member per month care management fee that is adjusted based on region and case mix method for adults, or the Child and Adolescent Needs and Strength Assessment of New York (CANS-NY) for children age 0 through 20. The total cost relating to a care manager (salary, fringe benefits, non-personal services, capital and administration costs) in conjunction with case load assumptions were used to develop the Health Home rates. The state periodically reviews the Health Home payments in conjunction with Department of Labor salary data to ensure that the Health Home rates are sufficient to ensure quality services.

Effective May 1, 2018, the per member per month care management fee for adults will be based on region and case mix defined by populations as indicated below. Health Home rates for children will continue to be determined by an algorithm applied to the CANS-NY assessment. The risk adjusted payments will allow providers to receive a diverse population of patients and assign patients to various levels of care management intensity without having to meet preset standards for contact counts. Providers will be able to respond to and adjust the intensity and frequency of intervention based on patient’s current condition and needs (from tracking to high touch). All rates will be published on the DOH website. Except as otherwise noted in the plan, state developed fee schedule rates are the same for both governmental and private providers. Rates for Health Home services to children are effective October 1, 2016 and apply to services furnished on and after such dates.

For dates of service beginning June 1, 2018 through December 31, 2018, the per member per month care management fee for Health Homes that are, as of June 1, 2018, designated to serve children only, or designated to serve children in 43 counties and adults and children in one county, shall be adjusted to provide $4 million in payments to supplement care management fees. The supplemental payments shall be paid no later than March 31, 2019 and will be allocated proportionately among such Health Homes based on services provided between June 1, 2018 and December 1, 2018. The supplement shall be a lump sum payments.

Rates for Health Home services furnished to other populations are effective as noted below and apply to services furnished on and after such dates.
The Medicaid/FEP Model Contract has been modified to include language similar to that outlined below which addresses any duplication of payment between the MCO capitation payments and health home payments. The delivery design and payment methodology will not result in any duplication of payment between Health Homes and managed care.

- The managed care plan is not required to provide services that would duplicate the CMS reimbursed Health Home services for members participating in the State's Health Home program.
- The managed care organization will be informed of members assigned to a Health Home or will assign its members to a Health Home for health home services. Plans may need to expand their networks.

Population Case Mix Definitions for Health Home Adult Rates

Health Home Plus/Care Management Rates include adults with active AOT order or expired AOT order within last year; adults stepping down from State PC and ACT; Health and Recovery Plan (HARP) members that meet high risk criteria (recent incarceration, homelessness, multiple hospital admissions, etc.); and members identified at the discretion of the Medicaid Managed Care Plan or state designated entity for adults not currently enrolled in a Medicaid Managed Care Plan.

Health Home High Risk/Need Care Management Rates, include adults that are HARP enrolled members not included in the Health Home Plus/Care Management; any adult member meeting high risk criteria based on the high, medium and low, Clinical and Functional Assessment; and members identified at the discretion of the Medicaid Managed Care Plan or state designated entity for adults not currently enrolled in a Medicaid Managed Care Plan.

Health Home Care Management Rates, include all other adults not meeting criteria for Health Home Services. Adult Home Transition Rates, Health Home Plus/Care Management or High Risk/High Need Care Management Rates.

Health Home Services Adult Home Transition Rates apply to individuals, under the terms of a Stipulation and Order of Settlement between the U.S. Department of Justice and New York State, that are Adult Home Residents with serious mental illness (SMI) that are required to transition from Adult Homes located in New York City to the community.

The care management fee will be paid in two increments based on whether a patient was in 1) the case finding group or 2) the active care management group. Effective October 1, 2017, the case finding group will receive a PMPM for two consecutive months after a patient has been assigned or referred to the health home. The consecutive second month must be documented by a face-to-face contact. Two additional months of the case finding PMPM may be billed with a rolling 12 month period. Effective October 1, 2018, the PMPM will be reduced as indicated in the State Health Home Rates and Rate Codes posted to the State's website as indicated above. This PMPM is intended to cover the cost of outreach and engagement.

