

New York State Cancer Registry, NYSDOH  
 Age-Adjusted Cancer Incidence and Mortality Rates  
 New York State, Whites, 1976-2019

All Invasive Malignant Tumors

Rates are age-adjusted to the 2000 US population standard.  
 Regression lines are calculated using the Joinpoint Regression Program Version 4.6.0.0, April 2018, National Cancer Institute (<http://srab.cancer.gov/joinpoint/>).  
 The data shown here are not identical to the data in the corresponding 2015-2019 incidence table. See the rationale in 'Considerations When Comparing Cancer Statistics Over Time.'

Rates are age-adjusted to the 2000 US population standard.  
 Regression lines are calculated using the Joinpoint Regression Program Version 4.6.0.0, April 2018, National Cancer Institute (<http://srab.cancer.gov/joinpoint/>).  
 The data shown here are not identical to the data in the corresponding 2015-2019 incidence table. See the rationale in 'Considerations When Comparing Cancer Statistics Over Time.'

New York State Cancer Registry, NYSDOH  
 Age-Adjusted Cancer Incidence and Mortality Rates  
 New York State, Blacks, 1976-2019

Myeloma

- △ △ △ Incidence among Males and Females      ○ ○ ○ Incidence among Males      □ □ □ Incidence among Females
- ● ● Mortality among Males and Females      ● ● ● Mortality among Males      ■ ■ ■ Mortality among Females

Rates are age-adjusted to the 2000 US population standard.  
 Regression lines are calculated using the Joinpoint Regression Program Version 4.6.0.0, April 2018, National Cancer Institute (<http://srab.cancer.gov/joinpoint/>).