A unit of service will be defined as a billable unit per service month. In order to be reimbursed for a billable unit of service per month health home providers must, at a minimum, provide one of the core health home services per month. The monthly payment will be paid via the case finding and active care management PMPM. To bill the active case management fee, the patient must have: consented to receive services, been assigned to a care manager and be enrolled in the health home program. Care managers must document all services provided to the member in the member's care plan.

Managed Care Considerations:

Similar to the NY patient centered Medical Home program, it is the intention of the State to coordinate and pay for health home services through health plans but at State set rates for the service. The State will address any existing care management resources in the current plan premium for health home enrollees under CMS guidelines (bring this resource out of the capitation and create federal matching for those resources under the health home payment). Plans will pay health home providers State set rates when providers are contracted to provide all health home services. In the case where the plan does a portion of the health home service (e.g. telephonic post discharge tracking) and downstream providers do a separate portion (e.g. face to face care management) the plan will then split the State generated PMPM proportional to the contracted effort.

The Medicaid/FEP Model Contract has been modified to include language similar to that outlined below which addresses any duplication of payment between the MCO capitation payments and health home payments. The delivery design and payment methodology will not result in any duplication of payment between Health Homes and managed care.
to include additional State designated health home providers to ensure appropriate access.
- Plans will need to have signed contracts including clearly established responsibilities with the provider based health homes.
- The managed care plan will be required to inform either the individual's Health Home or the State of any inpatient admission or discharge of a Health Home member that the plan learns of through its involuntary admission initial authorization and concurrent review processes as soon as possible to promote proper follow-up and coordination of services.
- Plans will assist State designated Health Home providers in their network with coordinating access to data, as needed.
- Plans will, as appropriate, assist with the collection of required care management and patient experience of care data from State designated Health Home providers in its network.

The State has a health home advisory committee of providers and managed care plans through which any issues with payment would be raised and addressed. Directions have been given to health plans to match health home payment to providers based on relative health home care management effort. Further information on specific construction on health home rates includes specific administration compensation to guide rate differential construct.

Targeted Case Management (TCM) Conversion Considerations:

The State envisions that eventually all targeted case management programs operating in New York will convert to or become part of health homes, and these providers will require time to meet State and Federal health home standards. The State will allow TCM providers that can meet health home standards to convert to health homes or join with larger health homes. TCM providers that convert to health homes will be governed under NYS Health Home Provider Qualification Standards, not TCM standards. The payment method will be designed to transition all existing TCM capacity from the current rates to the new Health Home payment structure. Effective January 1, 2015 TCM programs for adults will be paid their existing TCM rates until November 30, 2016. Effective October 1, 2016 through September 30, 2018 TCM programs for children will be paid a transitional rate that is financially equivalent as practicable to their current rate.

Health Home care management services may be provided to children that are eligible and enrolled in both the Early Intervention Program and Health Home, and will meet and fulfill the requirements of the ongoing service coordination required to be provided to children enrolled in the Early Intervention Program.

All payments will be made under the health home payment detailed above in the care management fee section if they convert to or become part of a health home. Effective October 1, 2017, the case finding PMPM will be paid under the provisions described in the care management fee section.

Children's Transitional Rates

Providers delivering Individualized Care Coordination (ICC) under the 1915C SED or Health Care Integration (HCI) under the 1915C BH1 waivers, who shall provide Health Home Care Management Services in accordance with this section effective on January 1, 2019, shall be eligible for a transition rate add-on for two years to enable providers to transition to Health Home rates. Health Home Care Management Services eligible for the transition rate add-on shall be limited to services provided to the number of children such providers served as of December 31, 2018. Services provided to a greater number of children than such providers served as of December 31, 2018 shall be reimbursed the Health Home rate without the add-on. The transition methodology is set forth in the transitional rate chart.

### Other Notes

- Rates are subject to change without notice.
- Contact your local Medicaid office for the most current information.
- Rates applicable to specific regions as noted.
- Please consult the official source for detailed information.
The State provides assurance that it will ensure non-duplication of payment for services similar to Health Homes services that are offered/covered under a different statutory authority, such as 1915(c) waivers or targeted case management.

Describe below how non-duplication of payment will be achieved. All rates are published on the DOH website. Except as otherwise noted in the plan, state developed fee schedule rates are the same for both governmental and private providers. All of the above payment policies have been developed to assure that there is no duplication of payment for health home services. http://www.health.ny.gov/health_care/medicaid/program/medicaid_health_homes/rate_information.htm.

The state has developed payment methodologies and rates that are consistent with section 1902(a)(30)(A).

The State provides assurance that all governmental and private providers are reimbursed according to the same rate schedule, unless otherwise described above.

The State provides assurance that it shall reimburse providers directly, except when there are employment or contractual arrangements consistent with section 1902(a)(32).

PUBLIC NOTICE
Department of Health

Pursuant to 42 CFR Section 447.205, the Department of Health hereby gives public notice of the following:

The Department of Health proposes to amend the Title XIX (Medicaid) State Plan for non-institutional services. The following changes are proposed:

Institutional Services

Effective on or after January 1, 2019, the State will provide transitional health home payments to a transitioning provider who will be providing Health Home care management services to a child and who is currently providing Health Care Integration (HCI) or Individualized Care Coordination (ICC) under the current approved 1915c Waiver. Those providers will be entitled to bill the transition rate for up to 2 years. A transitional rate will only be allowed to be billed if there is a corresponding Health Home enrolled child with the appropriate documented Health Home required core service(s) provided to bill the Health Home acuity rate. During this period from January 1, 2019 through December 31, 2020, the provider would continue to bill for the Health Home rate.

There is no additional estimated annual change to gross Medicaid expenditures as a result of this proposed amendments.

The public is invited to review and comment on this proposed State Plan Amendment, a copy of which will be available for public review on the Department’s website at http://www.health.ny.gov/regulations/state_plans/status. Individuals without Internet access may view the State Plan Amendments at any local (county) social services district.

For the New York City district, copies will be available at the following places:

PUBLIC NOTICE
Department of State
F-2018-0816
Date of Issuance – November 14, 2018

The New York State Department of State (DOS) is required by Federal regulations to provide timely public notice for the activities described below, which are subject to the consistency provisions of the Federal Coastal Zone Management Act (CZMA) of 1972, as amended.

The applicant has certified that the proposed activities comply with and will be conducted in a manner consistent with the federally approved New York State Coastal Management Program (NYSCMP). The applicant’s consistency certification and accompanying public information and data are available for inspection at the New York State Department of State offices located at One Commerce Plaza, 99 Washington Avenue, in Albany, New York.

In F-2018-0816, The City of Peekskill is proposing to remove and replace the existing Fleischmann Pier within the Hudson River at Charles Point Park, City of Peekskill, Westchester County. The City’s consistency certification and supporting materials can be downloaded at: https://www.dos.ny.gov/opd/programs/consistency/scfwcons.html; https://www.dos.ny.gov/opd/programs/consistency/LWRPstatus.html;

The City has proposed that the new pier will be 487 feet long by 11 feet (ft) wide and will be located 25 to 34 ft north of the existing pier. A dolphin is proposed on the north side of the pier at its western terminus. About 90 ft from the end of the pier, there will be a 16-ft-wide boarding ramp area to accommodate large tour vessels, which will accommodate ADA-compliant gangways for boarding and disembarking passengers. There will be 10-ft-wide double gates at this boarding ramp area, on either side of the pier, and at the end of the pier. In addition to a new pier running parallel to the position of the existing one (to be removed), there will be three floating docks that will be accessed by gangways running northward from the pier. These docks will be used for short-term mooring of smaller boats and launching of small watercraft. Two aluminum frame docks for smaller boats will each measure 8 ft by 50 ft [400 square (sq) ft] and be connected to the pier by a 4 ft by 30 ft (120 sq ft) gangway connecting each to the pier. A third ADA-compliant kayak launch will measure 12 ft by 18 ft (216 sq ft), and be connected to the pier by a 6 ft by 12 ft (72 sq ft) floating dock and a 4 foot by 50 foot (200 sq ft) aluminum gangway. All of the pier components, including floating docks, have a collective area of 7,058 square feet.

The proposed activity would be located within or has the potential to affect the following Special Management or Regulated Area(s):

- City of Peekskill Local Waterfront Revitalization Program: https://www.dos.ny.gov/opd/programs/WFRevitalization/LWRPstatus.html;
- Hudson Highlands Significant Coastal Fish and Wildlife Habitat: https://www.dos.ny.gov/opd/programs/consistency/scfwhabitats.html;
- Hudson Highlands (HH-14) Scenic Area of Statewide Significance: https://www.dos.ny.gov/opd/programs/consistency/scenicsass.html;
Any interested parties and/or agencies desiring to express their views concerning any of the above proposed activities may do so by filing their comments, in writing, no later than 4:30 p.m., 15 days from the date of publication of this notice or by Thursday, November 29, 2018.

Comments should be addressed to: Department of State, Office of Planning and Development and Community Infrastructure, Consistency Review Unit, One Commerce Plaza, Suite 1010, 99 Washington Ave., Albany, NY 12231, (518) 474-6000. Electronic submissions can be made by email at: CR@dos.ny.gov

This notice is promulgated in accordance with Title 15, Code of Federal Regulations, Part 930.

PUBLIC NOTICE
Department of Taxation and Finance
Interest Rates

The Commissioner of Taxation and Finance hereby sets the interest rates for the months of January, February, and March 2019 pursuant to sections 697(j) and 1096(e) of the Tax Law, as follows:

For purposes of section 697(j) the overpayment rate of interest is set at 5 percent per annum, and the underpayment rate of interest is set at 8.5 percent per annum. For purposes of section 1096(e), the overpayment rate of interest is set at 5 percent per annum, and the underpayment rate of interest is set at 10 percent per annum. (The underpayment rates set pursuant to sections 697(j) and 1096(e) may not be less than 7.5 percent per annum.) Pursuant to section 1145(a)(1) of the Tax Law, the underpayment rate for State and local sales and use taxes administered by the Commissioner of Taxation and Finance is 14.5 percent per annum. The underpayment rate for the special assessments on hazardous waste imposed by section 27-0923 of the Environmental Conservation Law is 15 percent.

For the interest rates applicable to overpayments (refunds) and underpayments (late payments and assessments) of the following taxes administered by the Commissioner of Taxation and Finance for the period January 1, 2019 through March 31, 2019, see the table below:

* The Tax Law requires the interest rate on sales tax assessments or late payments to be set at 14-1/2% for this quarter. However, if the Commissioner determines that the failure to pay or the delay in payment is due to reasonable cause and not willful neglect, the Commissioner may impose interest at the corporation tax late payment and assessment rate. That rate is 10% for this quarter.

** There are a number of state and local governmental bodies that have interest rates tied to the overpayment and underpayment rates contained in either section 697(j) (Income Tax) or section 1096(e) (Corporation Tax) of the Tax Law. For purposes of section 697(j) and section 1096(e) of the Tax Law, the overpayment rate for this period is 5%. For purposes of section 697(j) of the Tax Law, the underpayment rate for this period is 8.5%. For purposes of section 1096(e) of the Tax Law, the underpayment rate for this period is 10%.

*** Under section 527(f) of the Tax Law, the interest rates relating to the Fuel Use tax are set pursuant to the International Fuel Tax Agreement (IFTA). For more information regarding IFTA interest rates, see www.iftach.org.
